

Senator Brown Comes Out for Agent in Strong Statement

TROPHIES ARE GIVEN TO NINE

Silverton Honors Victors; Coaches, Notables at Special Banquet

SILVERTON, August 13.—Mr. and Mrs. George Manolis were hosts Monday evening at the armory at a dinner honoring the American Legion junior baseball team which won championship of the state.

Baseballs were given to each of the players as favors and Rudolph, catcher, was given a \$15 glove. Dr. A. W. Simmons, manager of the team was presented with a large loving cup upon which were engraved the names of the players and the names of Mr. and Mrs. Manolis.

Johnson Presents Gifts
Charles Johnson, state executive commissioner of the American Legion and nominee for commander of the local post, gave the presentation speech.

Rochester Boys Church Guests; Picnic is Held

SILVERTON, August 13.—Four graduates of the College of Rochester, N. Y. were guests at the Christian church at a picnic at the Coolidge and McClaine park Monday evening.

Jaw Lancing is After Tooth Job

BRUSH CREEK, August 13.—Mrs. Alvin Krug had her jaw lanced this week. Four months ago she had a tooth pulled. Seemingly the jawbone was a little injured in the extraction process and infection set in. She is much improved now. It is reported.

Likens Him to Physician; "Farming Survival Best," Cases Show Need, He Says

WOODBURN, Aug. 12.—

The county agent plan is necessary and essential to the development of Marion county.

Such is the opinion of Sam Brown, state senator for a number of years and considered one of the leading farmers in the county.

"Farming, like everything else," said Brown in an interview this week, "is getting to be a case of the survival of the fittest. The farmer is going to have to quit if he doesn't keep up, just as a manufacturing concern must quit if it tries to keep going with obsolete machinery."

"I want it understood that I have nothing against S. H. Van Trump, Marion county fruit inspector. He is a good friend of mine. As I understand it the campaign for a county agent has nothing to do with him or his job."

Potato Case Cited
"There are plenty of cases, right in my own experience, to show the need of a county agent. I remember once I bought some seed potatoes somewhere in Washington for use on my farm. Some of them were diseased. I didn't know how to rogue out the bad ones; not one farmer in 50 does. If we had had a county agent in this county he could have showed me, and my potato crop would have been saved that year. As it was it was lost. There would have been enough saving right there, on my farm alone, to cover all the expense the county agent would be to me the rest of my life."

"A county agent is as necessary to the proper development of agriculture as a physician is to correct health of the individual and the community. I believe the time will come when this fact will be fully recognized. The old idea that all it takes to farm successfully is just a lot of experience on a farm and a lot of hard work, is only partly correct. Scientific knowledge that is unavailable to the ordinary farmer is needed to operate a farm successfully these days. It is as incorrect to say he can get along without it as to claim that each individual is competent to be his own doctor and make and enforce his own health and quarantine laws."

"The cherry fly situation in this county is another example of the need of a county agent. Last year the cherry crop showed a heavy loss due to the presence of this fly. Everyone who appreciates the enormous size of the cherry crop in this county must

NEED PROVED

Senator Sam Brown, who is a "dirt" farmer as well as a legislator.

realize the seriousness of the situation. "In order to prevent the same thing from occurring again this year the cherry men had to get together and hire, with their own money, a man to come out here from the east and handle the situation for them. Last spring this man had traps set for the cherry fly in various sections of the county as the first step in keeping the fly down. "If the grower sprays for the cherry fly a few days after it emerges from the ground and before it begins laying eggs, the fly is able to do very little harm. The whole idea is to spray just at the right time. The flies all

HARVEST IS ON IN HILLS AREA

Comstock and Sebo Hill Road Construction Begins; No Detour

WALDO HILLS, August 13.—Threshing is in full swing in the Hills. The Kuesel machine started Monday morning, the Haberly outfit began Tuesday and the Brunner crew will begin Thursday.

Road work is going along rapidly. The tearing up the old road between the Comstock and Sebo hills has been started. People of this section certainly appreciate the fact that the men have arranged it that at no time has the road been impassable and if motorists will be patient and not try to hurry through the going is alright.

The work on the new Drift creek bridge is far enough along so it begins to look like a bridge. The forms are nearly finished and soon the work of pouring concrete will start.

The K. O. Rue family picnic at the A. J. Nerison home Sunday.

Attend Davenport Rites
A great many from this neighborhood attended the funeral of Mrs. L. Davenport in Silverton Monday.

Arch Geer, who had his knees injured by a rock while at work on the road, is now able to be about though it will be some time before he can do his usual amount of work.

