NORRIS TAKES LEAD IN RACE

Wet Ahead for Senator in Ohio But Dry Favored For Governorship

(Continued from Page 1.)

candidates for the senate and governor gave Thomas P. Gore, former senator, a lead over C. J. Wrightsman, Tulsa oil man, of 68,150 to 49,150 in 1,121 of 3,325 precincts. William H. (Alfalfa Bill) Murray had 96,827 to 57,153 for Frank Buttram in 1,311 precincts in the gubernatorial contest.

Joe Robinson, Dry, Ahead in Arkansas

LITTLE ROCK, Ark., Aug. 12—(AP)—Senator Joe T. Robinson had nearly a four to one lead over his opponent, Tom W. Campbell, and governor Harvey Parnell was leading his nearest opponent, Brooks Hays, by a narrow margin in early scattered returns from today's biennial state primary.

Ninety-six precincts out of 2028 gave Robinson 4251 and Campbell 1114.

An even 100 precincts in the gubernatorial race gave Parnell 3825; Hays 3326; John Sheffield 343; Thornberry Gray 87.

Norris Winning In Nebraska

LINCOLN, Neb., Aug. 12—(AP)—United States Senator George W. Norris, carrying the banner of insurgent republicanism, was leading his pro-administration opponent on early returns tonight in Nebraska's senatorial primary.

Returns from 56 out of 2,030, precincts in the state gave the insurgent candidate 3,938 votes to 2,974 for William M. Stebbins, who had the endorsement of the "regular" wing of the party.

Aaron Read, a wet candidate, who virtually withdrew from the race a week ago, trailed with 155 votes.

Gilbert M. Hitchcock, former senator, was leading his dry opponent, Dr. Jennie Califas, for the democratic nomination by a margin of approximately five to one. Returns from 38 precincts gave Hitchcock 1,577; Califas 355.

FLOOD DOES GREAT DAMAGE OVER UTAH

SALT LAKE CITY, Aug. 12—(AP)—Continued heavy rainfall over the great Salt Lake valley and the mountain ranges that rim it, today caused new slides of mud and rock that hampered highway traffic and flooded new areas not touched by yesterday's storms.

Highways north, east and west were affected. Traffic to the north on the Ogden road was restored around slides at three places. In Parley's canyon the main highway to the east was being cleared of Monday's slides.

The highway to San Francisco was blocked by a slide southwest of here. Boilers and machine shops were flooded and several thousand dollars damage was reported.

Streets and basements in Garfield were submerged and a section of the Denver and Rio Grande western track there was washed out. The town of Grantsville was flooded.

A heavy rain today deluged streets and basements of downtown Ogden.

A landslide in a canyon above Provo blocked the highway and threatened a railroad that parallels the road.

FRUIT QUARANTINE RULE IS MODIFIED

WASHINGTON, Aug. 15—(AP)—A broad revision of Mediterranean fruit fly quarantine regulations removing sterilization requirements on fruit and vegetable shipments to wide areas of the country effective Aug. 15 was announced today by Secretary Hyde.

Eradication efforts conducted by the department in conjunction with Florida authorities, he said, have been so effective as to justify relaxing the restrictions. Only three infestations have been found in the last eleven months, he said, and these were considered so slight the more stringent regulations need no longer be enforced.

Sterilization of fruit shipments to the middle west and northeast will not be required under the modified quarantine. Tomatoes, egg plant, lima beans and other vegetables except peppers also may be moved throughout the country without sterilization.

Sterilization requirements will be continued on shipments of fruit, except limes, into 18 southern and western citrus fruit producing states. Also peppers shipped to these states must be sterilized.

Buildings Wash Away in Flood At Mining Camp

RENO, Nev., Aug. 12—(AP)—Three homes and a hotel were reported washed out at Round mountain, a busy southern Nevada mining camp 75 miles north of Tonopah, as the result of a cloudburst which deluged that section with muddy water and boulders tonight. The town was in total darkness.

