IRIGROYEN HELD ON CRUISER

Report he Would be Exiled Refuted as EX-President Remains on Cruiser off Buenos Aires Harbor

New Government Planning To Take Action, Indicated As Expected Transfer to Steamer is Delayed

BUENOS AIRES, Sept. 13.—(AP)—(Saturday)—The government this morning issued an official communication in which it was stated Dr. Hipolito Irigoyen, deposed president of this country, is under arrest and will not be allowed to abandon the Argentine. He is at present on the cruiser General Belgrano in Buenos Aires roads outside the harbor.

BUENOS AIRES, Sept. 12.—(AP)—The status of Hipolito Irigoyen, deposed president of the Argentine republic, tonight was as much a matter of speculation as it has been in the six days since he was overthrown from the seat directing the destinies of this nation.

Two ministers of General Jose Francisco Uriburu's provisional cabinet told the Associated Press today the aged former executive was still in Argentine waters aboard the cruiser Belgrano—on which he was placed yesterday—and that he was under arrest. This was in answer to reports that he would be landed in the neighboring nation of Uruguay soon or that he would be transferred to a steamer bound for Europe.

Sanchez Sorondo, minister of the interior, disclosed that Irigoyen was under arrest when asked about the reports concerning the transfer to Uruguay or to a steamer heading for Europe. He said the cruiser was about two hours' steaming from the port of La Plata and would remain there to await orders, but added that the government soon would reveal what measures would be taken against the former president and other political prisoners.

Oregon Briefs

DISCUSS RATES PORTLAND, Ore., Sept. 12.—(AP)—Willamette valley fruit shippers will be represented at the interstate commerce commission hearing on freight rates on fruit in San Francisco next week by O. C. Bortzmeier, of the Oregon public service commission, and W. P. Ellis, attorney for the commission. City attorney will conduct the hearing.

KLEVEN ALIENS PORTLAND, Ore., Sept. 12.—(AP)—R. P. Bonham, district immigration director, said today deportation proceedings had been instituted against 11 men who were arrested Wednesday while attempting to hold an alleged communistic meeting.

KIWANIANS ACTIVE BEND, Ore., Sept. 12.—(AP)—A committee from the Bend Kiwanis club announced today its plans to obtain from the tract of land to be used for a high school athletic field. The field would provide a gridiron, baseball diamond and a track.

FIREPLACE HUNG BEND, Ore., Sept. 12.—(AP)—Justice of the Peace C. T. Barzell, owner of a miniature golf course, wants his patrons

BIG EXPLOSION ROCKS 50 MILE OIL FIELD AREA

Many Reported Injured but No Known Deaths Occur In Wichita Blast

Thousand Quarts of Nitro In Magazine, Report; Suspect Thieves

WICHITA, Kas., Sept. 12.—(AP)—The Du Pont powder magazine near Wichita Heights, a small oil field town, nine miles north of here exploded tonight, rocking towns and villages within an area of 50 miles. All lines of communication with Wichita Heights were cut of commission and reports of expected casualties and damage were not immediately available.

Jack O'Flaherty, manager of the Du Pont Powder company here, said approximately 1,000 quarts of nitroglycerine were stored in the powder magazine. The magazine was in an isolated spot about half a mile from Wichita Heights.

Approximately 125 oil field workers and their families live in Wichita Heights. Reports received here said several persons had been dangerously injured, but not deaths had been reported. All available ambulances here were dispatched to the scene of the explosion.

The explosion, persons who went to the scene reported, excavated a hole in the earth 20 feet deep and 10 feet in diameter. The force of the blast tore down all telephone lines in the neighborhood and windows in nearby farm houses were shattered.

Searchers found bits of metal scattered around the pit of the excavation leading to a belief a motor car may have been blown to pieces. No bodies were discovered.

Officers advanced a theory that thieves after robbing the powder magazine may have deliberately touched off the remain explosives to cover traces of their theft.

