COREY SURPRISED AT POSTPONEMENT

Surprise was expressed by H. H. Corey, member of the public service commission, here Thursday, when informed that the interstate commerce commission had postponed from October 1 to January 1 the effective date of the grain rate reduction for the western territory.

"I do not think the interstate commerce commission would comply with the petition of the carriers," said Corey, "for the reason that the postponement will work a hardship on the farmers. Under the order postponing the effective date of the order, farmers will not benefit from the reduced rates during the 1930 shipping period."

MILL CITY TO OPEN SCHOOLS

Work Will Start Tuesday as First in County Along With Union School

Mill City schools, high and grade, which open next Tuesday, September 2, will be the first in the county to commence the 1930-31 year. Mrs. Mary Fulkerson, county school superintendent stated yesterday. The Union elementary school northwest of Woodburn will also open the day after Labor Day. This is a week earlier than any schools opened last year according to the county school superintendent.

The Taylor school three miles north of Woodburn is scheduled to open Monday, September 3.

Mrs. Fulkerson has heard from a number of school boards which have had their school property improved during the summer.

The grounds of the schoolhouse at Gates have been graded and drained. The school board at Sublimity has added a new room to its schoolhouse and has remodeled and plastered the present building.

School Grounds Being Improved
Marguerite Looney of District 27, was in from Jefferson Thursday to report that the school had been painted inside and out.

"School buildings are being given much better attention than ten years ago," said Mrs. Fulkerson yesterday. "I find school boards insisting that the properties be painted and cleaned in the summer time. The school authorities take a pride in the property which I think are in good shape generally in this county."

STOCKS FLUCTUATE WIDELY ON MARKET

NEW YORK, Aug. 28.—(AP)—The stock market swung about like a weather vane today in a day of frequently shifting but unimportant trends.

The general price level as measured by the index of 90 leading shares ended the day virtually unchanged, the index showing a loss of 1-10 point. Trading was restricted by the approach of the Labor day weekend closing and total sales aggregated only 1,437,210 shares, only about 60 per cent of the previous session's turnover.

Several pool operations that have been dormant for a few weeks were renewed in some of the specialty shares, apparently in an effort to build up a little interest preparatory to plans for post-holiday activity.

Among the day's strong features Sears Roebuck gained 4 points and Delaware and Hudson jumped 6 in a small turnover. Demand for preferred shares probably reflected an overflow of the abundance of funds recently seeking investment in the bond market. Such specialties as McKeesport Tinplate, Cutler Hammer, Mack Truck and Mathieson Alkali and Childs declined 2 to nearly 4 and closed about two higher. Shares closing up a point or so included Baldwin, Woolworth, Montgomery Ward and General Electric. U. S. Steel fluctuated over a two point range and closed unchanged.

DROUGHT WORKERS WILL CONFER SOON

WASHINGTON, Aug. 28.—(AP)—Chairmen of state drought committees will be called to Washington in the near future by Secretary Hyde, chairman of the national committee, to coordinate and expedite relief work.

The secretary announced his intention of calling the leaders of relief work together in a telegram from Chicago today. He is expected to return to Washington tomorrow.

In his telegram, Hyde said banking representatives of the drought states had outlined a "helpful program" which not only pointed out the duty of local bankers and local people but undertook to supplement their resources by the formation of agriculture credit corporations.

Formation of these corporations, which will serve as intermediaries between farmers and the intermediate credit banks, he said, assured "ample credit for loans to farmers in drought-stricken areas." He added they would also be of continuing benefit in the future.

Hyde said distress which could be met by the combination of local banking facilities and intermediate credit banks would be "amply provided for by the Red Cross."

Mrs. Artila Steele, Aged 92, Leads Happy, Active Life

By ORA BEAR
TURNER, Aug. 28.—Mrs. Artila Steel who celebrated her 92nd birthday last June is a remarkable woman for her age, as she lives alone by preference and keeps a fine garden and chickens; over town and to church.

She has no immediate family left, an only child died in infancy and his father died many years later. However Mrs. Steele has a nephew, Omar Estes and a niece, Mrs. Ona Workman, who are devoted to their aunt and often visit her and just now Mrs. Steele has been persuaded to visit them at their homes at McMinnville for a few days. Mrs. Workman drove to Turner for her aunt Thursday.

It is not often Mrs. Steele will consent to leave her home. She was born and raised in Indiana, where she was married and later she and her husband moved to Missouri, where they made their home for 17 years. They came to Oregon 20 years ago to visit a sister, Mrs. Estes, since deceased. After the first year in Oregon Mrs. Steele has lived in and near Turner.

TURNER GRATEFUL FOR LIBRARY GIFT

Appreciates Generosity of Mrs. Davis, a Resident For Many Years

TURNER, Aug. 28.—Turner folks just waked up to the fact the first of the week, that the town's benefactors, Mrs. Carnelia Turner Davis, who has sponsored a number of projects and memorial buildings to the amount of thousands of dollars, is now planning yet another building to be used for a public library and museum.

The announcement comes through Mrs. Davis' lawyer, S. M. Endicott, that the building will not be far from the Davis home and will be on the highway running through the town; it will be built of reinforced concrete, dimensions 30x40 feet and two stories high, probably costing \$15,000. It will be a handsome public building, built for the benefit of the community at large.

Mrs. Davis at present has the distinction of being the oldest resident of Turner, by one year, as one other lady has passed her ninetieth birthday. Mrs. Davis gets around among her friends and is always ready for an auto trip.

This will be the third public building to be erected at Turner, which were donated by Mrs. Davis, excepting her two brothers, George and Lewis, now deceased, helped build the large tabernacle for the use of the state Christian church. It was built 39 years ago as a memorial for their parents.

In recent years Mrs. Davis built the local Christian church, which is a beautiful, well built structure, it being a memorial building especially for her mother, Judith Turner.

The people of Turner can but be very grateful for the many nice things Mrs. Davis has done for her home community.
