Brilliant Bridge Luncheon Series Is Begun

One of the most brilliant social affairs of the fall has been the two bridge luncheons given as the first of a series by Mrs. H. Weidner, Mrs. Ray Hartman and Mrs. Fred Brock, Tuesday and Wednesday of this week at the Elks temple.

Luncheon Tuesday was served at three tables, a hostess at each table. Fall flowers in the rich orange shades of fall were used on the tables as a lovely soft decorative note. Covers for 40 guests were placed. Luncheon was followed with bridge in the large social room on the second floor of the temple. Here a gay arrangement of rose gladiola and Michaelmas daisies lent beauty for a background for the cards in play at 10 tables.

Scores for this afternoon were won by Mrs. Roy Byrd and Mrs. R. C. Hunter.
Wednesday the second of the series was given. Guests for this affair were seated at one table placed in the shape of a T, with the three hostesses at the head of the table. Covers were placed for 32, and following the luncheon cards were again in play in the social room of the temple. High scores were held by Mrs. T. J. Brabec and Mrs. Hal Patton.

WORKERS DISCOVER QUICK METHOD TO OVERCOME FATIGUE

They Take a Moment to Eat or Drink Something Sweet

Salesmen who cover miles each day, and business folks who go at top speed at their desks and counters, know that mid-afternoon is the zero hour as far as energy is concerned.

Since rest and relaxation are out of the question at this busy time of the day, countless workers have found to their delight that a piece of candy, a cookie, ice cream, or a sweetened drink—even sugar dissolved in water—restores vigor almost immediately.

The reason for this is that the sugar content of these "snacks" supplies the system with quick nourishment without taxing the digestive system. When the body is thus nourished, fatigue is materially lessened.

Recent tests among workers have proved the value of this practice of eating something sweet in mid-afternoon. A well-known physician in Philadelphia often advises business men to drop in at a soda fountain at 4 o'clock and drink a flavored milk shake. Nervous exhaustion is overcome and the evening meal is eaten later with calm enjoyment.

The demand of the system for refined sugar should not be denied. Most foods are more delicious and nourishing with refined sugar. The Sugar Institute.

A quality you would want if you knew all the facts

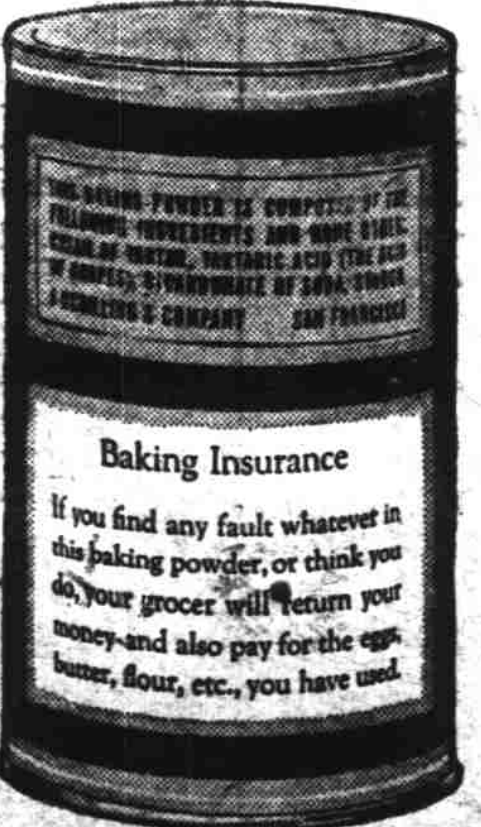

Always look on the labels. The Pure Food Laws were passed for your protection. They demand that certain vital facts regarding a product be stated on its package label. You will find them there, if you look for them. Sometimes they are important—quite important in the case of baking powder.

LOOK for the words "Cream of Tartar" in the list of ingredients. All baking powders were originally cream of tartar products. Then cheaper substitutes appeared. These substitutes were quite acceptable to some women. But a cream of tartar baking powder is almost the unanimous choice of domestic science authorities, pure food departments, dietitians and doctors, the world over. Such a preponderance of expert opinion is the Schilling guide. The substitutes may be alright—but why compromise with anything but the finest?

LOOK on the Schilling label for the moneyback guarantee. Read it carefully. It is far more than a mere gesture of good-will. Unusual as it is, it means just what it says. Only a baking powder, sure and pure, could possibly carry such an offer. Cream of Tartar! Baking Insurance! That's the Schilling way of keeping faith with you.

There are 43 facts about Schilling products—for the woman who believes that fine things are worth looking for. COFFEE • TEA • BAKING POWDER • 22 EXTRACTS • 49 SPICES
