"STORE AROUND THE CORNER" IS SOURCE OF FINE DESSERTS

Housewives Have Choice of Wide Variety at Low Prices

Desserts, according to nutrition experts, have their place in the normal diet. Aside from their food value, their sweetness satisfies the appetite in an appropriate way. Modern methods have been applied to the manufacture and distribution of wholesome desserts so that the housewife does not need to make them herself. Pure, delicious ice cream is always available at a low price. So are cakes, pies and cookies. And of course there is always a wide variety of fresh and canned fruits.

In summer, when it is the desire of every housewife to reduce kitchen-work to a minimum, the opportunity to get well-made, wholesome desserts at "the store around the corner" should not be overlooked. Any one that is chosen will make the most simple, inexpensive meal complete.

As wholesome desserts satisfy the appetite appropriately, so does sugar improve taste-appeal of essential foods. A dash of sugar to a pinch of salt in cooking vegetables makes them pleasing carriers of the vitamins, minerals and roughage they contain. The same is true when sugar is added to breakfast cereals or fresh and stewed fruits. Most foods are more delicious and nourishing with sugar. The Sugar Institute.
