Breitenbush is becoming not-ed as a health and recreation Its mineral springs are reputed to have excellent medicinal propherties. Its location in the heart of the mountains at the base of Mount Jefferson gives it a wonderful advantage for recreation and rest.

Marion county took over the road last spring and with better roads the travel to Breitenbush is expected to continue throughout the year. Previously the resorts had to close during the winter months.

OLD MUSKET "ADOPTED" BY STURDY OAK

A peculiar quirk of nature resulted from the placing of an old muzzle-loading musket in the crotch of an oak tree by a pioneer in 1879—the tree grew around the gun until it was eventually imprisoned in a grasp of ten inches of hardwood. Pictures show the gun and tree as they were originally discovered near Chehalis, Wash., and a 1930 Buick sedan sent out with a scout party to ascertain the true story of the gun and oak tree.
