

Oregon Schools Well-Equipped to Serve Education Needs

W. U. RESUMES SEPTEMBER 17

Good Year's Work in Prospect With Few Faculty Changes Noted

Willamette University will open its doors for another year's work on September 17th. Freshman week starts Sept. 12th, and registration days are Sept. 15 and 16. The prospect is bright for another successful year at this oldest degree-granting institution west of the Rocky Mountains.

No major changes are being made this summer on the Willamette campus. The summer session has closed, though a few remain for post-summer school work. The staff for next fall will be nearly the same as last year.

Dr. Doney has been working quietly this summer in promoting the university's interests. Constant effort is being made toward building up the endowment and it is hoped that the completion of the raising of the fund necessary to meet the conditions of the grant of the Rockefeller foundation may be attained by October.

Willamette university is recognized as one of the strongest small colleges of the northwest. Its total enrollment for last year was 579, the total for the college of liberal arts being 509. The number of students is stabilized at around 500 as this number can be accommodated nicely with the present plant and facilities.

Willamette maintains a strong college of liberal arts, a college of liberal arts, a college of liberal arts department offers work of broad culture looking to the development of character as well as the mind. The religious emphasis at Willamette is marked. Every effort is made through Christian associations and church organizations to maintain a wholesome Christian atmosphere. The college is supported by the Methodist Episcopal church, but its doors are open to students of all faiths.

Willamette is the outgrowth of the mission work of Jason Lee, early Oregon missionary. There was first the Manual Indian Training school on Chemeketa plain, which became the Oregon Institute; later Willamette university. The school was here before the town. Classes in Oregon Institute began August 13, 1844. The university will open its 87th year next month.

Hundreds of young people have graduated from Willamette and hundreds more completed their education here without graduating. Willamette has been the mother nourishing in young manhood and womanhood those who later became the leaders of the northwest: lawyers, judges, governors, doctors, professors, preachers, teachers, merchants, home-makers. With Dr. Doney as president and a strong staff of professors and instructors, the institution continues well equipped to continue its education career.

BUSINESS COLLEGE REGISTERS MANY

Capital Business College Gives Training in Stenography, Bookkeeping

The Capital Business college, Salem's own business school has the same corps of capable experienced teachers it has had for several years, and its equipment is thoroughly modern and up-to-date. Young people who are looking for the school where they will be made to feel at home while in attendance and where they will be assisted after graduation, will make no mistake in casting their lot with this pioneer institution. Students are registering daily for the fall opening and the outlook now indicates a good attendance. September 22 has been set for the beginning of the fall classes. School is in session all summer, however, some taking regular course work and others, special work.

W. I. Staley, president of the Capital Business college, recently returned from quite an extended trip in the east that took him through all or a part of 20 states. He visited a number of commercial schools enroute, among which might be mentioned, schools in Chicago, New York, Kansas City, St. Joseph and Denver. Prof. Staley noted that while the calls for help have fallen off noticeably in all parts of the country, the enrollment in commercial schools has not followed the downward course so much, if at all.

Another condition, perhaps

State and Private Schools Educate Oregon's Youth

Small Colleges, Rich in Traditions and With Religious Atmosphere, Supplement Large State Institutions

A month hence and the boys and girls will be packing off to college. Many are going back to the old campus, eager to resume work, to greet old friends and help initiate the freshmen through the mysteries of college entrance. Others are selecting their colleges for the first time. A great many have their schools picked out. They have their plans made. Girls and their mammas are at work preparing wardrobes. Boys are working earning money to pay tuition and board.

There are many too who are still undecided what school to attend. They are thumbing catalogues trying to make up their minds which school will be best for them.

Oregon offers institutions with a fine tradition and with an excellent record for sending out young men and women into the world well equipped to succeed in the competitive struggle. From the early days when the Oregon Institute was founded here and when Tuahly academy was started at Forest Grove, education has been highly regarded in Oregon. The first schools were for the Indians, later the schools became institutions for educating the whites.