Only meager reports could be learned here tonight but it was said no one had been injured in the flood. The extent of damage will be unknown until morning.

SEEKS TO LOWER GRAF'S RECORD

Ted S. Lundgren, Hollywood aviator, has taken off from Los Angeles, Cal., for New York. He intends to fly around the world in 15 days. Lundgren will be the navigator on this trip. The pilot and another who is to act as radio man are yet to be chosen in New York. Photo shows Lundgren looking over the instruments that will help guide his Emsco plane to victory.

ILLAHEE STRIKES OIL

But it All Comes Out of Faucets, and Is LUBRICATION VARIETY

Visions of oil derricks where there are flags, great tanks where there is now a spreading log clubhouse ran like lightning through the minds of members of the Illahee golf club one day last week. Millions of dollars had been spent for this, that and the other secret longing of the various members who could see their membership all into winged dollars—and why the flurry?

It was this way. "Johnny" Farrar after a hard shot game, stooped to drink from one of the fountains, and to quench his parched mouth there was naught but oil, soft, shiny oil that looked like a million dollars to the golfer. Just about this time the good wives who were getting a picnic lunch ready for their hard working golfer husbands discovered that oil was coming from the faucets where they were expecting to get the clear, cold water from Illahee hill.

Consternation and hopes reigned. A specialist was sent for, but alack, these specialist too readily make apparent miracles fade into common place cause and results.

The cause in this case was a new lubrication of oil in the pump pipes, the packing in the joints of which had become dislodged in the oiling. The result was that is appeared as though oil had been "struck" on the Illahee golf course and the truth was that all the oil which should have been lubricating the pump was being offered to the parched throats of the Illahee golf club members.

With a few last heart throbs, excitement died down and "Johnny" Farrar and H. B. Needham were heard assuring themselves that they were glad it was a mistake for they would have hated to see such a sporting course spoiled.

TWO YOUTHS FACE POLK GRAND JURY

(Continued from Page 1.)

and for Scovoda at $1000.

District Attorney Carson said Tuesday night that the robbery charge would be pressed first since this was the most serious of the charges brought against the youths. Robbery with the use of a gun calls for 10 years to a life sentence in the state penitentiary.

Reimann was somewhat defiant in his attitude in justice court. He said he took the two girls, with Scovoda to the California line where the girls were said to have gotten out of the car and walked across the line into the southern state. Reimann in the hearing characterized Scovoda as a "sap" when the latter declared the two might as well plead guilty.

One is Killed, Many Are Hurt In Pulp Blast

BERLIN, N. H., Aug. 12—(AP)—One man lost his life and five others were critically burned in an explosion of pulpwood mash which wrecked part of the Brown company mill here today. Another man probably was buried under the wreckage of 60-foot brick walls.

Sulphite fumes released by the explosion drove 300 other workers on the night shift from the plant and made impossible for hours any search of the ruins.

BULL FIGHT HELD WITH VARIATIONS

SAN FRANCISCO, Aug. 12.—(AP)—This didn't happen in old Monterey a long time ago but today in San Fraancisco, city of old Spanish customs.

It was real Spanish bullfight—with a few exceptions. This bull was a calf. The matadors were police on motorcycles. The arena was a paved city street. The colorful spectators were sleepy residents in pajamas. They had been awakened in the early morning hours by the bawling of the calf.

The Spanish matadors, Policemen Kelly and Hess, found bull throwing from a motorcycle father difficult but after an hour of chasing managed to fire their quarry.

They were robbed of a heroic capture by a dog catcher who tossed the calf into his wagon and took it to the city pound.

FIRST FOREST FIRE DEATH IS REPORTED

MENOMINEE, Mich., Aug. 12.—(AP)—The first death attributed to forest fires which have burned over land in the upper peninsula of Michigan was reported today.

George Grasby, 60, a recluse living near Ralph, Mich., fell apparently from exhaustion while carrying water from a creek to extinguish a fire near his cabon. He was burned to death.

