PROHIBITORS GIRD TO FIGHT

Wets Claim Enough Votes To Dominate G. O. P. Meet in New York

ALBANY, N. Y., Sept. 24.—(AP)—The anti-saloon league tonight presented an unresisting front to the wet forces of the republican party in the face of predictions from wet leaders that they were confident of an ample majority of votes to be won in the republican state convention opening here tomorrow.

The spokesmen for one of the two major units of the dry forces, Fred A. Victor, state superintendent of the anti-saloon league declared tonight the supporters of prohibition would withhold support from any candidate running on a platform calling for repeal of the 18th amendment.

Mr. Victor's statement apparently was the opposite of what he had said 24 hours earlier. Yesterday he had announced that United States Attorney Charles H. Tuttle, who has advocated repeal of the 18th amendment, deserve the "enthusiastic support of all right minded citizens," if he would "respect, obey, enforce and defend the constitution." This had been taken to mean that the anti-saloon league would support Tuttle if he pledged himself to enforce the dry law while it was on the statute books.

Former United States Senator James W. Wadsworth asserted he was assured of support for the wet cause.

Tours Europe Safely, Hurt As Trip Ends

DALLAS, Sept. 24.—To take a trip to Europe and return without mishap and then to meet with an accident was the misfortune of Mrs. J. J. Wick, of Dallas.

Last June Mrs. Wick left for a visit with relatives in Larvik, Norway. Tuesday Mr. Wick drove to Portland to meet his wife and bring her to Dallas. Just as they made the turn north from the Tillamook highway out of McMinnville, they met a car driven by Miss Stoker, nurse at the Dallas hospital. Her car skidded on the turn, and crashed into the rear end of the Wick car, breaking the glass, caving in the back end of the car, the fender and taking off the tail light.

Mr. Wick endeavored to avoid the crash by taking to the ditch. His car was not overturned, but both he and Mrs. Wick were thrown to the pavement. Mrs. Wick suffered severe bruises and is in bed, but all of the others escaped without injury. Miss Stoker was accompanied by several women, whose names were not

learned. She was driving a car belonging to Miss Eva Wald, matron of the hospital.

Easy to look at

THERE'S a harmony between the natural loveliness of this modern age and the natural, mild goodness of Camels. And if you find them keeping company, don't be surprised.

Camel has given the world the luxury of a naturally mild cigarette—a cigarette that preserves all the refreshing fragrance of the choice, mild tobaccos from which it is made—a cigarette that is delightfully smooth, but never flat, never parched, never tasteless.

Modern smokers are awake to the fact that mere flatness doesn't mean mildness. That's one reason there's such a swing to Camels. Watch it right in your own crowd. Join them in Camels—a smoke that's enjoyable all the way—all the time.