Mildred Egan spent Sunday at the home of his parents, Mr. and Mrs. F. M. Egan. Mildred is working in the office of the J. C. Penney Co., in Salem. Although she enjoys her work she is always glad to return home for a day.

Hulbert of Marion, Has 1-Year Cow That Breaks World's Mark of Jerseys

MARION, Aug. 13.—Daily one

reads of new achievements, ones which give their instigators a great deal of satisfaction in the knowledge they have accomplished new things. One achievement that is the most looked forward to by Jersey breeders is that of producing a record cow in which Oregon has played quite a prominent part.

To L. A. Hulbert of Independence, falls the distinction of attaining this honor.

In a letter to Elsie Pickard, Mr. Hulbert advises that he has just been informed by the Jersey Cattle club that his Jersey cow, Golden Chief's Lady May, (7 year old), on a 305 day test has broken both the world records, in her class, for the production of butterfat and milk, her record being, 893.89 pounds butterfat and 19,922 pounds of milk in the 305 days.

Her milk during the test running up to 75 pounds per day, a most wonderful achievement, and one which gives Mr. Hulbert much pleasure.

Elsie Pickard is as jubilant as Mr. Hulbert over the achievement, in fact as much pleased as though the record had been produced by a cow from his own herd and justly so for Golden Chief's Lady May is from the Pickard strain of Jersey cattle.

Mrs. Ottoway Give Mother, 75, Dinner
AURORA, Aug. 13.—Mr. and Mrs. F. O. Ottoway and family were Sunday guests at a dinner at the home of Mr. Ottoway's sister, Mrs. J. H. By of Howell Prairie.

The dinner was in honor of their mother, Mrs. G. H. Ottoway, who was 75 years young that day. Her five children were all present upon this happy occasion.

Several neighbors and friends called during the day to felicitate the honor guest and sincerely wish her many happy returns. Upon the Ottoways' return to Aurora they found Mr. and Mrs. H. R. Lathrop of Portland awaiting their return.

MAKES TOUR OF OREGON
AURORA, August 13.—Miss Esther Martin and Bernice Shibley, of Clairmont, Calif., called upon their great aunt, Mrs. Geness Nordhausen, while making a tour of Oregon. They took the trip over the Gresham highway, and upon their return south will visit Crater Lake.

NORTH FORK HAS FEW FISH, REPORT

MARION, August 13.—Harold

Smith and Homer Johnson returned Monday from a fishing trip above Detroit on the North Fork of the Santiam. Luck was not with them on the trip. The men made only a small catch.

Mr. and Mrs. Frank Blead who have been visiting at the home of Mr. and Mrs. Elsie Pickard the past week returned to their home in Portland Monday.

Guy Johnson is loading out a car of hay this week for the Hammond Lumber company at Mill City.

Mr. and Mrs. J. R. Willis returned Monday evening from a week's outing at Waldport.

TEACHER VISITS
AURORA, August 13.—Miss Bernice Morrison, a teacher in the Dallas high school is a guest of Miss Norma Eckleson for a week.

Farmers Busy Hopewell Area

HOPWELL, August 13.—

Farmers are very busy harvesting their crops.

Mr. and Mrs. Ross Rogers and daughter Barbara have left for a trip east.

Arch Geer, who had his knees injured by a rock while at work on the road, is now able to be about though it will be some time before he can do his usual amount of work.

Mildred Egan spent Sunday at the home of his parents, Mr. and Mrs. F. M. Egan. Mildred is working in the office of the J. C. Penney Co., in Salem. Although she enjoys her work she is always glad to return home for a day.

Mr. and Mrs. W. G. Whidden and son, Kenneth, of Ingleswood, Cal., who have been visiting at the Edson Comstock home, and Mrs. S. J. Comstock in Silverton, left Monday noon for Tacoma and Yakima where they will until October when they will again visit here on their way to their California home.

Mr. and Mrs. P. J. Neuwanger had as guests Wednesday Mrs. E. C. Dye and daughter, Juanita, Mrs. Ralph Dye and daughter Jeanette of Oregon City, Mr. and Mrs. Wm. Sharter and sons, Wm. and Harland, Mrs. Patton and Mrs. Albert Mader and two little boys of Shaw.

Families Enjoy Picnic
The Kaser, Eggeman and Krug families enjoyed a picnic on Drift Creek Sunday honoring Mr. and Mrs. Shafer of Salem, Mrs. Shafer was formerly Mrs. Alice Kaser. Mr. and Mrs. Perry Wiggins of Eugene were Sunday guests of Fred Knight's.

Attending the Illinois picnic at Woodburn, Sunday were the Shurter families, the A. R. Mathis, P. J. Neuwanger and Earl De Sars.