More than 1,000 men were engaged tonight in curbing the flame. State wardens sought to recruit more but reported difficulty.

There are more than 75 fires by official report, in the peninsula, most of them in second growth areas. This county has 20 and in Wisconsin there was an estimated 30.

COMEBACK SUCCESS

CHICAGO, Aug. 12.—(AP)—Billy Petrolle, the "Fargo express" comeback bent, knocked out Paddy Walthier, Chicago lightweight, in the fourth round of their scheduled ten rounder at the congress Arcade tonight.

FIRE OUTLOOK GRAVE

HOQUIAM, Wash., Aug. 12.—(AP)—With the week old Cedervile fire spreading rapidly and four new fires reported, the forest fire situation became acute today in Gray's Harbor county.

MILKMEN SEEK PRESENT CODE

Vandevort's Attack Finds Cool Reception When Producers Meet

(Continued from page 1.)

less than two months since the higher milk rates went into effect, they said.

The county dairy inspector was blamed for a good deal of the grief in the ranks of distributers and producers, by Vandevort.

"The trouble is largely with the inspector. He'll do the most damnable things to the little man," he declared. When they showed their resentment to his statement he shouted, "I don't care if you5re all in favor of him. I'm not. We're run over too much with inspectors."

The majority of the producers would rather give a good grade of clean milk to the community under the city ordinance, than sell inferior grades, they declared. Repeal of the ruling would be a serious menace to the health of citizens of Salem, they told Vandevort.

'TWO JUDGE' BILL TO GO ON BALLOT

An order signed Tuesday by Circuit Judge L. H. McMahan holds that the referendum invoked against the Multnomah county Two Judge bill shall go on the ballot in November.

This bill, providing for two additional circuit judges for Multnomah county, was passed by the 1929 legislature. It was vetoed by Governor Patterson and passed over his veto. The referendum was invoked against it by W. F. Woodward of Portland. W. M. Davis, a Portland attorney, attacked the ballot title prepared for the referendum petitions by the attorney general, but the title was upheld by the supreme court.

Davis attacked the referendum a second time, alleging irregularities in the circulation of the petitions with reference to supreme court action on the title.

The court's action Tuesday dismisses the complaint.

UNREST IN INDIA SPREADING, WORD

PESHAWAR, India, Aug. 12.—(AP)—The spirit of tribal unrest appears to be spreading on the northwestern frontier, with British forces tightening the defense by increasing aerial bombing operations and rushing fresh troops northward.

Most of the Afridis who have been besieging this strategetic city for a week have withdrawn under constant bombing, but meager reports from the countryside indicate they have spread in all directions and that all branches of the tribe have then up arms.

An indeterminate number of Orakazis have joined the Afridis, and a party identified as Massozais attacked Badama post Saturday and Chamkennis were on the war path until the air force informed them that their own villages would be bombed unless they ceased their depredations.

Peshawar itself was quiet today and apparently most of the assailants have withdrawn under heavy bombing.

MONTGOMERY HELD AS MINES' BOMBER

(Continued from page 1.)

orange-hued plane, number 508-M fly over Providence during the bombing. The plane also was sighted at Hopkinsville, Ky., Shawneetown, Ill., and Harrisburg, Ill.

They also said their investigation here revealed Montgomery had taken off about 4:15 a.m. and returned at 8 a.m. The bombing occurred between those hours.

Suarez Family Grief Stricken

BUENOS AIRES, Aug. 12—(AP)—While Justo Suarez, Argentina's boxing idol, was fighting Herman Perlick in New York tonight his family was grief stricken by a domestic tragedy.

The boxer's brother, Gregorio Ramon Suarez, killed Jose Lopez, his brother-in-law, during a quarrel.

The average cost a mile for running a six-cylinder car in Germany is estimated at 8.3 cents.

