MOTIVES ADVANCED AT TRIAL OF KING

EUREKA, Cal., May 30—(AP)—District Attorney S. E. Metzler today advanced three motives as actuating the shooting to death by Clarence L. King of Mrs. Minnie McCoy, his Titan-haired common law wife found slain several months ago in the redwoods of northern Humboldt county. King is on trial charged with murder.

Metzler told the jury King killed Mrs. McCoy, first, so he could marry Eunice King Pardee; secondly so she could not reveal his alleged violation of parole from San Quentin prison, and thirdly to secure her money.

King married Miss Pardee soon after Mrs. McCoy was killed and his arrest in Portland grew out of an attempt to obtain money Mrs. McCoy had on deposit in two middle western banks. King contends the shooting was accidental and occurred as he struggled with Mrs. McCoy for possession of a revolver.

Mrs. Emma Jones, rooming house proprietor of Pocatello, Idaho, testified today that Mrs. McCoy at one time had \$700 in a Pocatello bank. King was Mrs. McCoy's companion at the time, she said.

The Prichards live near the Weasie Flat school house, and recently while moving some building and excavating on their place, they uncovered a grave. ZENA FAMILIES GO PIONEER CEMETERY

ZENA, May 30—Mr. and Mrs. Roy E. Barker and son Sammy and S. H. Barker accompanied by Mr. and Mrs. L. Frank Matthews and daughter Marjorie of Spring Valley made a trip to Tillamook Sunday and were dinner guests at the home of Mr. and Mrs. Fred Gould, brother and sister-in-law of Mrs. Barker.

The trip was made for the purpose of visiting the grave of Mrs. Barker's mother, Mrs. Martha Walling Gould who was buried in a cemetery located four miles out of Tillamook on property owned by Mrs. Barker's grandfather. This was the only cemetery in that part of the country for many years. It is practically inaccessible to motorists and those desiring to visit it have to walk almost a mile to reach it.

At this time, Mrs. Gould was buried, her remains had to be carried for half a mile. Mrs. Barker said in speaking of it that for a beauty spot it could not be rivalled as it is located in dense wild-wood but that it is so hard to reach that most of the graves have been sadly neglected.

THEFT OF JEWELS TRACED BY POLICE

NEW YORK, May 30.—(AP)—The big stolen jewel round up which began early this week continued today, with developments popping out on all sides and further sensational angles in the offing.

The status of the case tonight was that five men and a woman are under arrest here. Police have \$1,300,000 worth of recovered jewels here and today they got permission to open a safe deposit box in Chicago they believed contained \$200,000 more. Additional arrests were promised and some of the men to be arrested were said to be prominent jewelers.

Some mystery was injected into the case by varying reports as to what part was playing in running down the alleged receivers of stolen jewels by Noel C. Scaffa, insurance company detective, who was indicted for compounding a felony once in connection with return of other stolen jewels, but was acquitted.

The Buffalo Evening News printed a story quoting a lawyer who said he handled negotiations between Scaffa and burglars who stole \$350,000 worth of gems from the home of John L. Carson, Jr., there. The negotiations fell through and then Scaffa trailed the men he wanted until they were arrested here.

The New York Daily News also had a story saying Scaffa had done much of the ground work leading to the arrests.

Police Commissioner Mulrooney insisted it had been entirely a "police case" and that private de-

TECTIVES HAD NO PART. SHORTLY AFTER HE SAID THAT SCAFFA APPEARED AT POLICE HEADQUARTERS WITH A LARGE PORTFOLIO AND ENTERED THE COMMISSIONER'S OFFICE AFTER DECLINING TO TALK TO REPORTERS.

INDEPENDENCE WOOD SAW IS BURNED

INDEPENDENCE, May 30—Lou Travis who owns one of our city woods saws, had the misfortune to have it destroyed by fire the first of the week.

He was on the way to Hopville to do some work, when his helper Walter Boyce noticed the machine was on fire. They at once tried to put the fire out with dirt, as no water was available, but with so much oil and grease on the machinery, it was impossible to extinguish it, before it was destroyed. It was thought that it might have caught fire from the exhaust pipe.

Mr. Travis had no insurance on the machinery and had only owned it for a short time.

HERD IMPROVEMENT IS DEMONSTRATED

Dairy Train to Show Many Interesting Features Soon

OREGON STATE COLLEGE, Corvallis, May 30.—Demonstrating as well as illustrating the profit in dairy herd improvement, the special dairy train to tour this section is bringing nine head of dairy stock—three bulls, three cows and their daughters—which are living examples of the value of good breeding.

The three cows and their daughters are from the college Ayrshire herd on which exact records have been kept. In each instance the daughter, sired by a bull of high producing strain, has greatly exceeded the record of her mother.

In emphasizing this phase of dairy development, the train will be carrying out one of the chief program features fostered and encouraged by the late N. C. Jamison. Cow testing associations received their greatest impetus while he was dairy extension specialist and are now an important part of the state dairy program.

Recognition of the work done by Jamison is being given on this demonstration train in a specific way as well. His enlarged picture is being hung in one of the coaches and a statement is being in-

cluded giving him credit for many of the plans of the train now being carried out. Most of the posters setting forth condensed information were designed by Jamison prior to his fatal illness.

At each stop a platform demonstration will be given by P. M. Brandt, head of the college dairy department, who will translate the milk records of the dairy animals into comparative cash returns. The combined production of the mothers for a year was 24,260 lbs., of milk, while that of the three daughters was 37,167, an increase of more than 56 per cent. The difference in cash returns above feed cost between the three mothers and three daughters amounted to \$233.14.

PLAYBOY FOLDING GLIDER

Given For Securing One New Two-Month Subscription to The Oregon Statesman No Money to Collect

It's Different! Made to Last! No experience required! Hours of Fun!

COMES PACKED READY TO FLY GET YOURS NOW

The PLAYBOY FOLDING GLIDER is shot straight up 100 or 150 feet by a special rubber. This is possible because in the folded position it goes up like an arrow. The air holds the wings folded until the glider reaches the pinnacle, when they open. It will then make one loop and gradually circle and glide to the earth.

As the PLAYBOY GLIDER does not depend upon a small propeller and lightness to lift it into the air, it is made very sturdy. The wooden nose protects it if shot head on into a wall. If a wing hits any obstruction, it simply folds back and after freeing itself the wing opens and continues its flight.