The higher institutions of Oregon include academies, normal schools, colleges and universities. Their work embraces general culture and specialized training, such as law, medicine, engineering, etc. Many of the state's schools have attained wide distinction for the character and quality of the work they do.

Oregon's schools may well be divided between the state schools and the denominational schools. There are also a few special schools.

In the state schools the university at Eugene and the state college at Corvallis stand out as the largest and richest of the institutions. There are in addition the state normal schools at Monmouth, Ashland and LaGrande, whose special work is the training of teachers for the public schools.

Denominational institutions include schools for many different religious organizations. Those which are conspicuous for their importance in the educational plan of Oregon are:

- Willamette University, Salem, Methodist Episcopal.
 - Albany College, Albany, Presbyterian.
 - Linfield College, McMinnville, Baptist.
 - Marylhurst College, (girls), Oswego, Catholic.
 - Mount Angel College, Mount Angel, Catholic.
 - Pacific University, Forest Grove, Congregational.
 - Pacific College, Newberg, Friends.
 - Reed College, Portland.
 - Schools of academy grade are: Catlin School for Girls, Portland.
 - Sacred Heart Academy, Salem, Catholic.
 - St. Mary's Academy (girls), Portland, Catholic.
 - Hill Military Academy, Portland.
 - Bealey Military Academy, Portland.
 - St. Helens Hall, Portland, Episcopal.
- Special schools are:
- Capital Business College, Salem.
 - Northwestern College of Law.

quite unusual, but nevertheless present and commented upon, is the fact that many young people, this year, who had planned to enter college or to continue, as the case might be, will enroll in commercial schools instead, due to the lower cost and shorter time required to prepare for remunerative employment.

SCHOOL FOR GIRLS IS ACCREDITED

St. Mary's Academy One of Portland's Oldest Institutions

An important link in the unusually complete and excellent educational program which has made Portland an outstanding cultural center in Oregon is the St. Mary's Academy, a school for girls.

This institution has for nearly three-quarters of a century been sending out into the walks of life a student body that has made the very finest of contributions to the home life and the various useful callings in the northwest and throughout the United States and other countries. St. Mary's Academy is the preparatory school for Marylhurst college, which will open with the coming semester, housed in its new beautiful buildings on the banks of the Willamette river just beyond Oswego.

O. S. C. FEATURES HEALTH EDUCATION

Physical Education Department to Be Expanded Coming Year

OREGON STATE COLLEGE, August 8.—Although lack of funds has prevented the carrying out of any major building program this year, students returning to Oregon State college this fall will find several much needed improvements, and many new faces on the faculty.

Probably the outstanding improvement in facilities for students will be the remodeling of the old heating plant as a chemical laboratory annex to be used in carrying out unit operations in chemical engineering, such as flow of liquids, heat transmission, combustion, drying, distillation, evaporation absorption and humidification. The need of such a laboratory has been felt for some time, and its completion will make possible the placing of more stress on unit operations in courses beginning this fall.

This department will also have one of the three new department heads included in the new faculty appointments.—Dr. Charles S. Keevil, who will be the youngest head of a degree granting division in Oregon State college. Dr. Keevil, who comes from the Massachusetts Institute of Technology where he has research associate in the applied chemistry laboratories, is already on the campus and is supervising the remodeling work.

In keeping with the school's established policy of doing all in its power to protect and improve the health and physical well-being of its students, the school of health and physical education established here last year has its department of hygiene expanded and two new specialists added to its staff. A total of nine different courses will be offered in the hygiene department this year.

Heading the department of hygiene this year will be Dr. M. P. Isaminger, who, for the past four years, has been assistant professor of hygiene and public health at the University of Michigan. Dr. Isaminger has also been head of the health and sanitation section of the extension service in Michigan and has been in charge of more than 8000 lectures before granges, farm groups and community clubs. He is also a member of the national joint committee on public health education and has studied health and sanitation problems in various American universities on the Mexican border and overseas during the war.

In charge of instruction for women for this department will be Miss Rena Heagen who has just completed a year of graduate study in health education at the Massachusetts Institute of Technology.

