# WOODBURN GARDEN CLUB HEARS LECTURE

### Miss Elizabeth Lord of Salem Discusses "Design of Small Garden"

WOODBURN, April 10.—A large number of interested flower lovers attended the spring garden club meeting Tuesday in the library.

Arthur Dickson, chairman of the city beautiful committee, urged all members to sign the yard and garden contest cards and to get their neighbors interested also. He said they would take for their slogan, "Be it ever so humble, but make it attractive."

H. F. Butterfield reported as chairman of the "City Beautiful" committee from the chamber of commerce and announced that G. A. Landon and A. W. Noyes had also been appointed to serve with him.

Mrs. H. F. Butterfield, chairman of the exhibit committee announced that there would be a spring flower show in two weeks, the date and place to be decided later; also there would be a plant sale for the benefit of the club at the same time.

To Sponsor Music Week. At the request of Mrs. C. C. Geer, chairman of good music week, the club went on record to support the movement. There was a beautiful display of narcissi and tulips from the Landon and Butterfield bulb gardens.

After the business session the speaker of the evening, Miss Elizabeth Lord of Salem was introduced by Mrs. H. L. Gill.

Miss Lord took for her subject the "Design of the Small Garden." She said the garden should always follow out the idea of the architecture of the house, colonial homes, should have simple gardens while the English type of garden house called for the English garden.

Rock Gardens Important. In building rock gardens, one should be very careful as to their location for to be effective they needed certain settings and they were placed for example in a prominent part of the front yard, all winter there would be just a pile of rocks to gaze upon.

One should have the architect and landscape gardener work together, because it was easy for one's work to ruin the other's.

Make your garden attractive from your favorite window for your own enjoyment. Shrubs should not be crowded, they need to breathe and beware of the garden hogs that multiply so rapidly they can scarcely be getting rid of.

In closing Miss Lord said a garden doesn't always have to have flowers in it, that one composed of evergreens was just the same because it was joy to the soul all through the year.

# CAMPUS DAY ENJOYED

## Woodburn High Students, Work, Eat and Play

# SENIORS GET BREAK

WOODBURN, April 10.—Despite the unexpectedness and short notice, the annual campus day at Woodburn high Wednesday was enjoyed immensely and considerable progress was made in adding to the appearance of the alma mater.

Old Sol seemed to feel sorry for the students who were being limited to only half a day for the campus day instead of the usual whole day, and shone brilliantly all during the day. At noon, everybody did his duty to the potluck lunch which was served in the cafeteria.

Following lunch the Girls' Booster club sold tags to finance the May fete and an hour was devoted to signing tags and doing dishes. At 1:30 the squads were called together and work upon the campus and building commenced. The radiators were cleaned, all the discarded "wads" removed from the desks, lawns cleaned, flowers planted, roads scarified and the outside buildings were cleaned up. After all the work was finished the tennis court and the ice cream stand attracted the attention of the students and at 2:30 everyone flocked to the grandstand and enjoyed the intensely exciting baseball game with Salem high.

When the afternoon was over all were happy and especially a majority of the seniors who footed the faculty and spent most of the morning in conference with a representative from the University of Oregon discussing courses of study and thereby gaining almost a whole holiday.

WOODBURN, April 10.—T. C. Poorman, who has been manager of the Bungalow theatre of Woodburn has been improving his place of business quite extensively during the past few days. A marquis has been constructed in front of the theatre and the walls and floors denuded with velour in preparation for installation of a talking picture machine, which will be in operation before the end of April. This should satisfy the theatre patrons of Woodburn who for some time have missed the up to date films that Mr. Poorman could not secure for the silent projector.

Calhoun introduced the instructors and officials from the company, E. J. Peterson, head of the sales department, and Sam Benson, service man who will reside in Woodburn and be in charge of the company's interests here.

The demonstrations were concerned with pineapple ice box cake and an oven meal. Mrs. Calhoun demonstrated the secrets of successfully baking a French apple pie.

Over 60 prizes were awarded during the afternoons and the demonstrators gave away the food they prepared as well as other prepared products.
