Helen Washburn, physical education director and faculty advisor of the girls' league will chaperone the group.

Play day is an annual event at O. S. C. and offers competitive sports such as hockey, volleyball, basketball, tennis, basketball, swimming and many others. The girls are divided into groups from which teams are chosen to compete. In this manner every girl gets to play. At certain hours, the swimming tank will be open to all the girls. Since many of the underclassmen have not been able to attend anything like this, most of these affairs being for seniors interested in going to college, much enthusiasm has been created and the girls are anxiously planning for the trip.

... and COLONEL LINDBERGH establishes the newest Transcontinental Record with RICHFIELD

AT EXACTLY eleven minutes, fifty two seconds past 11 P.M. Easter Sunday, a speeding Lockheed Sirius plane powered with a Pratt & Whitney Wasp motor, piloted by Colonel Charles A. Lindbergh with Mrs. Lindbergh acting as co-pilot, appeared over Roosevelt Field, Long Island, circled the field three times, touched the ground in a perfect three-point landing and another Transcontinental record had been made with Richfield.

Colonel Lindbergh, Technical Advisor of the T.A.T.-Maddux Lines, made this flight to test the possibilities of using higher altitudes for air transport.

Lindbergh took off in the early dawn Sunday, his plane carrying 446 gallons of Richfield gasoline in the tanks. He followed the "great circle" route, flying at altitudes ranging from 10,000 to 15,000 feet... streaking through the sky at an average speed of more than 175 miles per hour.

Richfield joins with the nation in saluting the "Flying Colonel" and Mrs. Lindbergh. Once again Lindbergh demonstrates the superb courage and flying skill that made possible his history-making flight across the Atlantic.
