

UNIVERSITY TO GIVE WELCOME

Freshman Week Begins on Sept. 12; Enrollment now 228 new Students

Preparations to handle one of the largest freshman classes ever to enter Willamette university when Freshman conference week opens September 12 are rapidly taking shape. Thursday 228 applications had been accepted, 207 of them being freshmen. Twenty are advanced students and one will enter as a special.

The number of accepted names is 42 per cent greater than the total average enrollment of the freshman class during the first semester last year. H. M. Tennant, registrar, said Thursday. Four foreign countries and many of the western states are represented, although most students enter from Oregon, Washington or California.

Conferences Held For New Students

Freshman days are held during the five days prior to registration of students of advanced standing. Instructive talks, socials and entrance tests are the chief features of the period.

President Carl Gregg Doney, Dean Olive M. Dahl, Professor Leslie Sparks and Dean F. M. Erickson are in charge of the freshman days. Student organizations provide entertainment for the new students.

Fraternities and sororities entertain many new freshmen during the "rush" days in odd hours not taken up with features of the program.

The complete list of activities was prepared Thursday and will be mailed to prospective students whose applications have been accepted during the coming week. The program follows:

Friday, September 12
Enroll with registrar before 10:50 o'clock.

11:00 The Spirit of Willamette, Chapel, President Doney.

1:15 English classifying examination, Eaton Hall.

3:00 College songs and yells, Chresto Cottage.

8:00 Reception by the faculty, Lausanne Hall.

Saturday, September 13
8:30 Talk on student finances, Chapel, Harold Eskin.

9:00 Intelligence test, Eaton Hall.

10:00 Individual professors may be interviewed.

11:00 Aptitude test—mathematics, Eaton Hall.

1:15 Meeting with Dean Erickson, Chapel.

2:00 Aptitude test—reading, Eaton Hall.

3:30 Individual professors may be interviewed.

9:00 Conference of women, gymnasium, Prof. Baldersee.

9:00 Conference of men, Chapel, Coach Keene.

10:00 Physical examination as scheduled.

ROYAL ARCH NAMES NEW SET OFFICERS

TACOMA, Aug. 28.—(AP)—The 41st triennial convention of the general grand chapter, Royal Arch Masons, now in session here, elected officers for the succeeding three years today.

John William Neilson of Concordia, Kas., was chosen to succeed Charles Clark Davis of Centralia, Ill., as general grand high priest, and William Tecumseh Sherman O'Hara of Toledo, Ohio, was advanced from general grand king to deputy general grand high priest.

Mattison Boyd Jones of Los Angeles stepped up from general grand scribe to general grand king and John Huske Anderson of Raleigh, N. C., was elected to the office of general grand scribe. The reelection of Gustav Adolph Eitel of Baltimore, Md., as general grand treasurer and Charles Arthur Conover of Coldwater, Mich., as general grand secretary followed.

George Allison Holland of Lexington, Ky., was named general grand captain of host and William Edward Goff of Battle Creek, Mich., was elected general grand principal sojourner.

The office of general grand royal arch captain was given Ray Vaughn Denslow of Trenton, Mo., and Wilbur Allen Scott of Providence, R. I., was named general grand master of the third tier. General grand masters of the second and first tiers will be Early H. Johnson of Columbus, Ga., and Edward W. Spotswood of Missoula, Mont., respectively.

A charter for a new chapter at Cordova, Alaska, was granted.

WOMAN DIES WHILE DOCTORS SAVE MAN

Mrs. Irving S. Johnston watches through glass partition while Dr. Frank J. Johnston keeps her husband alive. There was only one respirator in San Francisco, so the physicians used it to keep Johnston, an artist, alive, while May McCulloch, 30, suffering also from infantile paralysis, died for lack of its aid.

FOREIGN BALLOON ENTRY AMBITIOUS

CLEVELAND, Aug. 28.—(AP)—A belief that this year's international Gordon Bennett balloon race will end in the forests of northern Canada, was expressed today by the German and French entrants in the contest. They are Dr. Hugo Kaulen, Jr., of Germany, and Albert Boitard, of France, who with Ernest Demuyter, Belgian entry, will represent Europe's attempt to check the United States' string of four consecutive victories.

Uncle Sam will defend his partial hold on the title with balloons from Detroit, Cleveland, and the Goodyear Tire and Rubber company. There will be just six entries in the contest which will start Labor day at Cleveland municipal airport.

