RIVERVIEW SCHOOL GREATLY IMPROVED

The Riverview school building isn't what it used to be, declared Mrs. Mary L. Fulkerson, county school superintendent who visited the school Friday. In fact, it's much better than it used to be, for the building has been remodeled, a porch has been added to one side and provision has been made for more light. The superintendent was delighted to find these changes there. Miss Julia Query is the teacher.

Mrs. Fulkerson has but eight more schools to visit before she finishes her first round of inspection and visitation to the 69 schools which she visited three times annually. She expects to complete the first round this week. W. W. Fox, rural school supervisor, visits the other schools in the county.

On her visits the past week, Mrs. Fulkerson found several instances where vandals at large on Halloween night did damage to school property. At Rock Point, the schoolhouse was entered and a number of things stolen, and in addition several windows in this new building were broken. At Hult, the prowlers could not overturn new outbuildings, so they burned one of them up.

Improvements have been made to the McAlpin school building, both inside and outside. Twice as many children as usual are enrolled there.

The superintendent continues to find that many of the rural schools strained, the enrollment is so much more heavy than usual.

Eugene Courtney, vice president and cashier of the Bank of Woodburn, is a hearty advocate of a county agent for Marion county.

Courtney is chairman of the agricultural committee of the Oregon Bankers' association. "My work takes me to all sections of the state and the wonderful records made by this committee in competition with 47 other states during 1929, was due largely to the support and cooperation of county agents throughout Oregon," Courtney reports.

"We have long been in favor of a county agent and from the wonderful results that other counties are receiving from this work, I am sure that Marion county would be repaid many times through the cooperation of the agent and the college," says Courtney.