Another change of major importance in this school is the appointment of Miss Ruth Robinson as new head of the women's physical education department, succeeding Miss Ruth B. Glasgow, who has resigned after heading this department on the campus for four years. Miss Robinson comes from the physical education department of Michigan State Normal school. The department here is recognized as having the best course in physical education for rural schools of any in the country, and ranks second as a training school for physical education teachers.

Two new health service physical

CATLIN GRADUATES WIN SCHOLARSHIPS

Word has just been received that another girl, graduating from Catlin school in Portland two years ago, had won a scholarship at Smith college at Northampton, Mass. This young girl was selected by the French department of Smith college as the representative to spend her junior year in France, under direction of the college. This honor is sought each year by many girl students, and receiving the award is a very exceptional accomplishment for the student must obtain a high scholarship rating to be selected.

MARYLHURST'S PLANT IS NEW

College for Girls Located on Beautiful Campus in View of Highway

Marylhurst college, successor to St. Mary's college and academy, will open for its fall term September 29. The college and academy, founded October 21, 1859, by 12 sisters of the Holy Names of Jesus and Mary from Montreal, Canada, will merge its identity into the new institution.

The college has an entirely new plant on the banks of the Willamette river beyond Oswego. The site not only commands an extensive view of the river, but also of snow-capped Mount Hood and Mount Adams.

In the administration building are the offices, classrooms, school of music and science laboratories. In the south wing are the dining rooms, cafeteria and auditorium. At the north end of the building is a spacious library and the chapel, which is the heart of Marylhurst college.

East of the main building and entirely enclosed by glass and steel framework is a standard tiled swimming pool, four lanes wide and 60 feet long. In the complete plan there is provision for four dance residence halls, one of which is being erected at the present time. It, like the main building, is a modern well-equipped building of fire-resisting materials, offering every convenience for the comfortable recreation hours and quiet study. Courses will be offered in the following

Sacred Heart Academy
Salem, Oregon
Conducted by the Sisters of the Holy Names of Jesus and Mary
Complete grade and academic courses for boys and girls. Music department: Piano, violin, harp, and voice training. Refined, moral, intellectual and practical training.
370 N. Cottage St.

WILLAMETTE UNIVERSITY
SALEM, OREGON
Approved by the Association of American Universities
FOUNDED in 1842, it is the oldest college west of the Mississippi. Alumni and ex-students number 12,000 and are to be found throughout the world. A Willamette student possesses himself of a great heritage of tradition, history, influential fellow alumni and a real education.
Willamette has kept pace with modern requirements, has an excellent location, equipment, faculty and student body.
It is true to Christian standards. Its scholarship is the best.
It is inexpensive. There are many opportunities for self help.
CARL GREGG DONEY, President
The next year opens September 16. Catalog on request.

PORTLAND OFFERS SCHOOL OF LAW

Northwestern College of Law Succeeded University Branch

PORTLAND, Ore., Aug. 10.—Alterations in the quarters of the Northwestern College of Law in the Sherlock building, Third and Oak streets, have been completed, according to Charles R. Spackman Jr., registrar, who has just made up the roster of instructors for the 1930-1931 year.

Instructions will be given this year in the first, second and fourth years subjects. Spackman announces. Registration will be on Monday, September 15, and classes will start that week. Those wishing to register earlier may do so at Spackman's office, 331 Pacific building.

The catalog for the coming college year, which has just been published, lists the following instructors:

Judge J. Hunt Hendrickson, Judge Henry M. Tomlinson, Judge Otto J. Kraemer, Judge Jacob Kanger, Judge John B. Cleland, Judge Guy C. H. Corliss, Nicholas Janney, Lamar Toose, Clifford E. Zollinger, U. T. De Martini.

A full four-year course in law is afforded by the local college leading to a bachelor of laws degree. The Northwestern College of Law is the outgrowth of the law department of the University of Oregon, established here in 1884 by Dr. Richard Thornton, the second oldest law school in the west.

SALEM'S PIONEER COMMERCIAL SCHOOL CAPITAL BUSINESS COLLEGE

In session all Summer, but new Fall classes will begin on September 22. Students registering now.

W. I. STALEY
President
