

PROFITS MADE FOR DISTRICT

Treasurer Kay Invests Fund Of Warm Springs Group, Benefits Result

Through the activities of T. B. Kay, state treasurer, the Warm Springs irrigation district, which is in process of reorganization, has received a substantial profit on investments of certain irrigation funds made in behalf of the project. This was announced at the state treasury department Tuesday.

As a result of a sale to the United States reclamation service of 85,000 acre-feet of surplus water of the Warm Springs irrigation district for \$650,000, part of which was represented by construction work and part by cash, the federal government in August, 1929, paid to the district \$325,000. This money was deposited with the state treasurer, and was later supplemented by payments from the state engineer aggregating \$62,992.41, between the dates of August 16 and October 16, 1929.

District Funds Draw Interest

Upon receipt of the first \$325,000 payment, the state treasurer, acting in accordance with an agreement between the irrigation district, bondholders committee and the state reclamation commission, purchased at a discount of \$300,000 of 4 3-4 per cent treasury certificates due September 15, 1929, amounting to \$320,000. These certificates drew 4 3/4 per cent interest. The cost of the investment including accrued interest was \$325,592.17.

When these certificates matured they were exchanged at par for \$300,000 worth of 4 7-8 per cent treasury certificates due June 15, 1930. On October 15, 1929, a total of \$50,000 of 4 3-4 per cent certificates were purchased at \$100.03 per \$100 par value with the money turned over on that date by the state engineer.

On November 8, 1929, a total of \$200,000 of 4 7-8 per cent treasury certificates were sold at a profit of \$1,312.50, and the proceeds invested in 4 1/2 certificates due December 13, 1929. On December 2, 1929, all of the treasury certificates were sold at an additional profit of \$1,067.78 and the proceeds were then invested in \$320,000 of 3 1-8 treasury notes callable in 1930 and due in 1932, and in \$64,000 of 4 3-4 Fourth Liberty Loan bonds.

Profit Amounts To Over \$7000

Through investment, reinvestment and sales of government securities, the state treasurer has obtained for the Warm Springs irrigation district, indirectly for the bondholders and property owners of the district, a total profit of \$7,043.95, and still holds in the investment accounts of the district \$24,000 of 4 1/2 Fourth Liberty Loan bonds bought at a price of \$112.22 net \$110 par value compared with the present market sale value of \$103.20. The present increase in value of these bonds over cost represents a further potential profit of \$500.

In addition to these profits, a total of \$12,311.92 was realized as interest on investments, making a total return already received of \$19,954.97. Of the total amount realized through sales of treasury certificates and bonds purchased by the district \$278,550 has been distributed to the bondholders as a cash settlement of 25 per cent of the bonds of the district which they hold.

SCHOOLBOY PATROL PLAN IS LAUNCHED

Preliminary plans for the inauguration of a schoolboy patrol system in Oregon were formulated by the state traffic department at a meeting held with representatives of the state motor association, local officials, and school authorities at Silverton Tuesday.

The location of the school buildings was surveyed for the purpose of offering suggestions and recommendations for the betterment of safety conditions in general. L. C. Eastman, mayor of Silverton, assured the state traffic department representatives that their recommendations would be given his immediate approval and support and that an effort would be made to place them in effect within a short time.

Arrangements were made for the selection of 40 school students, to be designated by the school officials, to act as student patrolmen. Twenty of those selected will perform the duties as outlined by the traffic division and the remaining 20 will serve in the capacity of alternates. The boys will be given instructions next Monday.

It is the plan of the Oregon State Motor association to continue the work of establishing schoolboy patrol systems throughout the entire state. Secretary of State Hoss has offered his full cooperation.

Cities Will be Represented Meet Here Today

Virtually every municipality in the state will be represented here today at the annual meeting of the League of Oregon cities. The meeting will be held in the hall of representatives in the statehouse, with Chris Schubel of Oregon City presiding.

House Cleaning Proves Profitable To Jake Bingham

GERVAIS, Oct. 23.—It pays to clean up one's place once in a while, or at least it paid Jake Bingham this week. While going through some old papers and cleaning up around his pool hall, Mr. Bingham found a roll of bills amounting to exactly \$100 which he had hidden away about 10 years ago.

