ted to settle back into the original symmetrical and graceful lines that God intended them to enjoy. The bunchy, ungainly clothing of the past has definitely established itself in the family album and the Smithsonian Institute. But we must not forget that even today, we can exaggerate and distort our lovely figures by the clothing we wear. Our grace of dress depends largely upon our underclothing. Therefore, it is most important to know what lines are and where to find them. Style today depends upon simplicity of effect; with just a little study and attention, the lines in clothing can do about anything you want them to do.

A line is anything in the matter of draping the figure that arrests and pleases the eye and the first thing to study and consider is the detail of your undergar-ments. The fit of your frock depends upon the lingerie you

wear. Remember that! Never mar your waistline with bunches. Do away with things that fasten at the middle. There are underthings you can purchase which are all in one piece . . . brassiere, panties, garters everything fogether, with no boning in the center, no hooks at the back, and no dividing line in between. Singlettes, as they are called, is the modern answer to milady's lingerie problem.

Dressing to achieve alenderness in your appearance is truly an art but it can be done . . . and without starving yourself. That is a dead fad! We have once more come to realize that a softly rounded and well proportioned. nine figure is the beautiful and appreciated thing. You know that lines going from top to bottom tend to make you look taller and that lines going from left to right shorten your appearance. There you are! You have it in a nutshell. But don't forget that this includes lines that frame the face (such as hats, necklines, and the manner in which you dress your hair); the heels of your footwear; jewelry, (for bracelets naturally cut the length of your arm just as necklaces shorten or lengthen the line of your throat). But last and not the least of them all, never forget the importance of your waistline. Place it correctly according to your stature, and then take care of the bunching of your undergarments.

INVITATION - - -

Fanchon and Marco Sunkist girls will model "SIN-GLETTE" garments at Miller's this atternoon between the hours of two and three instead of three to four as previously announced. . . Salem women are invited to attend this little party which will be held on the meg-zanine near the lingeric sections.
