Statesman Pattern

1932

The cape mode gracefully holds its own during the first Fall days when soft frocks need no top coat to hide their beauty. On this model, the diagonal crossing of the bodice, and the pointed skirt flare joining, tend to slenderize the figure. A dainty touch is added with a lace vestee.

Pattern 1932 makes up beautifully in flat or canton crepe, dull satin, chiffon velvet, georgette or marocain. Black is the outstanding fall color, with brown, wine shades and dark green following closely. The vestee may be made of lace, organza, batiste or crepe.

May be obtained only in sizes 16, 18, 20, 24, 26, 30, 34 and 42. Size 16 requires 4 yards of 39-inch material.

No dressmaking experience is necessary to make this model with our pattern. Yardage for every size, and simple, exact instructions are given.

Send fifteen cents in coins (carefully wrapped, or stamps for each pattern). Write plainly your name, address and style number. Be sure to state size wanted.

Our new fall and winter fashion book containing exquisite models for adults and children and an excellent assortment of smaller patterns and stamped novelties, is now ready. Price fifteen cents. Book with pattern, 25 cents. Address all mail and orders to Statesman Pattern Department, 549 West 17th street, New York City.

SEWER WORK WILL SOON BE FINISHED

Unless held up too long by tunneling operations beneath the railroad tracks and siphon on Trade street, the sewer construction job on Church street should be completed in the near future, reports Hugh Rogers, city engineer.

Six inches of concrete is being laid over the filled ditches to furnish foundation for the black-top surface. This base has been placed as far as Court street.

Rogers has a crew of 58 men at work on the job. All are local men, with home addresses and length of residence on file at his office.

With the erection of the handrails, the South Winter street bridge is complete and work started towards completing the fills at either end. Some dirt has already been dumped for the north approach and a little on the south end. Progress is being made on the North Commercial street bridge and pouring of concrete is now under way. This portion of the construction work should be done within the next ten days or two weeks.

"The Challenge of Disputed Portals" will be the subject of the sermon by Dr. B. Earle Parker at the First Methodist church Sunday morning, 11:00 o'clock.
