

Mill City car Rolls Into Creek in Plunge From Bridge

DRIVER PULLED FROM OUT CAR

Slow Driving Probably is Cause for No Fatality in Accident

RICKEY, Sept. 8.—What might have been a serious accident, had Mrs. Baker not been driving slowly, occurred Sunday between Aumsville and Turner to Mr. and Mrs. L. A. Baker, of Mill City, as they were driving from Mill City to Salem.

There are several bridges under construction in this vicinity and as Mrs. Baker turned to avoid a bad place in an old bridge that was open for the day, the car skidded on the wet pavement, turned completely around, struck and broke the railing of the bridge and fell on its left side into Mill Creek.

Car Hits Creek Bottom
When the car struck the bottom of the creek the glass on the left side broken, letting the water into the car. The fall apparently sprung the frame on the right hand side of the car which caused the window to stick. Mr. Baker finally got the window open which enabled the Bakers to get their heads outside of the car, which was filling with water.

A man who was camping nearby whose name was not learned, saw the accident, ran to the scene and pulled Mr. Baker out of the car and he and Mr. Baker got Mrs. Baker out before other help arrived.

Given First Aid
Mrs. Baker was taken to the home of Jay Denham, where she was given first aid and dry clothes. Mr. Baker was uninjured and Mrs. Baker only slightly cut on one hand.

Witnesses say that the only thing that saved the Bakers from being badly hurt and the car demolished was that Mrs. Baker was driving slowly that the car did not turn over, but fell off the bridge of its own weight.

Mr. Baker has charge of the Hammond Lumber company store at Mill City.

Mrs. Baker is the daughter of the late D. A. Harris.

Dandy Time had During Hop Picking Week in Jerome Jackson Yard

HUBBARD, Sept. 8.—Hop picking was finished in the Jerome Jackson yard Friday evening. The crew started in the Joseph Wilmes yard the previous Friday. The hops in both yards were of excellent quality.

The first morning Mr. Jackson was out at the hop yard at 5 o'clock. He expected to be on hand for the arrival of the first picker but when he reached the field he was greeted by Mrs. Kate Rogers ready for work. Mrs. Rogers, who is more than 80 years old has lived at Hubbard many years, and those who picked hops with her 30 years ago say that she seems as young as she did in those days.

Eighty Hubbard folk comprised the crew and the week was a jolly one as well as a profitable one for everybody. Jerome Jackson was the yard boss. R. S. West and Joseph Wilmes had charge of the weighing of the hops. Johnny Stauffer was that each picker was supplied with a sack.

Edward Oberst kept the wires down for the crew. Carl Ott managed the team in hauling in the hops. Johnny Dimick, water boy, was much in demand and very popular. CAR DRIVER IN POLK BASTILE

Fire Water Imbiber Finds His Driving Unpleasant to Locality

WEST SALEM, Sept. 8.—Bees droned, birds trilled and house cats growled in the summer warmth. This pastoral scene was suddenly desecrated as a decrepit car shot like a catapult from Parkway, made one leap across the Green creek road and disappeared down the private road leading to the W. J. Page home. When the fact that this was not a public thoroughfare dawned on the occupants of the car they turned their machine around and came back to the road.

By this time nearby households had gathered to see what it was all about. The four occupants of the speed car disembarked and proceeded to make themselves obnoxious to the bystanders. The peaceful inhabitants of Glenn creek, unused to having their quiet neighborhood so rudely disturbed, hastened to phone for succor which arrived promptly in the person of Deputy Sheriff Walter Gerth of West Salem, who brought an assistant along to help quell the disturbance. Though the appearance and actions of the rioters indicated the presence of fire water the officers could find none in their possession nor could they detect the aroma on their persons so after a sharp reprimand they were released.

Collides With New Car
They boarded their car and proceeded blithely on their way. The west end of the car was damaged which collided with a new sedan driven by Mrs. Hazel Reader of Portland and drove on at high speed across the bridge. Though somewhat bruised, Mrs. Reader's car was not seriously damaged. W. P. Lewis of the Under Cover service station entered the Reader car and they started in pursuit. Quite unexpectedly they found the car they sought parked on a quiet side street.

While an occupant of the Reader car hastened to summon the police, Lewis started the pursuit. Not being an officer he had no authority of course to hold them but the bluff worked though there were only two in the car when the officer arrived, the other two having escaped between the Under Cover service station entered the Reader car and they started in pursuit. Quite unexpectedly they found the car they sought parked on a quiet side street.
