

# MOTT MAY BE NEXT SPEAKER

### Possibility Seen That Marion County Man May Head House

(Continued from Page 1.)  
The efforts of communities towards getting it to enlarge its program of road improvement; but as it is nearing the end of the program so far as initial construction is concerned, the commission will be in a position to take on new roads, and may be quite willing to let the legislature decide what roads shall be added to the program.  
Besides the North Santiam highway there are other important highways whose routing awaits only the completion of roads now planned. The short road to the Tillamook beaches, connecting roads in eastern Oregon and in southern Oregon are desired to shorten distance and take care of increasing travel. These may be made the subject of legislative action at the next session.

**Edgy and Marks to Contest in Senate**  
The organization of the senate will offer another contest. B. L. Edgy and Marks has been hopeful that this would finally be his turn as president of the senate; but a contest is looming in the person of Willard Marks, who was renominated for the senate from Tillamook county.  
Organization of the house and senate will mean much owing to the prospect of George Joseph as governor. The legislature and its ruling powers have been charged with being too friendly to utility interests while Mr. Joseph is out to break this alleged control. Add to that the personal equation, the hostility between Joseph and certain of the senators and the issue is laid for legislative blow-ups.  
C. M. Moser and Joseph have always sparred, and after Joseph's last radio speech, Hall, who returns to the senate as a hold-over, is not expected to team with friendliness over his erst-while opponent.

**Solons to Hear of Joseph's Proposals**  
The issue which Joseph has raised will not be transferred to the legislature. The anti-Joseph forces will doubtless move early to get control of the house and senate organization, hoping thereby to curb "undesirable" legislation.  
Mott, if he became a candidate for speaker, would probably stand as friendly to Joseph, since to organize the house on lines which would try to cooperate with the governor in putting over his program.  
The senate is not going to be the same as in recent sessions. Norblad will be out, ditto Corbett, ditto Klepper, who failed of renomination. Bennett and Hall, ex-candidates for governor, will be back. The major interest in state politics now shifts from the governorship to the organization of the legislature with the prospect of some tense legislative battles being staged next session.

**AUMSVILLE WINS 7-5**  
AUMSVILLE, May 20.—The Aumsville high school baseball team won its final game of the county league season here Friday afternoon from the Mt. Angel team, 7 to 5. Aumsville won all of its league games and the championship in its division.

**GRAND Tomorrow — "The Other Tomorrow" with Billie Dove.**  
Friday — "The Parade of Women."

# LOCAL TEACHERS TO HOLD ANNUAL PICNIC

Teachers in the Salem schools, around 190 of 'em, will frolic a week from today, May 28, at their annual picnic. Huh-huh is the word for the event, with many of the plans to remain a surprise up to the last minute.  
The picnic holds a secretive air, well kept secret, with the affair taking the nature of a treasure hunt. This much is known, the group will leave town at 6 o'clock that afternoon, going to directed places until the final picnic ground—the treasure—is reached.  
Oh yes, and the teachers are making their trip in that vehicle forbidden to the senior high school picnicers—the private automobile.  
Carin Degermark is general chairman for the faculty picnic.

# Scarlet Fever Cases Reported At Mount Angel

Two cases of scarlet fever at Mt. Angel and a case of diphtheria in Salem were reported to County Health Officer Vernon A. Douglas yesterday. Dr. Douglas investigated the cases of scarlet fever yesterday morning, and nurses at Mt. Angel are following up suspect cases in the school. One patient is a school child and the other is an adult. They are in separate families.  
The health officer says it is probable some mild, unrecognized cases of the disease have been prevalent in the school there.  
The diphtheria case here is under quarantine and is that of a school child. It is under investigation.

**PICNICS ARE HELD**  
SILVERTON, May 20.—Silver Creek Falls has been a great attraction for school picnics during the past week's time. Stayton schools picnicked there on Wednesday, and Saturday 50 seniors and juniors from Molalla spent the day at the Main South Falls. On both occasions baseball, horse-shoe and hiking proved the big attractions.

# WILLAMETTE'S COACH MAY GO

### Rumors Persist That Keene Will go Elsewhere to Become Coach

(Continued from Page 1.)  
several unexplained trips away from Salem during the winter and spring.  
Keene's success at Willamette has not been phenomenal, but a steady process of building up from the deplorable condition in which he found the athletic department when he took it over in 1926.  
Basketball Teams Soon Make Record.  
He turned out basketball teams which were contenders in the northwest conference, from the start, but suffered repeated disappointments in football, largely due to failure of players to remain in school after being developed to the point of usefulness. However, from the first his teams were a credit to the institution and students and alumni had no occasion to apologize for them as they had for several years previously.  
It was not until the present school year that the results of Keene's program and leadership made themselves manifest in striking fashion, due to the winning of championships in football and basketball, the teams going through their conference seasons undefeated. In addition, the basketball team was rated as equal to that of any of the larger colleges in the northwest, having won two games from the University of Oregon quints.  
"For of Keene's intention will graduate this spring, and prospects are for an even more successful season next year, provided he remains at the head of the department.