Kaulen said tonight the foreign entrants are ready to sacrifice almost anything in the hope of winning. "We may throw everything overboard except the sealed barograph," he said. "We will carry a rubber boat, foot for 10 days and a radio compass, but all this may go over before we reach the end of our journey."

Boitard said he and his aide, Jean Herche, probably will throw away their remaining food and heavy clothing as they near the end of their flight, and risk starvation and exposure in the event of landing in some inaccessible northland spot.

HOP YARD WELLS ARE CHLORINATED

Harry Sinks, sanitary inspector, working out of the Marion county health unit, is conducting a wholesale chlorination of wells which supply the water to hop yard workers, according to information received at the health unit Thursday. Formerly it has been the custom to take samples of the well water and then chlorinate when found needful, but the situation is such that no chances are being taken on the results of drinking the water without treating it. The tests are being performed after the chlorination has been done this year.

These tests to date show that on the wells tested 75 per cent show contamination or are "C" wells, meaning that they contain bacteria that cause disease as dysentery, typhoid, and other conditions.

Where an "A" well which is safe contains only one or two harmful bacteria per standard measurement, a "C" well often contains more than 20,000, according to Dr. Vernon A. Douglas.

Mr. Sinks said that the conditions found in these wells should have been open to investigation weeks ago, rather than waiting until the pickers begin to arrive, because most of the wells have been unused for the better part of the year and thus the water is stagnant and consequently unsafe.

Daily work is being done by Mr. Sinks to get the water situation into safe condition for the thousands of workers who are using it.

Many Turn out For Pre-School Health Clinics

Marion county health unit is busy these days with pre school clinics. Thursday afternoon between the hours of 1:30 and 4 o'clock 11 children, most of them infants, were brought to the clinic for examination.

A second clinic will be held this afternoon at the same hours and for this time there has been scheduled and there had been 10 registered for examination Thursday evening.

The clinics are held in the unit headquarters on North High street. The children examined include infants and a few pre school children.

VIVIAN IS REVENGED

Brother Hal Duncan Knocks out Rex Lease Black Eye Returned

HOLLYWOOD, Cal., Aug. 28.—(AP)—Hollywood film folk today hailed as "a knockout" the latest local unfiled fist fight. Rex Lease, erstwhile attacker of Vivian Duncan, actress, and the loser last night, admitted it was. He said his black eyes would keep him from facing the movie camera at least four days.

Lease was knocked down twice in a Hollywood boulevard fight by Hal Duncan, brother of Vivian and Rosetta. He recently paid a \$50 fine after Vivian Duncan accused him of giving her two black eyes. She said she refused to accompany him into the Malibu beach cottage of a friend.

Witnesses of last night's one-sided battle said vengeance was

NEWCOMERS ENTER HIGH SCHOOL HERE

Enrollment at the high school for the fall term shows several out of state students and newcomers to Salem. Among these are Vera Steward, sophomore, and Doris Steward, senior, who come from Charleston, West Virginia; Helen Darkley, sophomore, and William Darkley, senior, who received their past high school education in the high school department of the state teachers' college of Valley City, North Dakota.

Dorothy Murphy, sophomore, is registered from Franklin high school Portland; Ruth Cecil, sophomore, comes from Spearman, Texas; and the one to come the farthest so far, Charlotte Hazard, sophomore, from Natchitoches, Louisiana.

The majors of these folk are four for commercial work and three for college preparatory. This shows an interesting indication according to R. L. Tavener, vice principal, as to the proportion of high school majors, which, in other words indicates that the majority of high school students are making their high school education give them immediate financial returns without college work.

ARGENTINA FACES POSSIBLE REVOLT

BUENOS AIRES, Aug. 28.—(AP)—The Argentine capital today is tonight for a possible revolutionary outbreak against the government of President Hipolito Yrigoyen, for 40 years a powerful figure in his country's politics and twice its chief of state.

Warning that a revolution might break out immediately in part of the army was said today by the newspaper La Critica to have been given the president by Dr. Juan de la Campa, minister of justice. Dr. de la Campa said certain political leaders were involved.

The president was reported to have replied he did not fear any revolutionary outbreak against the state, but believed an attack might be made against himself.

After a night and a day of feverish political and police activity, all military units here were confined to barracks. The president's home and the presidential palace were heavily guarded.

Machine-guns were mounted on the roofs of surrounding buildings and a mounted police squadron augmented the regular palace guards. Soldiers and police were concentrated at strategic points.