.FINISH OF HAWKS' RECORD AIR FLIGHT

Above is photo of Captain Frank Hawks' plane landing at Los Angeles after record trans-continental flight from east to west. As he spent one hour and fifteen minutes in the five stops he made in his trip, Hawks was actually in the air 13 hours and 85 minutes. The stops were only long enough to refuel the ship and get into the air again. He ran into several severe storms during the latter part of trip.

SUAREZ PROVES HE IS REAL CONTENDER

NEW YORK, Aug. 12—Justo Suarez, Argentine lightweight pounded out a ten round victory over Herman (Twin) Perlick of Kalamazoo, Mich., tonight in the feature bout of the boxing card at Queensboro stadium. The South American scored his second straight conquest in this country by a decisive margin, battering Perlick but failing to put him down for a count. Suarez weighed 138½ and Perlock 139 pounds.

Suarez, a hard and willing puncher, swarmed over the curly haired Michigan lightweight in a bout that stamped him as a new prospect in the 135-pound ranks. He won six of the ten rounds easily and scored a more clean cut victory over Perlick than Jackie Berg, the English battler, was able to do several weeks ago.

Perlick kept his feet, but was staggered in several rounds by hard blows to the head, especially in the sixth.

GRAND JURY FAILS TO INDICT CARROLL

NEW YORK, Aug. 12—(AP)—Earl Carroll's "Vanities" may have looked indecent to a policeman but they don't to the New York county August grand jury.

The grand jury took just five minutes today to decide not to indict Carroll and three of the cast of his current musical revue on charges of giving an indecent performance.

The four were held for the grand jury by Judge Rosalsky in general sessions after police had raided the show and arrested Carroll and eight of the performers. Five of them were dismissed in magistrate's court.

The two scenes to which the police objected were a fan dance by Faith Bacon, in which they said she wore nothing but the fans, and a window dressing scene in which Jimmy Savo and five models appeared.

At Carroll's office tonight, it was said the show, which was changed in certain particulars after the raid, would remain as it is now. The window scene, Carroll's assistant said, would have been cut out anyway, even if the police hadn't intervened, and Mr. Carroll has no intention of putting it back.

Miss Bacon has continued, despite the raid, to give her fan dance. The Carroll office said she really isn't undressed under the fan, but wears some sort of chiffon arrangement.

Rain Welcomed In Middle West; Farmers Helped

KANSAS CITY, Aug. 12—(AP)—Old Jupiter Pluvius staged a comeback today and almost all eastern Kansas and a few sections of Missouri were at home to him.

The most beneficial rains perhaps were in northeast Kansas and northwest Missouri. In those sections, county farm agents estimated roughly their value to crops and pastures as "a million dollars," it was the first good rain for northwest Missouri since June 25. Hanover, Kas., had 2.59 inches from over night showers. Kansas City had 1.61 inches.

The Kaw valley had a soaking rain and reports from scattered points indicated the rain although light in some instances was fairly general over eastern Kansas.

BANKER SUICIDES

BERKELEY, Calif., Aug. 12—(AP)—H. J. Unrue, assistant cashier of the American Trust company's Berkeley branch, shot and killed himself in the bank basement here late today. Bank officials said his accounts were in good condition. Unrue had been in ill health.

Here, There And Yon

Bits of Personal News Gleaned About Interesting People

"Dick" Wetjen who now claims Oswego as home but who did much of his first writing and let a Salem postmark attach itself to his mail, is due for a visit in town this week. Wetjen has been south to Hollywood assisting in the filming of his story, "'Way for a Sailor." According to Murray Wade, Wetjen made good and was invited to assist with another production. Wetjen has one very different test of his stories: he reads them to a relative and if the latter tells him the story is good and should sell, Wetjen discards the yarn. But if the listener makes a comment such as: "I don't think the hero came out right," the proof of the story is evidenced in the actual interest in the yarn and Wetjen is assured his product has merit.

