

# LARGE BANQUET ROOM PLANNED

### "Silver Grill" Will be Open To Public September 20 At Gray Belle Word

The Silver Grill, Salem's newest dining room will make its bow to the public about September 20, according to John Blakeley, manager of the Gray Belle where the Silver Grill will be located.

The grill will have a seating capacity of 125 people and will be modern in every respect. It is located in the basement of the Gray Belle and entrance will be through the present dining room.

There will be modern dressing rooms at each side of the foyer which is located at the foot of the stairs before entering the main grill. Entrance to the grill is from the south end where grill work and archways are finished in oxidized silver. The walls of the room are all in this oxidized silver while the ceiling is frosted silver. Furnishings to be attractive.

The west wall is hung with tapestry while the east and north walls are centered by fireplaces in six tone medley tile. At each side of the east fire place are cottage windows of two tone glass through which one may see an attractive patio. The north fireplace is between French doors through which another patio view may be seen. These views are made possible by large oil paintings hung back of the windows and doors.

The fireplaces will have an electric arrangement which will simulate an open fire with dancing flames. All metal work is in chromium and the floor will be of the finest grade of red oak.

Perhaps the outstanding feature of the Silver Grill is the multi-record phonograph of fine tone quality. The lighting will be entirely by reflected light from large bowl shape fixtures. New steam tables, refrigerator and dumb waiters are being installed to insure the best in food service.

Arrangements will be made to accommodate not only banquets and dinner parties but also afternoon teas, bridge teas and all social functions of this nature. Noon luncheons for service clubs and other organizations will be arranged. Several local clubs are reported as considering the possibilities of the place for regular luncheon and dinner meetings and the Salem Business and Professional Women's club has already decided to hold their monthly dinner meetings there.

At the hearing the committee heard testimony by W. C. The detective also charged that the committee was not aware of the methods of its investigators, urged them to "investigate the own investigators" and refused to produce his records until his attorney had time to study the committee powers.
