

Definite Traces of Poison Discovered in Detective's Corpse

VIOLENCE ALSO DEATH'S CAUSE

Latest Angle Studied in Big Hundred Thousand Dollar Stocks Swindle

LOS ANGELES, April 17.—(AP)—Death by robbery, forgery and embezzlement reared their heads today from the labyrinth of crimes which have rested for three years since the collapse of the Julian Petroleum corporation and the disclosure of a \$100,000,000 stock swindle.

Indications of violence followed on the heels of a report from County Chemist R. J. Abernethy that a drug, known to criminals as "knock out drops," may have played a part in the strange death Tuesday of Robert Bursian, Bursian, an under-cover agent for the district attorney's office, was found dead beneath his wrecked automobile while engaged in a "very dangerous mission" on the Julian case.

Skull Fracture Immediate Cause of Man's Death

Death was dealt directly to the investigator, an autopsy showed, from a basal skull fracture. The physicians said the drug was in liquor which Bursian had imbibed. Tomorrow there will be an inquest.

Another phase of the tangled case brought Jacob Friedlander, former state corporation commissioner and Charles Crawford, local political figure and real estate broker, under superior court order of a bribery indictment. They were ordered to appear next Thursday for entering of pleas.

The pair and four others, whose identities are hidden under "John Does" with the exception of S. C. Lewis, former Julian president, were alleged to have received money and paid it to obtain insurance of stock selling permits under which spurious Julian securities were marketed. J. H. Roth, a broker, testified before the grand jury that he paid \$20,000 for such permits. Lewis is in the federal penitentiary at McNeill island serving a seven year sentence for using the mails to defraud. Efforts will be made to return him for trial.

Two Defendants Free On \$5000 Bond Each

Friedlander and Crawford are at liberty on bonds of \$5,000 each. In the appellate court here came a third development in any order from the justices to bring Jacob Berman, former Julian official, to trial on a three year indictment charging embezzlement and forgery of the order originated from the appeal by Berman for a reduction ball set at \$250,000. The court ruled that the ball was excessive and set a bond of \$10,000. The justices declined, however, to dismiss the case on the assertion by the district attorney's office that the indictment was voted simply to obtain Berman's extradition from Europe where he fled in 1927 following the Julian collapse. The court said when the case was made an off-calendar matter in 1929, a promise accompanied it that Berman later would be tried.

ENROLLMENT HERE SHOWS DROP OF 20

Enrollment in the Salem schools dropped 20 students in the month ending April 11, according to compilation of the monthly attendance reports received at the office of the city superintendent. The reports for the month ending April 11 showed 4,413 enrolled on that date as compared to the 4,433 registered on the last day of the previous school month.

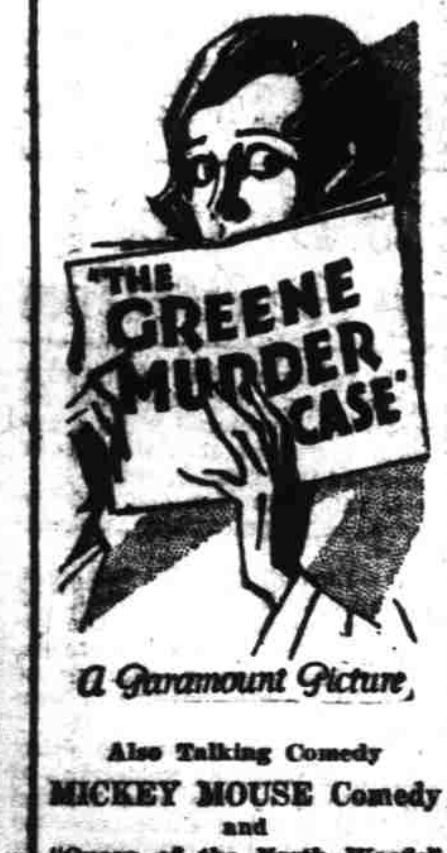

A comparison shows increase in enrollment in exactly half the schools:

ENTERTAINMENT IS GIVEN BY AID BODY

WEST SALEM, April 17.—The Ladies' Aid of the West Salem Methodist church gave one of the most delightful entertainments Wednesday afternoon, April 16, in the basement of the church that has been given for some time.

A group of about 55 ladies of West Salem and other nearby places gathered at 2 o'clock and spent the entire afternoon in conversation, games and a very fine program, which consisted of the following numbers: vocal solo by Mrs. N. Brinkley, reading by Mrs. M. A. Groves, piano solo by Mrs. Rierson, reading by Mrs. J. N. Austin, vocal solo by Mrs. Guy Newgent, duet by Mrs. Emmet Dixon and Mrs. Ralph Sebera. The ladies then played a guessing game, which everyone enjoyed immensely. After this Miss Beale R. Shinn told a bible story to the group. This was one of the most interesting parts of the program. An Easter egg hunt then concluded the program.

The groups were then served a delicious lunch, cafeteria style. The basement was attractively decorated in Easter and Japanese fashion with beautiful tulips and other flowers centering the different tables.

STILL OWNER WILL BE GIVEN SENTENCE

Louis Kokkeler, Mt. Angel, is at liberty today under \$1,000 bail, but is due in justice court here Wednesday, April 23, to be sentenced for possession of a still. Kokkeler was arrested by county and federal officers when 215 gallons of wine, 25 gallons of moonshine whiskey, two washboiler stills and paraphernalia, 27 pints and 19 quarts of beer, five gallons of malt, 22 empty whiskey flasks and 14 empty one gallon jugs were found on the man's place during a raid late Wednesday.

In justice court Thursday, Kokkeler pleaded guilty to the charge and bail was set at \$1,000. He was unable to furnish the bond at the time and was locked in the county jail. Later in the day the money was raised and he was released.

One of the objects of the Mickey Mouse club is to help each other, and now we have an opportunity for an Easter offering. Take note of this: Instead of bringing \$5 to get into the Fox Elsinore this Saturday, just bring your membership card and either four potatoes or some vegetables, canned fruits, cakes, pastries, and other food that you can bring to help those less fortunate than ourselves—

The Metropolitan store on Liberty street will distribute to the members as they leave the matinee a souvenir, so be on hand to get the joy of helping the unfortunate.

ATHOUSAND*NEW USERS OF CYCOL

CYCOL

WILL SELL ITS MERITS TO A THOUSAND MORE

In the air, on the sea, over highways where men look to motors and motors to oil, you'll find Faith in Cycol. Unfailing in performance. "Endurance Beyond Belief."

These five steps make this truth possible:

1. The new Edelmann treatment process removes 14% more impurities than does the commonly used acid-treating method—hence more lubrication—more protection for your motor. Cycol is a pure oil.
2. Cycol is distilled under high vacuum rather than the severe high temperature methods. No vital elements are weakened. All fractions are uniform. Cycol will not evaporate, thin, or break down.
3. The closest of fractionation during distillation rejects light, volatile fractions and heavy, gummy elements. No motor oil forms less carbon than Cycol.
4. Cycol is made only from specially selected crude oils. They are separately transported and separately stored at the refinery.
5. Only the "best out" is used in making Cycol.

Cycol gives complete, unailing lubrication; yet no oil is more economical, for Cycol has Endurance Beyond Belief. The price of Cycol is 25c per quart.
