INEXPENSIVE MEAT DISHES IMPROVED BY USE OF SUGAR

Sugar Blends Deliciously With Flavor of Meat Juices and Seasonings

One of the most inexpensive meat stews to make is the famous Mexican dish-Chili Con Carne. The recipe, which is very simple,

Slice fine, two enions and cook Slice fine, two enions and cook slowly in four tablespoons of fat in a covered hetale. Then add one and one half stands round stank cut in small culter and cook under cover for half of hour. Skir in one to three tablespoons Chili powder, one teaspoon salt and one teaspoon sugar. Next add one quart hot water and one-half cup tomato puree or juics. Continue cooking under cover until meat is very tender. It may be necessary to add more water, but if such is done, continue cooking until the stew is of a thick consistency. Serve with po-tatoes, rice, corn or hossiny and a salad. Shampoo does two things—it dis-blends all the flavors as no other sugar when added to French dressing or soups. In cooking vegetables, a dash of sugar to a pinch of salt heightens the flavor in a most pleasing way.

As a matter of fact, many inexpensive, wholesome dishes take on new goodness when sugar is used as a flavor. Good food promotes good health. The Sugar Institute.

An Ailing

Are you prepared to render first aid and quick comfort the moment your youngster, has an upset of any sort? Could you do the right thing-immediatelythough the emergency came without warning-perhaps tonight? Castoria is a mother's standby at such times. There is nothing like it in emergencies, and nothing better for everyday use. For a sudden attack of colic, or the gentle relief of constipation; to allay a feverish condition, or to soothe a fretful baby that can't sleep. This pure vegetable preparation is always ready to ease an ailing youngster. It is just as

harmless as the recipe on the wrapper reads. If you see Chas. H. Fletcher's signature, it is genuine Castoria. It is harmless to the smallest infant; doctors will tell you so.
You can tell from the recipe on

the wrapper how mild it is, and how good for little systems. But continue with Castoria until a child is grown.