There was no bank in Gervais at that time and Mr. Bingham was accustomed to hiding money in various places about his building so that if he was robbed or held up the thieves would not get all he had. This money was rolled up and put in a bag and away he went with some old papers. Mr. Bingham came very near throwing the box and all on a bonfire he had started in the back yard, but he saw the roll just in time to save it.

SEEK CONTROL OF SOCIAL DISEASE

Bulletin Describes Dangers Incidental to Spread Of Dread Maladies

Warnings against the menace to health found in venereal diseases are given in the weekly bulletin from the state board of health. Inasmuch as the county health unit has been stressing particularly this year venereal disease control, the board's warning is particularly timely for this county. Since the health unit started to emphasize this phase of health problems, there has been a marked improvement in reporting and many new cases in the city and county have been brought to light. These diseases are curable during early stages.

Following is what the state health board has to say: "The two diseases that are usually classed as venereal are gonorrhea and syphilis. A third one, of less importance is chancroid. The specific micro-organisms of these diseases are given off from open lesions upon the skin or mucous membranes. Each disease is produced by the entrance of discharge from an infected person directly into an open wound upon the skin or mucous membrane of an orifice of the body.

"There has been a popular belief that a venereal disease is of merely temporary importance, and concerns only the person who is infected. There is often little discomfort or gross evidence of disease. The severer symptoms often subside promptly, and the patient may be able to mingle with society without exciting suspicion. But the specific germs remain in unhealed and unboiled lesions and are transmitted to innocent persons, especially to a wife of an uncurred husband.

"The germs that remain in the body may produce severe forms of the disease months or years after apparent recovery. Many cases of rheumatism and bone diseases, a fourth of all cases of insanity, many severe gynecologic conditions, and all cases of locomotor ataxia and paresis are later manifestations of uncurred venereal disease. Grave effects are left in probably ten per cent of all cases. Venereal diseases are plagues which rank with tuberculosis in their prevalence and in their evil effects on individuals and society.

"Gonorrhea is entirely too prevalent. It affects all ages and all classes of society. It is the cause of blindness of the newborn and many surgical operations on the female genital organs. It causes sterility in both men and women and is the cause of many chronic diseases of the joints, bladder and generative organs.

INTEREST GROWING IN PLAN OF RELIEF

Additional calls for pledge cards have been received by the Community Service headquarters, showing that interest in this effort to afford relief to the poverty-stricken and needy is meeting with cooperation.

Chadwick chapter, Order of the Eastern Star, has called for 300 pledge cards which will be circulated by J. O. Russell and Mrs. Florence Purvine; the state budget office, through Director Sam Koser, wants three; the state library has called for 30 cards with Jessie Straw to pass them around; the secretary of state's office wants 205 for use in the various offices, including the auto department and traffic headquarters, with William Hammond and A. D. Apperson to be in charge of the cards there; hodcarriers and building laborer's union, with Frank Marshall and William Domaschofsky, in charge, have asked for 50 cards.

HYDRANT ZONE IS QUESTIONED

Woodburn Firemen to Determine Space Needed For Restricted Area

WOODBURN, October 23.—If the Woodburn fire department finds that the 20-foot district near water hydrants which is restricted from parking is more than enough room for the fire company to gain access to the hydrant in event of fire, the district may be cut down. The fire company plans to make an actual test by parking cars at various distances from the fire hydrants and determining how much room is actually needed.

The action is a result of complaints submitted to the Woodburn city council, which met Tuesday evening. George Beach, city recorder was instructed to advertise for bid for the completion of the improvement of Bradley street. The street has been graded by the city and now the graveling is to be done. The contract calls for a six-inch bed of gravel nine feet wide.

The old matter of street lights was again discussed. Since the public service company serving Woodburn has presented a contract to light the city for \$640 a year, councilman Evenden and City Attorney McCord were instructed to make a survey of lighting rates in nearby towns. In the contract the public service company also agrees to change the location of old street lights which are practically useless for protection to places where they would be more useful. The contract is for a ten-year period.

BEACHES CONTINUE TO BE ATTRACTION

CENTRAL HOWELL, Oct. 23

Mr. and Mrs. Milo Wilcox were clam digging at the coast. They went over Saturday, returning Sunday.

