## FEED DEALERS WILL MEET

Association Members in Salem District to Gather November 20

The feed dealers of the Salem district of the Oregon Feed Dealers association, will meet Thursday, November 20, 6:30 p. m., at the Marion hotel, Salem, for a discussion of problems of the industry. While the primary consideration at this meeting will be given to the technical matters concerned with the operation of the industry itself, there are also to be considered matters affecting the farming community in which the feed men may exert an influence. One of the most important of these is the question of the existing tariff on oil cake and meal.

Prior to the imposition of this tariff (\$6.00 per ton), the association took an active stand against such a tariff, pointing out that it protected no American industry and did affect farmers in the entire Pacific coast territory. The association is now actively planning a campaign to secure a reduction of 50 per cent in this tariff, under the flexible clause. A great deal of work is involved in this program in order to present the data satisfactorily to the tariff commission. Plans to that end will be considered amongst other things at this meeting.
