## Do you see what's left out of this Rice Pudding Recipe?

Beat 2 eggs and add 1 1/2 cups hot milk, 1/4 teaspoon salt and 1/4 teaspoon nutmeg. Four mixture over 2 cups of steamed rice. Bake in buttered dish set in a pan of water, for about 45 minutes at 325°, or until custard is set.

Of course you know what's left out! Sugar! And if you add one-half of a cup you will have perfect results and a most nourishing dessert in the bargain. Try this recipe soon. As the palatability of a pudding depends upon sugar, so does the taste appeal of certain familiar foods depend upon a dash of sugar. For example, canned or fresh vegetables, also stewed fruits, are much more appetizing when flavored thus. Try a dash of sugar in stewed corn, peas or carrots. And don't forget that cereal sprinkled with sugar tastes better. The more you enjoy healthful fruits and vegetables the more you will eat of them. Most foods are more delicious and nourishing when flavored with sugar. And no doctor will restrain you from using a dash of sugar any more than he will restrain you from using a pinch of salt.