LAKEVIEW, B. C., Sept. 12.—(AP)—The hazardous work of recoveries of bodies of 45 men killed in the explosion of the Blakely mine here was completed today, one being lacking.

REAR ADMIRAL ABEL RENARD, who as minister of marine controls the movements of the Belgrano, told the Associated Press tonight that the former president still was aboard the cruiser "subject to an order I have received from the minister of the interior."

Last 6 Bodies Found in Mine

BLAKEVIEW, B. C., Sept. 12.—(AP)—The hazardous work of recoveries of bodies of 45 men killed in the explosion of the Blakely mine here was completed today, one being lacking.

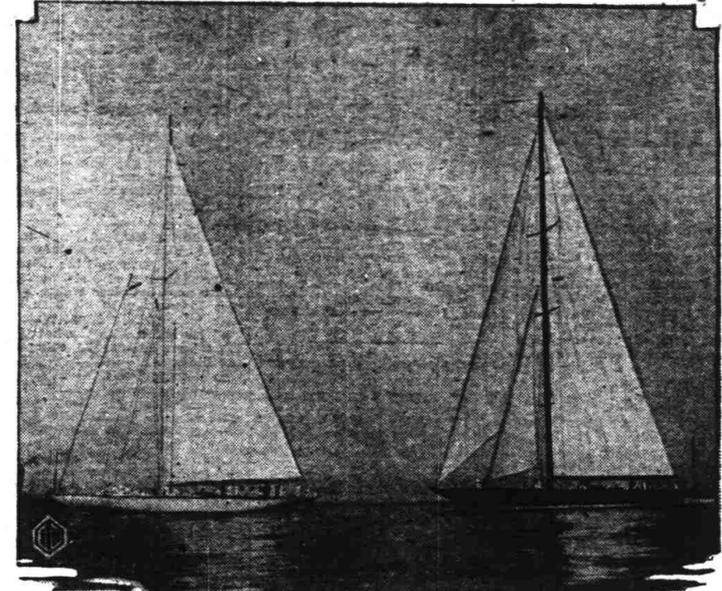

FORESTER RESIGNS PORTLAND, Ore., Sept. 12.—(AP)—C. J. Buck, regional forester, announced today George L. Drake, assistant in the department of forest management, would resign September 20 to accept a position with the Simpson logging company, Shelton, Wash.

SEAMEN BURNED ASTORIA, Ore., Sept. 12.—(AP)—Oscar Salo, chief mate on the steamer Peter Helms, and Gene Roggenmans, seaman, were in a local hospital today receiving treatment for injuries suffered while fighting a fire aboard their ship.

RAID BRINGS ARRESTS LAKEVIEW, Ore., Sept. 12.—(AP)—D. W. Smith, Lakeview taxi driver, and William A. Hickey, Warner valley rancher, are under arrest here in connection with a raid on the M. C. ranch in Warner valley last Wednesday morning.

RAID BRINGS ARRESTS LAKEVIEW, Ore., Sept. 12.—(AP)—D. W. Smith, Lakeview taxi driver, and William A. Hickey, Warner valley rancher, are under arrest here in connection with a raid on the M. C. ranch in Warner valley last Wednesday morning.

Will it be This way Today at Newport?

If it is old Sir Thomas Lipton will be disappointed, for the yacht in the lead is the American defender, the Vanderbilts' Enterprise, and the one behind is Sir Tom's Shamrock V. They were snapped in an impromptu race several days ago on the course over which they will sail today in the America's cup race.

Popular Sentiment Rides With Sir Thomas and Shamrock V in Race for Amercian's Cup Today

HURRICANE MISSES N. CAROLINA TOWNS But Cold Calculation Makes Enterprise 2 to 1 Favorite; May be Lipton's Final Attempt to Lift "Old Mug"

NEWPORT, R. I., Sept. 12.—(AP)—Shamrock V and Enterprise, the house of Lipton and the house of Vanderbilt, British seafaring skill and American nautical ingenuity, emerald-hued sentiment and white-hulled efficiency; these comprise the apparent ingredients of the naval classic of the year—the sailing race for America's cup, most prized of the world yachting trophies, in the series starting tomorrow nine miles southeast of Brenton reef lightship.

