## "There is a KEY TO BEAUTY!"

LESSON No. 1. This is the first of a series of "lessons" prepared by Elizabeth Arden that all women who use her preparations may follow the methods evolved by Miss Arden. This is just one more example of Elizabeth Arden's personal contact with her clients

## Cleanliness: THE FIRST LESSON

TWO things only are necessary to assure the clear loveliness of your skin—a wise selection of preparations—a perfect understanding of the way to use them. The contents of a hundred jars and bottles will not yield their loveliness to you unless each cream and lotion is used exactly as it was meant to be. It is like a locked treasure that can be opened only with the right key. The key is Understanding.

In every one of my preparations there is beauty—waiting to be released by you. Every preparation has some unique, carefully developed property to bring definite benefit to the skin. The more closely you adhere to the prescribed treatment, the more confident you may be of results.

Your skin should be cleansed at least as tenderly as a fine piece of kid . . . never with scrubbing, never with harsh handling . . . but gently and thoroughly with the finest of oils. Only in this way can the tiny pores be rid of accumulated impurities. It is for this reason that I have formulated my Cleansing Cream to be of feathery lightness, and to liquefy quickly with the warmth of the skin. Swiftly it penetrates the depth of the pores. Night and

morning—and during the day, when you wish to refreshen your face you should follow this little program of cleansing:

With a towel or band, secure the hair firmly away from the face so that hairline and ears are completely exposed. Squeeze a piece of absorbent cotton out of cold water. Moisten with Skin Tonic and dip in Cleansing Cream. Cleanse from the chin upward paying special attention to either side of the nose and around the mouth and chin; work gently around the eyes. Do not overlock the neck. Remove cleansing cream with Cleansing Tissues carefully so as not to stretch the skin.

Squeeze a fresh pad of cotton out of cold water, saturate with Skin Tonic and commence patting on the neck. Pat from the center around to the back on either side. Then, from the chin upward to the forehead. Continue patting for about five minutes, going over the same movements. Dry with Cleansing Tissues.

If this is your morning clean-up, your skin is now ready for your make-up which should be applied according to the method I will describe in a later lesson.
