MILLIONS SUFFER AGONY WITH PILES

New Method of Treating Is Only Effective Remedy

Found A HOME TREATMENT GUARANTEED RESULTS

Everyone knows that piles and hemorrhoids are caused by swollen, dilated veins, but until the new method of internally treating piles was perfected nothing seemingly would relieve except an operation. Now, thanks to the chemists of today, piles and hemorrhoids should soon be a thing of the past.

Only a person who has suffered long and terribly with piles can imagine how glorious it is to be free of such troubles, yet it can be done now. The chemists said—"Why can't we put a coating on a pill that when swallowed will not dissolve until it reaches the bowels? Then let it melt into a healing, soothing, pain banishing liquid that will help nature banish all signs of the trouble. Research resulted in the making of Colac Pile Pills and tests in thousands of cases prove it almost infallible. As one sufferer recently said—"It is the only thing that ever helped me. For years I suffered terribly with piles. Could not work, stand up or lie down in comfort. It discouraged me to get no relief. Then one day a druggist friend told me about Colac Pile Pills — something entirely new — and I was desperate enough to try anything. To make a long story short, I got relief in two days and was cured in five, and haven't had a touch of piles since." Mrs. John Quinlan, Glens Falls, N. Y. WHY SUFFER ANY MORE?

Similar cases in thousands of instances have responded promptly to Colac Pile Pills. Druggists are authorized to refund money if user isn't relieved. Each bottle bears the name and is backed up by the nationally known reputation of the Colac Chemical Co., Brentwood, Md., who gladly mail a full size bottle in plain wrapper to any address upon receipt of 75c in stamps if your druggist hasn't them. WE BAKE Better

Few Foods Return Such High Caloric Value for the Money

Sugar is an inexpensive food. Compared with butter, bacon, macaroni, bread, meats, milk, green vegetables and fresh fruits, sugar supplies the system with far more calories for each cent spent than the same amount expended on any of the rest of the products named.

This fact is significant because the average system requires approximately 3000 calories daily. Of this amount, sixty per cent should be derived from the carbohydrate group of foods to which sugar belongs.

To get the full value of sugar the housewife should consider it in relation to all the foods she chooses for her table. The most inexpensive balanced meal can be made satisfying and complete by a sweet dessert. Canned vegetables, as well as fresh ones, can be much improved in taste appeal if a dash of sugar to a pinch of salt is added while they are cooking. Breakfast cereals and steeped dried fruits have added goodness when sugar is added.

Doctors and dietitians approve the use of sugar in making essential foods tasty. For these foods contain vitamins, minerals and nutrients—all of which are needed by the system. Good food promotes good health. The Sugar Institute, Adv.