Sticking closely to the facts, it's a race between Sir Thomas Lipton's Shamrock V, flying the birge of the Royal Ulster yacht club of Belfast, Ireland, and the Vanderbilt-Aldrich syndicates Enterprise, chosen representative of the cup-holding New York yacht club, whose roster of members reads like a substantial portion of who's who in America.

Actually and from the view point of the popular interest manifested, the race represents probably the last bid of the gallant old Irish baronet, a prince among sportsmen, to lift the "old mug" that he has sought in vain since Shamrock I went down to defeat before the fast-flying Columbia in 1899.

LEAGUE DEPLORES TARIFF INCREASES

GENEVA, Switzerland, Sept. 12.—(AP)—The League of Nations assembly reviewed today the economic field, launched 12 months ago, has many defeats to mourn and no great victories to celebrate.

Spokesmen for various countries, following each other before the international gathering of statesmen, are agreed Europe is in a state bordering on economic anarchy, and some joint remedial effort is a vital need for world peace and prosperity.

The assembly was told by its own leaders that attempts at a tariff truce had failed; customs barriers, instead of crumbling, actually had grown more formidable in several states, and continuation of the growth of its protectionist spirit was threatening to drive the few remaining free trading nations into adopting a high tariff policy which all loudly deplored.

Riders set New Mark; Tire Flat

SILVERTON, Sept. 12.—(Special)—After setting a world record for endurance bicycle riding at 11 o'clock this forenoon, Silvertown's quartet of riders culminated the flat tire menace at 4 p. m. today. The puncture occurred at 3 o'clock but the boys kept on going on the flat until 4.

Their record is 507 hours, five more than the previous mark of 502 hours set by a California team.

The local team started riding August 22 and the wheels of their new bicycles were never idle from that time until the test was terminated this afternoon.

FINAL HONORS PAID JUSTICE M'BRIDE HERE

Praise of Pioneer Jurist is Voiced by Coshow; Many Friends Present

Extent of Floral Offerings Reflects Widespread Esteem of Public

Near the rostrum of the state legislative hall where so many times he had administered the oath of office to legislative officials and to governors, lay the body of Justice Thomas Allen McBride yesterday while hundreds of friends from all walks of life, gathered there to pay final tribute to Oregon's grand old man of the bench.

As would have been requested by the late jurist, the funeral services were simple but impressive. Huge banks of flowers piled on either side of the casket and on the rostrum at the rear, attested in a degree the high esteem in which Justice McBride was held by his thousands of friends and acquaintances.

As a legislator in his early years he displayed the qualities of statesmanship. His attitude was always courteous to his colleagues whether political friends or foes. His brief experience in the legislature won him friends who have highly esteemed him a lifetime.

As a prosecutor he was impartial, faithful, able, he was vigilant, vigorous, but not vindictive. His keen insight into human nature enabled him to try cases with more than a display of legal technicalities.

As a legislator in his early years he displayed the qualities of statesmanship. His attitude was always courteous to his colleagues whether political friends or foes.

PROHIBITION ISSUE GAINING INTENSITY

WASHINGTON, Sept. 12.—(AP)—Prohibition continued to command attention today in the capital with Senator Burton K. Wheeler saying conditions under it had forced him to the opinion that the eighteenth amendment had failed.

The Montana democrat recalled having voted for the dry law in his state. He advocated leaving liquor traffic regulations to each state. Aside from his prepared statement, he predicted the democratic party would nominate an opponent of prohibition in 1932.

F. Scott McBride, superintendent of the anti-saloon league, said his organization had "never counted Burton Wheeler as a dry."

"This is simply a case of a wet changing his mind as a wet is in line with the views of Chairman Raskob and other party leaders whom he has supported before," he said, "it is no loss from the dry standpoint that I know of."

McBride said the newly announced stand of Governor Franklin D. Roosevelt of New York brought "the wet issue into the next political campaign."

