STOCKS HOLD BACK ON MAKING ADVANCE

NEW YORK, Sept. 3—(AP) The stock market again served notice today that it was not to be hurried into an advance.

Prices moved inconclusively until the last half hour, when a reaction set in that carried through to the close, bringing losses of one to six points in a wide assortment of shares. Trading, however, was in small volume.

The break appeared to be technical, for the market had been rising without serious interruption for nearly three weeks and therefore entitled to a corrective move in the other direction. As measured by the average of 90 issues, stocks lost 1.7 points.

The heavy undertone of the earlier hours was replaced by a mild bullish demonstration early in the afternoon. Bethlehem Steel and United Aircraft, rallying 3 and 2 points, respectively, were prominent in this advance which eliminated the moderate losses of the morning. Bethlehem held two-thirds of its gain, but United Aircraft retained only a fraction at the close.

Only a few stocks lost as much as 4 to 6 points. These included such volatile shares as Case, Diamond Match, American Tobacco "B," Eastman Kodak, Foster Wheeler and Columbian Carbon. There were declines of 2 to more than 3 in Johns-Manville, Du Pont, Sears Roebuck, Westinghouse Electric, Auburn Auto and Standard Gas and Electric.

WHEAT LOWEST SINCE 1914 NOW
HOP PICKING SEASON AT HEIGHT

Early Clusters About Finished, Crop is Said Excellent

Hop yards in the Willamette valley are centers of activity now with hundreds of people employed in picking and drying. Early clusters are practically all harvested and the crop was reported good in both quality and quantity. Picking of late hops began this week in most yards. The downy mildew made serious inroads in the hop crop and present indications are that the crop will be less than the 70,000 bales estimated.

Prune picking was scheduled to start the last of September but many growers have declared that with the present price they cannot afford to harvest their prunes. A few growers are still optimistic and believe that prunes will "come back" so intend to harvest the fruit and hope for sale at a reasonable profit. One grower who has at least 75 tons of fine prunes says that if the market does not show marked improvement in the next three weeks he will leave his prunes on the trees.

Grain harvest is practically over and yields were reported excellent in all grains, particularly barley and oats.

Local Tomatoes Now Appear on Portland Mart

The long-delayed local tomatoes appeared in heavy volume on Portland's markets Tuesday morning, as a result of the past few hot days, and the weekend holiday which permitted accumulation of harvested stocks. Tomato prices declined 10 to 15c per box.

Volume of trading on the Farmers' East-side market at 10th and Belmont streets probably reached the highest point of the season today.

Celery continues in slow demand, both locally and in carlot movement, is dull. Peas and green corn are firm. with lighter supplies.

Watermelons declined to the season's low—1-1¼c lb.

This week marks the peak of Yakima's peach offerings, at Portland.

Illahee hop Yard Employs 135 Pickers

AUBURN, Sept. 3—The Illahee hop farm is a busy place now, as hop picking began Monday with about 135 pickers. The crop is of an excellent quality. The picking will continue for about two weeks.

Mr. and Mrs. Elmer Starr of Los Angeles, visited with Lute Savage Thursday. Mrs. Starr was formerly Miss Emma Smith, of a pioneer Salem family, Mr. Savage and Mrs. Starr were school mates when small children.

Mrs. J. H. Mertz will begin her school duties as principal of Swegle school September 15.

George Witte and family spent Sunday in Oregon City visiting friends.

Mrs. Nellie E. Hammer will begin her school duties at Middle Grove school, as principal, September 22.

CHICAGO GRAIN

CHICAGO, Sept. 3—(AP)—Wheat prices crashed down today to the lowest levels reached here in 16 years. Not since before the world war started in 1914 has wheat been sold as cheaply on the Chicago board of trade as it was at the close today. The market showed no recuperative power in the late trading.

There was no apparent concentrated pressure on wheat, and at times some impressive buying support was noted. The rallies attracted increased offerings however, and the consequent reactions swept prices into new low territory. A dispatch quoting George S. Milnor, president of the grain stabilization corporation, to the effect that all wheat used for drought relief purposes would be replaced in the open market, failed to steady the faltering market. All other grains were depressed by the downward trnd of wheat.

Closing prices on wheat were unsettled at nearly the bottom levels of the day, 3-8 to 1 1-8c net lower than yesterday's finish, corn closed ¼ to 7-8c down, oats from ⅛c lower to 1-8c advance.

Stove Explodes House Destroyed

SUNNYSIDE, Sept. 3.—W. D. Edward's house near Middle Grove was burned to the ground Saturday morning. The tenant who lives on the property returned home at three o'clock from work at the paper mill, started a fire in the oil stove and went to bed. Presently the stove exploded and set fire to the home. Mr. Edwards was just making preparations to move onto the property. The loss was covered by insurance.

Glen Barnett went to Portland Tuesday, where he will attend the conference of electrical engineers which is in session there, this week.

Drops Cent and Half Locally due to Pounding

Alfalfa Holds Steady During Week, Reported

Alfalfa markets held steady during the week ending September 2. Offerings continued light and demand was generally reported good, particularly for the better grades, according to the Weekly Alfalfa Market Review of the United States Bureau of Agricultural economics. Growers in many of the larger producing sections are inclined to hold for higher prices and demand gradually improves.

Quotations at the principal markets, although holding about steady during the past week, are now from $2.00 to $4.00 above levels of a month ago. Recent advances in prices for dairy products, together with increased inquiry from the drought areas, are in a large measure responsible for this recent strength in alfalfa.
