Egg Rates Show Some General Markets Strength Due to Easter

PORTLAND, April 19-(AP) -Butter prices opened weak today, following excessive supplies Thursday and Friday, and in many quarters further reductions were anticipated.

Egg values strengthened as a result of the Easter season, but no advances were announced. Reviewing the fruit and vegetable situation, the Portland Bureau of the United States depart-

ment of agriculture says: "The first carload of Texas Bermuda onions received prompt distribution at Portland and Seattle. Portland's quota of the car was cleaned up in short order, at \$5 per 50-lb crate. Future re-

prices. Daily loadings approximate 700 cars, of which 200 cars are new potatoes. "One thousand crates of strawberries from California mark the heaviest daily volume of receipts this year. Demand is rather slow, resulting in an accumulation of

stocks, and resultant cut rates for over-mature offerings. "Apple shipments from Washington average about 60 cars daily, a 50 per cent decrease from recent daily volume. Some Washington shippers' stocks are entirely depleted, while many others are quoting on a greatly reduced number of varieties and grades. Prices are firm, but without recent advances."