Seaman Killed, Companion Held As Tale Doubted

HOUSTON, Tex., Sept. 12.—(AP)—Shot through the chest and beaten over the head, the body of H. H. Myhrs, a seaman said to have lived "on the west coast" was found in a ditch near here today.

Clinton Kinney of New Orleans was charged with murder in connection with the slaying, although he claimed he and Myhrs were held up and Myhrs was killed by highway-men.

Dishevelled and excited, Kinney rushed into a police station this morning, crying that he and Myhrs had been stopped in their automobile by two white men and a negro, that the white men while the negro guarded him and that presently the white men returned with a bloodstained automobile without Myhrs. He was permitted to leave, he said, and hurried to the police.

Two months ago Smith was stung by a bee and was unconscious for several hours. Physicians for a time thought him dead but revived him.

JUDGE KELLY TO FILE VACANCY ON SUPREME BENCH

Albany man, Judge of Circuit Court in Marion and Linn, Chosen by Governor Norblad as Successor to Thomas A. McBride; Will Hold Office Until January When Elected Justice Will Take Over Position

Promotion Leaves Place to be Filled Here and Speculation Concerning Appointment Grows as Possible Nominees are Mentioned; Willard Marks Talked but Signs Point to L. G. Llewellyn, District Attorney

Judge Percy R. Kelly of Albany was appointed associate justice of the supreme court in succession to the late Judge Thomas A. McBride by Governor Norblad Friday afternoon.

Albany county now has one judge, Judge L. H. McMahan. The appointment of Judge Kelly to the supreme court will cover the time until January, 1931. In the November election a justice will be elected for the remainder of the McBride term.

JONES TO SUPPORT VOTE ON DRY LAW

LONGVIEW, Wash., Sept. 12.—(AP)—Senator Wesley L. Jones, sponsor of the stringent "5 and 10" law against prohibition violators said today he would feel justified in working for submission to the people for direct action of a congressional proposal for modification or repeal of the 18th amendment if such a request were made by the people of his state.

He reaffirmed his faith in the dry cause by adding "I would do everything I could to induce the people to reject" a change in the law.

The statement was made in a letter to John Rae, Tacoma, a contributing editor to the Longview News. Rae had asked Senator Jones to declare his position in view of the recent defeat of Congressman John F. Miller, a dry, in the primaries by Ralph A. Horr, outspoken wet.

If the people of the state of Washington want the 18th amendment repealed or modified, the method as I understand it," he wrote, "would be either by a resolution of the state legislature asking that the question of the repeal or modification be submitted to them or by referendum brought about regularly in accordance with the provision of our law."

Political gossip had previously given Judge Kelly a chance at securing the appointment from Governor Norblad, and the gosippers followed up with selecting Willard Marks for the place on circuit bench. Marks is a leading lawyer and prominent politician of Albany.

This dope in other well-informed circles received scant credence, owing to the fact that Marks was not a Norblad supporter in the primaries; also Marks has other political ambitions on the point of being satisfied.

Salem Heights-Liberty Bus Starts Next Week

SALEM HEIGHTS, Sept. 12.—J. S. Sleigher of Salem has announced that beginning Monday, September 15, he will operate a bus line which will serve the Salem Heights and Liberty districts.

Passengers in these districts will be picked up as far as the city limits are from there it will be a straight run down to the city.

All passengers destined outside of the city limits will be taken on at the regular loading zone at the corner of State and South Commercial.

During fair week Sleigher intends to run the bus throughout the day to the city, for which a ten cent fare will be collected. To State street a five cent fare will be asked.

The contemplated schedule is as follows: Four trips to Liberty daily, arriving there 7:30 and 8:30 a. m. and 5:30 and 6:30 p. m.

Theory morning bus will leave Salem Heights school at 6:30 a. m. and every half hour thereafter until 9 a. m.; then on the hour until 4 p. m., after that every half hour until 7 p. m. Leaves U. S. National bank building on the quarter hour.