If J. E. Law takes a vacation next year he'd like to go back to Yellowstone park and spend five solid days at the canyon hotel. "I'd spend five days driving in the car jnst to have that pleasure," remarked Mr. Law when he got back from the trip to the national park. With his family, Mr. Law saw the park this year and he wants to go again. "When we arrived the tourist travel seemed light but each day the number of park visitors increased and when we were at Old Faithful the last night of our stay, the accommodations at the park were virtually all taken," Law said. Twin Falls, Idaho, appeared to be the liveliest town he visited.

Considerable strength for Edward F. Bailey, democratic nominee for governor, is to be found in Salem, asserted Brazier Small after an informal checkup Tuesday. Small said that war veterans he had checked with liked Bailey's record and could not feel favorably disposed either towards Meier or Metschan. "Of course only a few were polled and the results are only surface indications but you can feel assured Bailey will poll quite a vote," Small opined.

The ladies' ready to wear business hasn't suffered in the least from "business depression" according to George K. Parker, brother of Mrs. Charles K. Denison, who was in the city Tuesday. "I've been in the business over 19 years and never had such a demand in that time. Where it usually takes me only five weeks to cover Los Angeles, this spring it took me just two months," he said.

• • •

It looks as though it might be about a 33 1-3 per cent gamble on whom the people, at the November polls, will bestow their votes for governor of Oregon, believes John Orr, former Salem man and now of Portland, who was in the city yesterday. Mrs. Orr accompanied him here. Orr says right now it looks best for Meier in Portland, but even at that he doesn't predict that that will tell the tale when the shooting is all over.

PEAR PACK RUSH WILL START SOON

(Continued from page 1.)

shortly, and that there will be nothing in the way of a large pear pack. Beans will be worked here well into September, and after the middle of this month berries will be coming in strong. Some blackberries will be preserved.

Peach Preserves Experiment Made

Experiments were carried on at the Reid Murdoch plant yesterday in preserving Crawford peaches, and judging from the results obtained this variety will be put upon the market. Heretofore Albertas have been used exclusively for preserves, but flavor on the Crawford is said to be superior. This plant is keeping from 100 to 150 persons busy every day, even during the slack period.

First work in pears at the Hunt Brothers cannery is scheduled to start Friday morning of this week, and blackberries will be handled next week.

HUNTERS' MARK TO FALL TODAY

Jackson and O'Brine Will Pass Chicago Mark at 8:52 This Morning

(Continued from Page 1.)

garded as epochal at that time.

They came down only upon instructions from the airplane manufacturing company that sponsored the flight.

If Jackson and O'Brine set a new record they will be the first refueling endurance fliers to regain the sustained flight record after having lost it.

Depending upon public subscriptions for funds, the fliers have at times nearly faced a deficit. Only last week O'Brine ordered one of his automobiles sold to obtain money to keep the plane aloft.

But with a new record in sight, financial reward also had appeared in the offing. An oil company has offered to pay the fliers $100 an hour for the first 70 hours after breaking the record, and other donations are coming in.

The Hunter brothers landed July 4 after setting their 554-hour mark and O'Brine and Jackson took off July 21 to regain the record. The Hunters will have reigned as champions only about six weeks if their record falls.

HARD-SOFT LARGE-SMALL CORNS

Out To Stay Out - - Roots and All
Magic Oxygen Salts Bath Never Fails
No More Burning Aching Feet

No matter how many corns you have or how painful they are—soak your feet for 15 minutes in a delightfully soothing and revitalizing Radox footbath for 3 or 4 nights—then lift corns and callouses right out—roots and all and they won't come back either unless you wear shoes again which aggravate your feet.

No cutting or digging is required because Radox liberates oxygen which softens hard outer layers of corns, each night penetrating the pores further and further, carrying the salts right to roots of corns which are so loosened they can be lifted out bodily.

Your feet are made strong—healthy—vigorous—hard skin on heels and toes goes also.

Perry's Drug Store and all good drugstores are stocked with Radox—if they aren't insist upon them ordering it if you want to experience great foot-joy and comfort. Adv.
