POLK COUNTY HAS HEAVY COURT DOCKET

DALLAS, Oct. 15.—The circuit court has started work for the fall term here with several civil cases. Last Friday, October 10, there were two cases before the court. In the first, Smith vs. Industrial accident commission the jury brought in a verdict, raising the compensation for 35 per cent to 65 per cent for total disability.

The second case was Mathews vs. Hammel, but they agreed to try the case before the court without a jury. This case will be taken care of later.

The case Wednesday was State ex rel. vs. Willamette Construction company, but this will also be tried before the court without a jury. The case took up the entire day and will be finished tomorrow. There will be one other case tomorrow, but this is one with a secret indictment with the prisoner now under arrest.

The criminal cases will start on Thursday, October 16, and continue until finished. The most interesting case of the term will be the murder trial of Dale Lawson, set for October 20.

river, a distance of nearly 800 miles.

Accordingly, this additional party, headed by John Reed and Alfred Seton (Clerks) started for the Willamette the latter part of January, 1813, to spend the rest of the winter. Reed was an Irishman. He took back a quantity of the first news of the building of the post on Wallace prairie by Wallace and Halsey; went to the Snake in the summer of 1813, having arrived from the Wallace prairie post March 24. The Dorton woman and her husband went with the Reed party to the Snake and all were killed but the woman and her two boys; murdered on the Reed river, afterwards called the Boise, by the Dog Rib Indians. Seton had many experiences. In 1854 he was vice president of the Sun Mutual Insurance company, New York. He was the principal backer of Captain Bonneville's expedition.

Reed and Seton returned to Astoria on the 20th of March, 1813, bringing with them a quantity of dried venison, and they described in glowing terms the wonders of the Willamette valley, and told of the abundance there of beaver, elk and deer. They also brought news that Wallace and Halsey had built a dwelling and trading house on a great prairie (Wallace prairie), situated, according to Franchere, "about 150 miles above the mouth of the Willamette." That very evidently was a mistake on the part of Franchere, who intended to write "Columbia" instead of "Willamette," as we shall presently see. (This Wallace prairie story will be continued in tomorrow's issue.)

Here's the whole "Grange Bill"

... every word of it

And three simple questions worth asking yourself before you vote

People's Water and Power Utility Districts Constitutional Amendment

That Article XI of the Constitution of the State of Oregon be, and the same hereby is, amended by the addition of the following section, to be known as Section 12:

Section 12. People's utility districts may be created of territory, contiguous or otherwise, within one or more counties, and may consist of an incorporated municipality, or municipalities, with or without unincorporated territory, for the purpose of supplying water for domestic and municipal purposes; for the development of water power and/or electric energy; and for the distribution, disposal and sale of water, water power and electric energy. Such districts shall be managed by boards of directors, consisting of five members, who shall be residents of such districts. Such districts shall have power:

- (a) To call and hold elections within their respective districts.
- (b) To levy taxes upon the taxable property of such districts.
- (c) To issue, sell and assume evidences of indebtedness.
- (d) To enter into contracts.
- (e) To exercise the power of eminent domain.
- (f) To acquire and hold real and other property necessary or incident to the business of such districts.
- (g) To acquire, develop, and/or otherwise provide for a supply of water, water power and electric energy.

Such districts may "sell," distribute and/or otherwise dispose of water, water power and electric energy within or without the territory of such districts.

The legislative assembly shall and the people may provide any legislation, that may be necessary, in addition to existing laws, to carry out the provisions of this section.

Stripped of political claims and counter claims, put down in the cold, dead words of the bill which voters are asked to write into Oregon's constitution, this "Grange Bill" seems dangerously broad.

There are arguments, pro and con, in your voters' pamphlet which you can read if you wish. But don't fail to read the bill and ask yourself the questions these prominent men have pointed out here. Pacific Northwest Public Service Company. "Pepco"
