Mr. Bond told of a number of interesting incidents of his vacation.

George Brower was chief cook for the dinner. The table decorations were in black and orange.

The proceeds of the evening went into a fund for the upkeep of the church. At the close of the program the choir held their usual weekly practice.

Cauliflower Picks up due to Buying From Outside Sources

PORTLAND, Nov. 1.—(AP)—Wholesale butter and egg quotations were unchanged today and light trade demand reflected the week's continued weak undertone in the market for each product.

Dullness characterized the weekend trade in most lines of fresh fruit and vegetables. Report of the government news service follows:

Mill door prices of oats and corn grain feeds were \$1 and \$2 a ton lower in quotations listed by a leading flour company here today.

Valencia oranges, and early pears are now cleaning up, with very wide range in quality, and heavy price-discounts in less desirable sorts. These pears are about ready for distribution, to be followed in about a month by D'Anjou. Storage stocks of these varieties in the northwest are very liberal.

Both table and juice grapes are now meeting with very slow demand. The juice trade has apparently obtained its full quota.

and buying is inactive, at lower prices.

Presence of several outside cash buyers of cauliflower is making for an active P. O. market, although total shipments show considerable increase recently. The carrot market is about steady at \$1.20-1.25 per crate of No. 1 flour. Present shipments of 5-6 cars daily show double in volume, next week. The potato market is very dull, due in part to liberal local offerings. Sales of Yakima potatoes in Portland are confined mostly to No. 2s and culls.