Mrs. A. A. Nafziger is suffering from an attack of shingles. There will be no meeting of the community club this month. The first meeting will be the second Friday in November which falls on the 14.

Mr. and Mrs. Clarence Sim-

mon and family were guests of Mr. and Mrs. Walter Ostrander of Portland Sunday.

Oliver Steffen shot a deer while hunting Monday in the Abiqua region.

2 Portland men Urge Pardon for Bank's Wrecker

Letters were received at the executive department here Thursday from C. L. Grutze and R. A. Collins, Portland business men, urging a conditional pardon for J. V. Burke, ex-president of the Bank of Kenton, who is serving a term of seven years in the state penitentiary for misappropriating funds of the defunct institution.

Thursday's Rain Pleases Farmers

Farmers for the most part are pleased with the rain yesterday. Silos are filled and most of the clover seed is harvested so that little damage was done and in many cases fall seeding was aided by the rain.

Price of Onions Hits low Mark

With nearly 650 cars of onions left to be moved, Lahist growers are facing the lowest prices that have prevailed in some time. Local prices are as low as 50 cents per hundred in some cases while merchants are offering 75 cents for U. S. No. 1 onions.

GO TO PORTLAND

AURORA, Oct. 23.—Mr. and Mrs. George Yergen and Mr. and Mrs. John Kister drove to Portland Sunday to visit Mrs. Joan Swan, a sister of Mr. Yergen who has been seriously ill for over two years. They found Mrs. Swan's condition not improved.

JEFFERSON, Oct. 23

Mrs. Charles Lynes returned to her home at Kato, Washington, Tuesday, after a week's visit with her daughter, Mrs. William Skelton and family, and other relatives.

KRUSCHKE GETS MAIL CLERK JOB

SILVERTON, Oct. 23.—Virgil Kruschke, who has been acting as substitute postal clerk and city mail carrier, has passed the civil service examinations for the railway mail service and has received his appointment as substitute railway mail clerk.

BACK AT WORK

AURORA, Oct. 23.—Miss Emma Snyder is again on duty at the post office, after having been confined to her home for a week by illness.

Assessors Will Meet Here Next Month, is Word

The state assessors association will hold its annual convention in Salem November 12 and 13, according to announcement made here Thursday by Oscar Steelhammer, president of the organization.

Members of the association will confer with the state tax commission in regard to the tax ratios on November 14 and 15. Inspection of the state flax plant has been arranged as an entertainment feature.

SNOW IN NEW YORK

SILVERTON, Oct. 23.—Mrs. Helen Wrightman has received word from her mother, Mrs. J. W. Johnson of Jamestown, New York, that the home town has been covered with a 14-inch blanket of snow, a very unusual thing. Mrs. Wrightman says, for this time of the year.

TRACTOR ACCIDENT KILLS JAKE EGLI

AURORA, Oct. 23.—The remains of Jake Egli of Amity, was brought to the Miller Funeral parlors Wednesday evening. He was killed in an accident while moving a tractor and threshing machine to Amity, where he had recently moved. He was caught under the tractor enroute. The details have not been learned. Egli was a member of the Egli family who formerly lived east of Hubbard.

CHILD IS HURT

CENTRAL HOWELL, October 23.—Frances King, little daughter of Mr. and Mrs. Jasper King, broke her arm while playing with a swing at school Monday. However, she was back at school Tuesday with her arm in a sling.

Catholic Young People to Meet

GERVAIS, Oct. 23.—A meeting at which all Catholic young people societies in the county will be represented is to be held at the Parish hall in Gervais Wednesday evening, October 23. The program is in charge of Rev. H. A. Orth of Gervais and will carry out the Halloween spirit. Similar meetings are to be held at different times during the winter season at the various centers of the county.

BACK AT SILVERTON

SILVERTON, Oct. 23.—Mrs. E. S. Longacre, who has been at Corvallis with her daughter, Mrs. J. S. Welch for sometime, has returned to her home here and expects to remain for at least a month. Mrs. Longacre was taken to her daughter's home when she was ill but she reports that she is feeling quite well again.
