Women to Fore; Two of Them Head Willamette University's Major Publications This Year

And one is Married at That; Meet Dorothy Fleisher, nee Pemberton, and Helen Stiles

HELEN STILES

DOROTHY FLEISHER

By OLIVE M. DOAK
The reputation for progressiveness of Willamette university could have naught to better verify its truth than the fact that this year there will be a woman at the head of the college newspaper and a woman at the head of the college annual.

The editor of the newspaper, the Willamette "Collegian," is Mrs. Gertrude Fleisher, nee Dorothy Pemberton, better known as "Dot." She is the second woman in the history of Willamette to hold the position; the first was Elizabeth Hyde, Mrs. Fleisher was managing editor during 1929-30.

Mrs. Fleisher is a senior this year, a member of the Delta Phi sorority, and an active member of college social circles and college activities. She is a small girl, with reddish hair (not quite titian) and freckles, and a smile that wins a place for itself. Her very blue eyes are a bit deceptive for you do not know if she be dreaming or watching, either way there is always action there even though it may not be immediately noticeable.

Mrs. Fleisher has maintained a high degree of scholarship during her three years in Willamette, and will graduate this year with a degree in English. Her interests, however, lie in the direction of a home and her husband which she acquired in June

and with whom she attended summer school in the University of Oregon where he took work on his master's degree and where Mrs. Fleisher took special work in English.

This young college newspaper editor is the daughter of Rev. George Pemberton of Hood River.

Junior Edits Annual
The second woman in the case of Willamette progressiveness is Miss Helen Stiles, a junior who is majoring in French, and who this year will be editor of the "Wailulah," college annual. There have been three other women to hold this position in Willamette's 86 years of history but in the past ten years only one, Miss Ann Silver, has been so honored. Miss Stiles is the daughter of Mr. and Mrs. H. M. Stiles of Portland.

She is a member of the Alpha Phi Alpha sorority, and of the Theta Alpha Phi national dramatic fraternity. She was prominent on the editorial staff of the "Collegian" in 1929-30, like Mrs. Fleisher she has taken an active part in women's athletics and social activities of the campus.

Both Miss Stiles and Mrs. Fleisher are interested in music and art, but say they with a bit of deprecation, they are "not proficient in either."

Miss Stiles is tall, slender, with very blue eyes; she is witty and popular, and her friends call her a "capable sort of person."

With these two women at the head of two of the largest "publicity" activities of the university it will be interesting to watch results. Certain it is that every woman on the campus should lend her support in putting over the plans and campaigns that these two feminine leaders attempt to inaugurate.

Coach Chuck Collins of North Carolina will have a grid letterman for every post except right tackle this fall.

"MAKING FRIENDS AND HOLDING THEM

—is the secret of success in business.

Says

GEN. SAMUEL McROBERTS

Chairman of the Board, Chatham Phenix National Bank and Trust Company

Director, Armour & Co., American Sugar Refining Co., National Surety Co., Kansas City-Southern Railway, Brig. General, A. E. F.

"Making friends and holding them, by a friendly up-to-date usefulness, is the secret of success in business. This axiom has been the guiding force in the progress of the Chatham Phenix National Bank and Trust Company. And it is obviously the guiding force in your business—as evidenced by your use of the Ultra Violet Ray in the 'Toasting' of the LUCKY STRIKE tobaccos."

LUCKY STRIKE—the finest cigarette you ever smoked, made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED." Everyone knows that heat purifies and so TOASTING removes harmful irritants that cause throat irritation and coughing. No wonder 20,679 physicians have stated LUCKIES to be less irritating! Everyone knows that sunshine mellows—that's why TOASTING includes the use of the Ultra Violet Ray.

"It's toasted"
Your Throat Protection — against irritation — against cough

Consistent with its policy of laying the facts before the public, The American Tobacco Company has invited General Samuel McRoberts to review the reports of the distinguished men who have witnessed LUCKY STRIKE'S famous Toasting Process. The statement of General McRoberts appears on this page.
