## HOUSEWIVES HAVE CHANCE TO PUT UP FRUIT AT A PROFIT

Of all money-saving activities a housewife can engage in right now, putting up fruit promises most satisfactory returns. No special equipment is necessary and pure cane sugar and fruit are so low in price that a large quantity can be purchased without upsetting the weekly food budget.

When winter comes, the value of a cupboard well stocked with jellies, jams and preserves will be most apparent. Every glass or jar that you select for your table will be already paid for. What is more, you have a delicious home-made product that wins the praise of everybody.

Canned fruit belongs in the balanced diet. Most of them are rich in vitamins and decidedly appropriate for children.

Menu-planning, especially the dessert problem, is simplified when there are plenty of preserves within reach. A bit of sweet makes the meal complete. The Sugar Institute.
