## The Beauty By HELEN FOLLETT Box

Shimmering surfaces of oily noses produce wrinkles of yore, but the dull complexion is seen oftener than the gilty one. It is this modern interest in health-giving diets that is doing the business. The individual who laps up rich gravies, eats more fat foods than the tummy needs, is the one who looks as if her face were buttered. She will find beauty help in the salt glow—rubbing the body with salt, and spraying it away with cold water—and in ice rubs for the complexion, followed by a patting with cotton which has been dipped in witch-hazel.

Acne and blackheads can be wiped off the facial map by proper medical attention. Certain rays are used with success by doctors who specialize in diseases of the skin. The more warm water and soap used, the better since soap suds dries up watery deposits and heals the pustules. Patting in a powder made of equal parts of baking soda and boric acid often dissolves blackheads, clears the pores of them. Then pores contract, giving the skin a finer texture.

Standing on one foot, sitting twisted in the chair, holding the head sideways are bad habits; they throw the body out of alignment, have a depleting effect upon the spinal column, which was never intended to curve from one side to the other. The symmetrical form is the result of good posture.

To fill out hollow cheeks, use a nightly application of equal parts of lanolin and cocoa butter, mixed together by melting. Place the fingers outspread over the cheeks and bring together in a clenching movement. This treatment strengthens and stimulates the trumpeter's muscles.

Few women are so thin that collar bones show out. The source of the trouble is usually in the habit of throwing the shoulders forward. Throw them back and collar bones do a hideaway. By keeping the chest lifted, the shoulders must go back. The lifted chest cavity has a greater breathing capacity than the one that slumps inward.

## ROUNDUP SEEN BY THOUSANDS

### Banner Events of Colorful Program are Slated For Today

PENDLETON, Ore., Aug. 29.—(AP).—In the expression "Ride 'Em Cowboy," thousands of visitors today voiced the true Pendleton roundup sentiment and cheered cowboys and cowgirls, clad in colorful attire characteristic of western rangelands, on to further feats of daring unruly steers and mustangs from the sagebrush.

With the rolling wheat country of Umatilla county providing a natural amphitheater, nationally known bulldoggers, ropers, trick riders and just plain bronco "busters" brought a sizeable taste of the vanishing west to spectators.

Still more colorful than the gay neckerchiefs an aten gallon hats is the Indian village where more than 3,000 Umatillas, Walla Wallas and Cayuses, all decked out in leather and feathers, have camped. Flickering campfires at night coupled with ancient Indian rites add the final touch.

Sam Jackson Cup Will be Awarded  
Although Saturday is considered the banner day because finals in all events are run off, King Merritt, Cheyenne, Wyo., Dick Merchant, Carlsbad, N. M.; Ike Rude, Payson, Arizona; Mabel Strickland, Burbank, Cal., and a host of other prominent rodeo riders will enter the preliminaries with a vengeance Saturday the Sam Jackson trophy, given to the world's all-round cowboy, will be presented permanently to a three year winner.

Opening officially, Pendleton's street echoed to stagecoach wheels, the clatter of cayuse hoofs and the solemn, slugging chant of 3,000 Indians participating in the three mile long parade.

## AVIATRIX GETS OUT OF SERIOUS SCRAPE

PORTLAND, Ore., Aug. 29.—(AP).—Miss Ruth Alexander, Los Angeles aviatrix who holds the world's women's altitude record, arrived here last night enroute to Vancouver, B. C., after narrowly escaping disaster in southern Oregon.

At dusk, Mrs. Alexander was lost in the smoke-filled air somewhere in the Mount Shasta country, but she continued flying north by compass, hoping to pick up some landmarks. Finally she saw a building with the name "Prospect" painted on top. She spiraled down searching for a landing place. At an altitude of about 4000 feet she felt something brush the wheels of her plane.

Then she saw the trees immediately below her and "I got out of there pronto." She climbed to 9000 feet and then headed north over a wilderness of deep chasms.

Finally she found a railroad and then picked up a beacon. From then on she had no trouble. Miss Alexander apparently had flown in the semi-darkness over the rugged arm of the Cascade range in southern Oregon. It was her first night flight.

She said when she refueled at Oakland she asked for enough gasoline to last seven hours. The attendant misunderstood her and put in 117 gallons.

"That's what saved me," said Miss Alexander. "Otherwise I wouldn't have been anywhere near Portland when I came down."

Miss Alexander will go to Vancouver to prepare for a non-stop flight to San Diego, to be made Sunday or Monday.
