

MANUFACTURE HERE IS AIDED

Soap Output Established in City Already Receives Financial Backing

Articles of incorporation for a strictly Salem concern, with Salem capital, have been filed, under title of the West Coast Mfg. Co. Incorporators are M. Mulkey, Carl T. Pope and E. M. Hammer. The concern will manufacture chemicals and soap sprays but the principal product will be soaps of all kinds, from bar soap to washing powders.

The manufacturing company entails reorganization and re-financing of soap industry which already has a small start in Salem under N. Christenson. Christenson has had a small plant in operation here for some months, and has already built the business up to a point where there is a steady demand.

Christenson is a veteran soap maker, having learned the trade in Europe. He was for three and a half years superintendent in the largest soap factory in the world, and was for some years superintendent of the Palm Olive plants. The product here is sold under the trade name "Modern Maid."

The reorganized industry is capitalized at \$5,000. It is planned to enlarge the plant as soon as necessary. Capacity now will take care of 35,000 monthly business. Pope is attorney for the corporation, and in charge of organization. Hammer has been associated with Christenson since the plant opened here.

Filipino Stabs Turlock Youth

TURLOCK, Cal., Aug. 4.—(AP)—Everett Kinser, 16 year old Turlock boy, was stabbed twice in the back and perhaps fatally injured Saturday night. Police said Kinser was stabbed when he and several other boys taunted two Filipinos on the street in Turlock, calling them "goo goos." The boy was chased for more than a block by one of the Filipinos brandishing a knife. Miltieo Partolano was jailed on an open charge pending the outcome of Kinser's injuries.

Eighty Six Pass Swim Test at Dallas After Week of Instruction

DALLAS, Aug. 4.—(Special)—Eighty-six of those taking swimming instruction in Dallas during the past week received their beginners and swimmers' buttons, Saturday afternoon, when Jack Hewitt, instructor for the American Red Cross, completed the required tests. Many of those who were strong swimmers could not qualify as such, inasmuch as they could not do the surface dive, back swim, and swim 100 yards, using two strokes.

More than 300 were registered for the week's instruction, and much enthusiasm was expressed by those attending and who sponsored the undertaking. It is hoped to repeat the instruction another year, and have the period cover two weeks instead of one.

Those receiving beginners' buttons were: Mary Staats, Orlando Peters, Fred Meyers, Teddy Fayer, Virginia Coon, Gladys Hammer, Helen Viera, Fred Campbell, Ralph Reasner, LaVonne Carr, Clarence Stanley, John Gerard, Bob Dalton, Clarence Peters, Frank Peters, Billy Faver.

Those to receive the swimmers' buttons which indicates they can swim 100 yards using two kinds of strokes, surface dive, back swim and do other diving are: Melva Robinson, Dolly Howe, Rex Pemberton, Lenthal Bollman, Rachel Uglow, Burrell Webb, Thomas Starbuck, Irene Shearen, Catharine Hawkins, Theodore Coon, William Van Nuy, Mary Hines, Bob Hartman, Chester Wilkinson.

None of those taking the senior life saving were able to qualify in the required tests. Miss Dorothy Page will receive her examiner's emblem, after having worked with Mr. Hewitt for the past

week. She has already received her life saving certificate for her work at the University of Oregon.

MILK WATER HURTS SANTIAM FISHING

PLEASANT VIEW, August 4.—The fishing in the Santiam river is very poor owing to the fact that the water was of a milky looking nature. There is a creek called Milk creek, which has its beginning near Mt. Jefferson, and on very warm days there seems to be a mineral which melts, causing the water to look like milk had been poured into it, and this in turn causes the river to look milky.

Mr. and Mrs. Alvro Neal and Hugh Cook and son Harold motored to within a few miles of the Brettenbush Springs the latter part of the week. They report the road as being in good condition for this time of year.

Frank Cook, with a party from Lacombe, spent the past week at Fish Lake. The fishing was only fair due to weather conditions. Most of the road from Cascadia on was in very good condition.

LODGE TEAMS IN PICNIC GATHERING

Hubbard Groups Vie in Doing Good for Members; Happy Time Had

HUBBARD, Aug. 4.—A happy evening was spent at Shade-B-Acres by the members of Thalia Rebekah lodge and their families at a picnic dinner. Many went swimming while others enjoyed the evening visiting.

Fifty-five were seated at the tables which were spread under the large shade trees. The picnic was the climax of a contest between two teams in the lodge with Mrs. Cora Taylor and Mrs. Nettie Salls, the captains. The contest started in January and ended July 1.

Contrary to the rules of the contest which stated that the losing side treat the winners, both sides joined in a picnic. Points were won in the contest by sick visits, visiting other lodges, programs, securing new members, re-instatements and payment of dues.

GOVERNOR CANNOT REMOVE TRUSTEE

There is no law in Oregon that gives the governor authority to remove a trustee of a highway improvement district, according to a legal opinion handed down here Monday by I. H. Van Winkle, attorney general. The opinion was sought by Hal E. Hoss, secretary of state.

A petition recently was filed with Governor Norblad asking for the removal of T. Lohan, trustee of the Neustuca highway improvement district, on the ground that he was not in sympathy with the views of the six other trustees of the district.

In another opinion the attorney general held that a chiropractic practitioner is a physician, and has authority to sign a certificate that an applicant to practice cosmetic therapy is free from contagious disease. The opinion was asked by Miles D. Warren of Portland, secretary of the state board of chiropractic examiners.

The attorney general also handed down an opinion that Jack Cannon, recently appointed justice of the peace of the Astoria district to succeed J. L. Tuomala, resigned, holds office only until the next election.

WATERS OF ROGUE ALL APPROPRIATED

Representatives of three Jackson county irrigation districts conferred with Rhea Luper, state engineer, here Monday, in an effort to forestall the issuance of any additional permits for water affecting the Rogue river. Among those who conferred with the state engineer were E. Y. Leach of the Medford irrigation district, O. Armspiger of the Talent irrigation district, and E. H. Judd of the Rogue River valley district.

The petitioners alleged that the only water available for appropriation in the Rogue River valley at this time of year is seepage and drainage from existing irrigation ditches. This water, it was said, rightfully belongs to one or the other of the three irrigation districts represented at the conference.

Luper has taken the protests under advisement.