# ZEPPELIN PASSES CANARY ISLANDS

(Continued from page 1.)  
evening indicated the Graf had covered more than 5,000 miles since leaving Friedrichshafen Sunday.  
She took the air for the second leg of her journey at Seville at 9:20 a. m. (8:50 a. m. E. T.) today amid scenes of great enthusiasm, with a distinguished passenger list and many thousands of pieces of mail.  
One of her passengers was Mrs. Mary Pierce, an American woman whose last Graf voyage nearly upset two diplomatic offices.  
Cedis reported the graceful ship passing out of view upon the broad Atlantic at 4:45 a. m. E. T. when she bade farewell to the old world for her adventurous trip.  
Again at 10:15 a. m. the Graf was reported picked up by wireless by ships which in turn informed the Canary Islands.  
A further item in the chronology of her travels was the report of the British steamship Orita, 250 miles off the Canaries, which sighted her at 12:24 p. m. E. T. Las Palmas, largest city of great Canary Island, heard from several

# FLEET IS REVIEWED BY U. S. PRESIDENT

from New York to pass at Norfolk a few days before their return to home waters in the Pacific. With them came half a dozen light cruisers, a score or more destroyers and two fleet submarines from the battle fleet and the scouting fleet.  
The organization was grouped for the day as the consolidated United States fleet.  
At daylight the force was steaming southward far off shore under blue skies flecked with soft white clouds but with a haze near the horizon that narrowed the range of vision.  
Admiral Pratt, aboard the battleship Texas, had ordered his command by divisions into formation in which they were to pass the Salt Lake City at a given point at sea at 11 a. m.

# CUBAN ELECTIONS SLATED FOR FALL

HAVANA, May 20.—(AP)—President Gerardo Machado tonight told independence day celebrators that Cuba's elections will be held in November, all eyes notwithstanding, and that congress would take action to qualify a regular political parties as property organized body of citizens.  
This statement was made before 10,000 liberals who tendered their chiefs a three hour demonstration at the presidential palace. It came as a surprise. It means the Nationalists, deprived of their party rights, will be able to run in opposition to the consolidated liberals, conservatives and populists.  
The Cuban president challenged his enemies to establish a basis of proof for charges of license, immorality, dishonesty and maladministration.  
He thanked the United States for sending air, navy and marine forces to participate in the 10th independence anniversary today and paid homage to Ambassador Harry G. Hughes who occupied a seat near him.

# Thompson Wins Damage Action In Court Here

A jury out less than an hour brought back a verdict for the defendant late Tuesday afternoon in circuit court where for two days the case of Mrs. Mary Alexander vs. Dr. Fred Thompson had been heard.  
Mrs. Alexander declared that the doctor gave improper treatment to her hip which she declared was fractured. The doctor denied the charge. The case was tried last year and the defendant was granted a non-suit.

# O-W COMPANY WORK HALTED

### Equipment Expected to Remain Within Authorized Expenditure Now

(Continued from page 1.)  
gram halted and the filtration plant and intake system, largest items in the program, uncompleted, the value might fall within \$1,200,000 where it would not if these projects had been added to the system.  
Construction of New Plant Is Considered.  
However, prospects were seen Tuesday that the company's action on this or any other question in connection with the water plant may have little bearing on the final outcome. Some members of the city council are not enthusiastic about purchasing the Oregon-Washington company's property unless it can be acquired at an extremely reasonable figure. They claim that the system is largely dilapidated and inadequate.  
They favor, rather, than when engineers are employed to appraise the water plant, they be also instructed to prepare estimates of the cost of constructing a new system, and that this proposal be seriously considered.

# ELECTION HELD AT ODD-FELLOWS MEET

PORTLAND, Ore., May 20.—(AP)—The grand encampment of Odd Fellows in annual convention here, elected E. J. Pratt, of McMinnville, as grand patriarch of the organization. He succeeds George W. Haw, Portland.  
Other officers elected were: J. W. Wilson, Tillamook, grand high priest; Earl H. Shank, Hood River, senior grand warden; E. E. Cottage Grove, inside sentinel; and J. C. Lawson, Junction City, outside sentinel.  
MILWAUKEE, May 20.—(AP)—The state boxing commission today suspended Joey Medill, Chicago lightweight for 30 days and fined him \$100 for fouling Mickey O'Neill of Milwaukee in their ten round fight here last night.
