CHICAGO GRAIM

CHICAGO, March 26—(AP)—Unawars that the government report issued after the close would make a relatively bearish exhibition as to intended plantings, whese traders advanced prices today. Private advance estimates were that official figures on prospective domestic spring wheat acreage this season would show a reduction of about 10 percent whereas the government report put the expected total 20,197,000 acres against 26, 979,000 neres lest year. Today's apturns in wheat values were ascribed largely to buying on the part of farm board silles and to urgent need of rain in the southwest.

Wheat closed firm at the same as yesterday's finish to 7-8e higher. Corn closed unchanged to Me off and outs 1-8 to 6-8e up.