Despite rumors of political upheavals and conspiracies the city itself was calm this evening.

WIGFALL WILL STOLEN, CLAIM

Judge McCredie Unable to Produce Instrument on Demand of Myers

PORTLAND, Aug. 28.—(AP)—The law's spotlight turned its full beam tonight on the search for the will of Charles Y. Wigfall, 35, brilliant but eccentric Portland attorney and former Vancouver, Wash., minister, shot to death last Thursday reportedly in a scuffle with a robber.

Given four hours by Stanley Myers, district attorney to produce the missing document, Judge W. W. McCredie, Wigfall's law partner and former Portland baseball club owner, gave authorities the startling information the will had been stolen.

While the coroner subpoenaed 20 witnesses, mostly women, to appear at the inquest for the slain Yale and Columbia universities graduate tomorrow, investigators continued unraveling information received from a stenographer, waitress, radio entertainer, Vancouver high school dean of girls and a hospital nurse. They are avowed friends of Wigfall.

Mrs. McCredie not informed on will

Among the subpoenaed witnesses is Mrs. W. W. McCredie, the judge's wife, named beneficiary in Wigfall's insurance policies totaling \$75,000. Mrs. McCredie said she knew nothing of her husband's assertion the will's contents would shed light on the mysterious death. McCredie told authorities previously the will was in his law office and numerous ward bequests were in it. He said he could not name the thief who stole the will.

Two revolvers, one found near the shooting scene and tentatively identified as Wigfall's and another, discovered in his office desk, will be presented at the inquest by authorities endeavoring to prove Wigfall's death was suicide or possibly murder, but not the result of a fight with a robber.

AVIATRIX

Lady Mary Heath, noted Irish aviatrix, as she appeared on the S. S. Amsterdam just before embarking for Paris, where she will make an extended visit. The flyer has been in ill health due to injuries received in an airplane crash in Cleveland last September.

All But Seven Bodies Removed

BLAKEBURN, B. C., Aug. 28.—(AP)—The 38th body was recovered today from the Blakeburn mine, scene of the explosion which killed 45 men two weeks ago. It was that of John Vidosh, 29.

Seven bodies are still in the mine.

COMPANY MUST DISPLAY RATES

Garibaldi Beach Utility is Chided for Failure to Permit Inspection

Schedules of rates of the Garibaldi Beach Water company, shall be printed in plain type and kept on file for the convenience and information of patrons, according to a letter sent to A. H. Schrader, president of the water company, by the public service commission.

The commission's letter was prepared after a complaint had been filed by the Twin Rocks commercial club that Schrader had refused to make the rate schedule accessible to patrons of the water company.

"Your attention is particularly directed to your refusal to allow an examination to be made of the commission's recent order containing a schedule of rates," read the commission's letter. "In this connection your attention is called to the fact that the law requires you to have a copy of the prescribed schedule of rates printed in plain type and kept on file in every office of your company where payments are made by your customers or users. The schedule must be open to the public."

Supply Source

To be inspected. In another letter written to William G. Harrington, secretary of the Twin Rocks commercial club, the commission acknowledged receipt of the complaint against the Garibaldi Beach Water company, and assured the club that the rate schedule would be made available for examination.

Harrington also was informed that an engineer for the commission would go to Twin Rocks next week and conduct an examination of the head-works of the water company. The commercial club complained that the headworks were dilapidated and unsanitary.

Couples Cannot Marry in Haste In B. C. Ruling

VICTORIA, B. C., Aug. 28.—(AP)—It is impossible for couples "marry in haste and repent at leisure," in future, they will have to go outside British Columbia to do it.

Under legislation which comes into effect on the first of September, eight days must elapse between the time a license is issued and the time the ceremony is performed.

In cases where an immediate marriage is desirable special permission must be obtained.

Clergymen must be registered with the Provincial authorities in order to officiate.

MINERS SURRENDER IN BOMBING CASE

MURPHYSBORO, Ill., Aug. 28.—(AP)—Two Zeigler, Ill., miners surrendered today to answer charges in connection with the airplane bombing recently of the Providence, Ky., coal fields.

The men, Ray Edmondson and Ed Hecklebeck, were named by Paul Montgomery, confessed pilot of the bombing plane, as the two with whom he conferred in Duquoin shortly before the raid.

The men were placed under bond of \$5,000 here and then taken to Benton to answer to federal charges in connection with the bombing.
