

SILVERTON TO HAVE MUSEUM

Permanent Home for Valuable Collection of Historical Treasures Plan

SILVERTON, March 26—(Special)—June D. Drake was elected chairman of the Silverton Historical society, the organization of which was begun Tuesday evening when a called meeting was held in the offices of Robert Goetz, superintendent of Silverton schools. P. L. Brown was elected secretary with R. G. Allen his assistant.

The purpose of the organization, according to its promoters, is two-fold. First the society will endeavor to provide a suitable place for the many articles of historical value which will be lost unless some effort is made to preserve them. And second, authentic data of the early history of Silverton will be collected and placed so that it will be available to anyone who may be interested in it.

Jean Lambert, principal of the Silverton high school, spoke of the value of such a collection to the schools. He further made the suggestion that the school board be consulted concerning the housing of such articles as might be donated. Mr. Lambert was made a committee of one to bring before the next meeting of the school board the securing in the school buildings of suitable housing for the proposed collection.

The next meeting of the association will be held on the evening of April 8th at the same place. At this time the constitution and by-laws of the organization will be discussed. Mrs. E. B. Kottke Sr., Mrs. P. L. Brown and Mrs. R. E. Kleinsorge were elected to act as an attendance committee for the next meeting. One important decision made at the Tuesday evening meeting was that everyone interested is welcome at the meetings, and that the organization will in no way be limited by length of residence at Silverton.

An informal discussion, disclosing much of interest followed the organization of the society. It was pointed out that some of Silverton's early pioneers were still here and that many interesting bits of history could be collected from them. Many there were who offered to loan or give articles which had been closely connected with Silverton's early history.

The society, speakers said, was now making a small beginning for what they hoped would some day be a valuable museum at Silverton. The present plans are to secure show cases which can be locked, and to place the articles in these cases which the society hopes, for the time being, at least to house in the school buildings.

"We do not want anyone to get the impression," said June Drake, "that we are collecting a lot of junk. We really have a thing of value here at Silverton, and historical societies everywhere are trying to secure these. In fact many articles which rightfully belong in a Silverton collection are now in the possession of Portland or Salem. It is to prevent the rest of our material from following that we are eager to sponsor such a society."

Mr. Drake had a number of pictures of Silverton taken long before paved streets were thought of, which those present Tuesday night greatly enjoyed looking at.

Relief from Gas Stomach Pains Dizziness

The doctors tell us that 90 per cent of all sickness is due to stomach and bowel troubles. You can be well if your digestion is bad; you are likely to get sick unless you relish food and digest it properly.

Tanlac has a wonderful record as a relief from digestive troubles, even those of years' standing. Local people, many of whom you know, are highly endorsing Tanlac. For example, Mrs. Ellen White says: "For years I suffered from indigestion. I got no relief from anything until I took Tanlac. After my fourth bottle, I feel like a new person and have a fine appetite."

If you suffer from gas, pains in the stomach or bowels, dizziness, nausea, constipation, or torpid liver; if you have no appetite, can't sleep and are nervous and all run down, you need Tanlac. It is good, pure medicine, made of roots, herbs and barks. Get a bottle from your druggist today. Money back if it doesn't help you. Accept no substitute. Adv.
