Initiating the Water Plant Purchase

MUNICIPAL ownership of Salem's water plant will not come through the city council and the mayor. That coat or hat. Content lies in wadseems to be well demonstrated. The axe of the mayor seems always ready to block the steps toward that end; and if not the executive veto, then the council buckles under the load. child wends his way. You can't Acquiring the water plant will need to be done through exer- change human nature! cise of the initiative. Moreover it may as well be tested on the direct proposal to issue bonds in sufficient sum to pay may lead to worse things if it is for the plant as on the piecemeal plan of first issuing bonds not cure. Some children are very to finance an appraisal. Either the people of Salem are ready susceptible to changes from a to buy the plant or they are not. If they are then they will warm house to the cold out-ofvote the bonds required to effect the purchase. If they are for some time. Such a child should not, then they will defeat the bond issue.

That much said, we state very frankly that it is virtu- weeks out of every month. This ally impossible and quite unwise to try to put an initiative of builds up his resistance to colds. such importance on the May ballot. Not only is the time so short that it would seem quite out of the question to meet clothing should be warm enough the statutory requirements, but the time is really inade- on the cold days and lighter quate to present the issue properly to those who would vote clothing should be worn on the upon the question. Voting in May on the proposition would invite almost certain defeat.

What should be done in our opinion is to have a citizens' young children. Wetting the feet, committee of responsible, representative and earnest men, who will make a thorough study of the situation, prepare the proposals very carefully, and plan to submit them in November. By that time the eligibility of voters at bond elections should be cleared up by court ruling, the issues could be clearly defined and explained to the voters, and a considerably larger vote would be polled at the general election. Residents early summer days seem long inof the Hollywood section have been active in promoting mu- deed to the school child. He wants nicipal ownership; but a wider representation is desired to to get out-of-doors. Every moment enlist city-wide support.

After waiting for forty or fifty years without taking shine. over the water plant, Salem can afford to wait a few more months rather than to jeopardize the whole undertaking.

From the Farming Section

TITOODBURN advertises itself as the great berry center, which in fact it is. Rich agricultural territory surround- fats and starches. Get plenty of ing Woodburn makes that district one of the finest in the fresh air and out-of-door exerstate. The Woodburn Independent quotes the following letter cise. favorable to employing a county agent for Marion county:

"As you know, there are 4800 farmers in Marion county. Be-

cause of this large number of farmers, it is the spinion of many that the county should have at least two agricultural agents, one to be a herticultural specialist and devote his entire time to that industry, the other to be general agent devoting his time to dairying, crop production, poultry and rodent control. For this two-man arrangement the cost to the county would be \$4600.00, which amounts to 9 1/2 per thousand dollars of assessed valuation. The county budgets this amount or more annually, I have noticed, for a bounty on gophers and squirrels. Marion county is one of the very few counties still paying a bounty on gophers. The practice has been in most counties to eliminate the bounty and employ a county agent and instruct him to carry on a campaign in the poisoning of both gophers ad squirrels."

The Independent adds its own comment as follows: "If men connected with the Oregon State college or federal service were engaged, the government would contribute \$5600 more for experimental purposes. The information imparted in the foregoing 93 by 80 by 2; divide by 33,000. quotation is sufficient to cause some sound thought among the farm-ers of Marion. There could be added other appropriations made by the county that might be eliminated, but these the readers have been | 600. told of and mention would be mere repetition."

If enough of the farmers really express themselves perhaps the county court will be more considerate of the pleas for creating the office of county agent.

Somebody do something quick. Call the doctor, the police or the fire department. Just a mouth till the gubernatorial primaries and the voters are turning over for another nap.

Fish and game are the state substitute for the tariff in national politics.

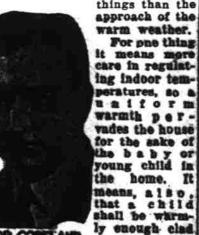

Recovering From Operation JEFFERSON, April 11-Mrs. George Vail underwent a major

## BITS for BREAKFAST

By R. J. HENDRICKS

Santiam road dispute:

The Bits man has been brought into the newspaper controversy

over the proighway. It has been stated that, when he was editor of The Statesman, he was in favore of both roadsthe one in which Linn county is especially interested and the one sponsored par-

icularly by

Marion county. That was and is still true. What is the row about? In very brief, built; the north route built first, The South Santiam road has been | the part common to both, renamed ginning. It has been completed to the Minto pass highway, after county. But there is still a diffi- pass through the Cascades. cult and expensive part of it to be built, through the forest reserve; say 30 to 40 miles of it.

Marion county is a later comer. est reserve map, and lately to highway put on the state high-000 offer after the program for this year's work had been made up by the highway commission, so no more money was then available. The Linn county part of the road having been on the highway map for a long time, the state highway commission was in a quandary. So the matter was left up in the air-and the state highway commission has been accused of the offense of not letting Marion county spend her own money; her \$100,000 offered.

