The blend that revolutionized smoking

THE INCOMPARABLE BLEND of Camel Cigarettes is probably the most important discovery in the history of smoking. It made cigarette smoking popular. Camel changed the smoking habits of the nation and has given pleasure to more millions of people than any other cigarette.

This exclusive blend assures in Camel a smoothness, a mildness and a mellow fragrance that cannot be imitated. It preserves all the excellent qualities of the choice tobaccos of which Camels are made and melds them all together into a delightful harmony of smoke pleasure. It sets Camel apart as a cigarette of distinctive character and provides for Camel smokers the very highest form of smoking luxury.
