METHODS TOLD EUROPE SCHOOL

Experiments are Outlined At County Institute by Dr. Schorling

A glimpse at what leading educators in European countries are doing in the way of experimentation in school work, from the elementary grades through high school was given Marion county teachers yesterday afternoon by Dr. Raleigh Schorling of the University of Michigan, principal speaker at the Marion county institute which ended its two-day sessions yesterday.

He spoke particularly of Dutch and German experimental schools. Of special interest concerning the largest experimental school at Amsterdam was the fact that the school head neither maintained an office nor kept records. Dr. Schorling, in conversation with this man while on a trip to study these schools, learned why: "We mustn't lose sight of Mary (the school pupil) in dealing with all the machinery of school work."

While Holland's problems are different from those in this country, the Dutch schoolmaster certainly knows "what happens to Mary," Schorling said.

The German schools have undergone a tremendous change in objectives since the war, turning away from subject matter, authority, conformity and family and social status to the new terms of pupil activity, freedom, emphasis on attitudes and emotional stability. Schorling told the teachers, "Experimental schools in Europe are now at about the same stage as regards scientific experimentation as was Dewey's work of the '90s, Schorling said. At one phase in his talk he said: "A whole nation may go wrong on its educational objectives."

Schorling also touched upon the youth movement in Germany, for that goes hand in hand with an understanding of the educational experiment there, he said. The youth movement, with its protests against the dominating attitude of parents, religion, city life, liquor and tobacco, is still a most important factor in that country, he said.

He told on one vacation school, the prime purpose of which was to educate to citizenship, and where a student council that really functioned set forth three objectives: Trying to learn the other fellow; no quarrels about religion and politics; and the finest thing in life is friendship.

The annual business meeting of the Marion county division of the Oregon state teachers' association opened the afternoon session yesterday. R. W. Tavenner, of Salem, by virtue of being vice-president the past year, succeeded to the presidency. Other officers elected were: Jean Pearcey of Turner, secretary-treasurer; Carlotta Crowley of Salem, Vern D. Bain of Woodburn and Robert Goetz of Silverton, executive committee. T. J. Means of Mill City, V. D. Bain of Woodburn, Fred Jones of Gates, May Hale, Salem, Blanche Hubbs of Silverton, Alfred Davis

of Salem, Fred Wolf of Salem, Bearnie Skeen of Salem, and Sylvia Kraps of Salem, were named delegates to the O. S. T. A. meeting.

Marion county cast its vote for O. S. T. A. vice-president for J. T. Longfellow of La Grande, who got 233 votes as compared to 63 for C. W. Boetticher of The Dalles and 20 for L. B. Gibson of Hood River. The institute gave 150 votes to Robert Goetz of Silverton for trustee for district No. 2, created at the last O. S. T. A. meeting, and 145 to E. H. Hedrick of Medford for trustee from the state at large.

Hi-Y Club Will Hold Important Meeting Tonight
An important business meeting of the Hi-Y club will be held at the Y. M. C. A. tonight at 6:30 o'clock. This will be the year's second meeting. Plans for the year's activities will be discussed. A committee has already been appointed to investigate plans. One of the guests tonight will be F. D. Wolf, principal of Salem high school who is interested in the group.

WILL MAKE SURVEY OF RIVER TONNAGE

Assistance of the Salem chamber of commerce has been secured by Captain Thompson, district engineer of the war department, at Portland, in making a survey of potential tonnage here for traffic on the Willamette river. Detailed questionnaires are to be sent out by the chamber to all principal shippers in Salem asking the amount of their yearly tonnage to and from this city to the port of Portland and the present and potential use they make of the Willamette river. This is the third successive year that the chamber has assisted Captain Thompson in obtaining information on river traffic. The material gathered from the survey will be used in petitioning congress for additional appropriations for river development between Portland and Salem.

Kiwanians Tell Life History of Fellow Members
Five-minute talks by members of the Kiwanis club about fellow members were the order of

the day at the Tuesday noon luncheon.

Helen May Thompson of Pratum was presented with a \$15 check won by her from the Kiwanis club for a champion Shropshire ewe exhibited at the state fair. With her was Dorothy Bowen of the Waldo Hills district. She has been in 4-H club work for six years.

U. S. Page, president of the club, appointed E. E. Bragg, Dr. L. O. Clement, Dr. C. A. Downs, Roy Hewitt and Willis Clark as a committee on elections. The choice of the officers for the club for 1931 will be made Tuesday noon, November 4.

Asked for her philosophy of such a long, and obviously happy married life, Mrs. Silcott replied promptly, "Patience and endurance are the main constituents. I learned long ago that it is best to take events of life as they come, and not to worry. We have always observed that old adage about 'early to bed and early to rise' for the riches of good health outweigh those of mere entertainment, and contentment means much more than material wealth."

Silcotts Observe 59th Wedding Anniversary; Give Happiness Recipe

MONMOUTH, Oct. 7.—Mr. and Mrs. V. E. Silcott of Monmouth observed their 59th wedding anniversary at their home Wednesday. They were both reared in Indianola, Iowa, and were married there September 17, 1871, and made their home at that place continuously until 1911 when they moved to Eugene, Oregon.

Mr. Silcott was for many years a traveling salesman for large flour milling companies of the midwest from St. Paul to Kansas City. He is 80 years old, and Mrs. Silcott, whose maiden name was Josephine Lowry, is 77, but they are much more youthful in looks and actions than these ages would suggest. Mr. Silcott drives his own car, and cares for a flower and a vegetable garden.

Mrs. Silcott does much of her own housework. Since coming to Monmouth nine years ago they have become actively identified with the church and business life of the town. They have one son, Hugh Silcott, of Peoria, Ill., and grandchildren.