Now, the members of the highway commission are friendly to Marion county. The matter in dispute will no doubt be adjusted soon, to the satisfaction of all reasonable men,

Another thing: West of Sisters, the proposed highway will he a common one, to both the south highway in which Linn county is aspecially interested, and the north highway that concerns Marion county particularly. That section of the road (west of Sis-"I have left you, Ken. But not ters) is receiving some attention, in the way of work being performed this year. This is speeding up the program for Marion coun-

The Bits man is still in favor of both highways, but he thinks you the north branch, in which Marion county is interested, should be heard the talk almost before I got given the greatest and earliest consideration, as soon as difficulties can be froned out. Why? Because it is needed by a greater number of people, and will be say it's a lie about you-about used by a larger number, than the south route.

Why again? Because more people will go to and come from the lower valley than from the upper valley. And this will be especially true in the winter season, when for several months each year the McKenzie highway is blocked by snow-and will always be, so far as any one can now predict. Because that will be the only route that will be kept open through the whole year, or can be at an ex-pense that will be considered reasonable. It will be kept open when to be loved by Nory! But she Eve-good lord-do you think I be necessarily closed. The engithe Columbia river highway will

Except to meet federal aid, he proposes the issuance of no more road bonds if they are a burden upon real property. Senator Corbett desires a non-political game commission with a policy of preservation and propagation, state development, timber sanely taxed, cooperation and better marketing of agricultural products. He favors, contrary to Senator Joseph, continuation of the Public Service commission. He considers that the Columbia river is waiting for the development of power with publie or private investment and cheap power to new industries. Education should rank among the highest in the nation. He stands for liberal support of our State College and University. Corbett endorses a health, educational and welfare program, If elected he will make every appointment on the basis of merit, in short, Corbett is conservative and at the same time progressive. What he promises he will endeavor to accomplish. That is his record. No man or politician can swerve him from the performance of his duty. That is another of his characteristics.-Woodburn

buy Stonewall, Mr. Prim and Particular. What's money between "You'll try again, Eve? Give folks like us? Kenneth Wilmer of Stoneywall—very dashing I call

stated this fact. The point of greatest travel of Oregon highways is in lower Mar-

ion and upper Clackamas county -in the section from Hubbard to Oregon City; though many travelers get over to the west side by way of Newberg and other Willamette river crossings. No one from the lower valley having business in central Oregon would go around by Albany when the Co-lumbia river and McKenzie highways were closed-after the completion of the two Santiam highways. The proportionate number having such business, from the upper valley, would be comparatively small.

To recapitulate: The Bits man wants both Santiam highways and sketchily, the situation is this, And he wants the route, or at as the Bits man understands it: least the north route, including on the highway map from the be- and called the Minto highway, or Cascadia, half the money of its John Minto, the pioneer head of cost having been put up by Linn the party which discovered this

It should not be necessary to urge the great importance of this proposed highway over the Cascades, joining the central and low-This county applied two years ago er Willamette valley with the to have her road put on the for- great central Oregon countryand at some seasons the only road have this part of the proposed that it will be possible, or at least feasible to be kept open, for conway map. And Marion county siderable periods, between the backed her application with \$100,- whole of the inland empire and the most populous part of the western Oregon section.

While not wishing to even conceal the fact of local pride. that confessed preference does not concern the considerations that should influence the great bulk of the people who ought to be urgent in having the north route, over the Minto pass, improved at the earliest feasible time.

The Bits man would go further. If he were in a position of authority in this field of the state's operations, he would urge the issuing of bonds, if necessary, in order to have this project completed-also in order to expedite the entire completion of the Roosevelt highway, the name of which ought to be changed to the coast highway. Not because Roosevelt is not an appropriate and an honorable name, but because the name is the coast highway all along the ocean line in California, and will be so in Mexican territory, and ought to be if it is not already so in Wash-

ington and British Columba. The Oregon state highway commission has the full power to issue more bonds. It never did issue about \$7,000,000 worth that it had the authority to sell. And the peak load has passed now. It is as urgent that the work above outlined should be undertaken and hurried to completion as that the original program, backed by bond issues, should have been formu-

**~** ~ ~ The westward rush of immigrants and tourists will not stop. it will go on indefinitely, as it has done for ages. California has no room for any more people, within the limit of available frrigation water. That state is sitting on a mine, as it were, every day in the year; a mine that may be exploded at any time by a serious water shortage, causing losses and sufferings that are beyond description. The so called Boulder dam project, perhaps 14 years off in point of completion, will give only slight relief. The time of the great shortage may come long be-

Oregon has plenty of water. Will have enough, with wise conservation, up to a limit of 19,000,-000 people in the rich Willamette valley; perhaps twice that number, who will one day live in this valley. We will get them largely from the westward throng the course of which will not stop.

It behooves Oregon to be ready. Harry L. Corbett, considered To hurry. To make haste quickly, not slowly.

What would a few millions of bonds for the purposes above 000 to \$50,000,000 Los Angeles able to her, outside of her share from the Colorado river-and out side of the salt sea?

## MOTORCYCLES IN

ORCHARD HEIGHTS, April 11 -Kenneth and Lloyd Barnwell of the Gibson canyon road were victims of a double motorcycle accident Sunday. The mishap occurred at the point where the Mosquito Bar road diverges from Wallace Road. The young men were traveling at a high rate of speed and in making the turn they skidded in loose gravel and were thrown from their machines.
Lloyd escaped with severe bruises but Kenneth suffered serious injuries to one knee. A pint of blood was drawn from the in-
