CONGRESS WILL AID WORKLESS

Enlarged Highway Program One of Means Looked To for Employment

(Continued from page 1)

When new congressmen will be seated, Hawley said the attitude of the house then would be largely dependent upon the swing in business. If the summer of 1931 shows a marked improvement, the republicans can easily hold the upper hand in congress, Mr. Hawley feels, but continued business depression will result in a congressional fight in 1931 and 1932 with the democrats especially looking toward the presidential elections as a chance for the public to give disapproval to the administration and place a democrat in power.

Mr. Hawley said that a major part of his work during the coming session would consist of the preparation of an extensive case to lay before the treasury department, establishing the full right of the United States to send representatives to Russia to inspect the manufacturing conditions under which this country is exporting logs and lumber. Hawley said the same rights were insisted upon from other exporting countries. He said he thought that an attack on Russian imports of lumber to the United States on the basis that it was unfair trade, because the lumber was sold at less than cost price or else "dumped" without any regard to cost price and the fact that it was sold to the soviet, could prove this to be a violation of the fair trade provisions of our tariff.

The congressman said he would urge the passage of the Champeok memorial bill to the calendar for the new session. He said he thought \$125,000 could be secured from the federal government provided Oregon through its next session of the legislature would appropriate \$100,000 for a memorial together with the site and the present building at Champeok.

While Corvallis and Astoria are slated for new postoffices during the coming year, Congressman Hawley said the \$100,000,000 added to the federal building program might mean new buildings within a few years for Oregon City, Marshfield, Grants Pass, Ashland, McMinnville and Newberg.

Federal Buildings May Be Provided
New federal buildings would be constructed under a rent amortization plan whereby the local federal offices would continue to pay rent as long as the private owners of the building, the government being the landlord and setting aside a fraction of the rent received to amortize the original investment within 25 years. It is understood that the earlier completion of the federal building program is favored by the president as a means of relieving present unemployment.

While \$50,000,000 was added at the last session to the \$75,000,000 federal road building program, Congressman Hawley thinks that the \$125,000,000 program for 1931 will be extended into 1932 and 1933.

Allocation of funds already appropriated to the chief engineer of the war department for rivers and harbors will be up for consideration at once and Congressman Hawley is very hopeful that unusually large appropriations will be made for coast points.

He expects \$135,000 for the Skipanon channel south from the Columbia river entrance to Warrenton. For the rebuilding of the Tillamook jetty \$500,000 has already been allocated. Yaquina bay scheduled for an allocation of \$25,000 and the Columbia river work will probably receive \$600,000 for the year.

Mr. Hawley said he would urge the chief engineer to appropriate sufficient money now to extend the south jetty at the mouth of the Umpqua river 2000 feet, making possible a 25-foot entrance to

the harbor where an 18-foot channel is now available.

The congressman said he would ask \$40,000 for the removal of a small hump near the end of one of the Coos Bay piers. The completion of the Pigeon reef removal gives Coos Bay a 31-foot channel at low tide. Hawley hopes for a \$100,000 allocation for rebuilding of the jetties on Coos river leading into the ocean at Bandon.

Surveys authorized but not yet adopted on the chief engineers' expenditures include those on the Willamette, the Nehalem, and the Suslaw.

Big Chicago Clash Today In Limelight

NEW YORK, Nov. 21.—(AP)—There is just one college football battle tomorrow, so far as the national championship situation is concerned, and it would be fought out in suburban Chicago between Northwestern's Wild cats and Notre Dame's Rough Riders.

It brings together two of the greatest unbeaten teams of the year. It will be watched only by some 49,000 spectators at Dyches stadium, although mammoth Soldier field could be sold out to its capacity of around 125,000 if the game could have been shifted here. It will be followed indirectly by millions of radio listeners.

The outcome will be scanned with special interest on opposite sides of the continent, for West Point has a date with Notre Dame next Saturday at Soldier field and Southern California has a reception committee waiting for the Rough Riders at the Los Angeles coliseum, December 6.

Win, lose or draw, Notre Dame will play its final two games before close to 200,000 spectators in two of the biggest sports arenas of the entire country.

Although they may arouse much less national frenzy, the two traditional "naturals" of the day, Harvard-Yale at New Haven and Stanford-California at Berkeley, will be played before far bigger crowds.

SEEK PROSECUTOR FOR BOWLES CASE

Governor Norblad said Friday that he had received several requests from Portland for the appointment by the state of a special prosecutor in the Mrs. Leone Bowles alleged murder case.

The governor said the persons making the requests apparently were not satisfied with the progress being made by the district attorney of Multnomah county. He refused to divulge the names of the persons who made the requests.

The state law authorizes the governor to appoint a special prosecutor in cases when in his opinion the district attorney's office is not functioning properly.

"Buy Now" Move Is Discussed by Lions Committee

The committee of the Salem Lions club on the business revival campaign met Friday evening at the First National bank to discuss plans for the "Buy Now" campaign which is planned to start in Salem December the first.

Tentative plans were discussed and it was decided to invite delegates from all other clubs in Salem to meet with the committee Monday evening to perfect the plans.

Early shopping and definite plans to stimulate early Christmas buying will be presented with the idea of starting in Salem the first of December and continuing until Christmas. Cooperation of all of the merchants of Salem will be solicited.

WEATHER IS IDEAL FOR BIG GRID GAME

(Continued from page 1)

told bystanders last night the details of today's conflict and this noon at State and Liberty streets will repeat the announcing.

At the game this afternoon, for the first time in Willamette's history, a play by play description will be given to the spectators thus enabling the portion of the audience not football-trained, to have an accurate picture of each play.

Several dignitaries will be in reserved seats when the game begins. Among them will be Mayor T. A. Livesley and party and Governor A. W. Norblad and his party. President Penrose of Whitman college was invited to attend but could not be present.

Stunts between halves will furnish additional entertainment for the spectators.

Following the game, Willamette alumni will gather at the Gray Belle for a reunion dinner. A special party of 80 alumni is expected from Portland.

One special feature for today will be an adequate police force to handle the crowd. In addition to state traffic patrolmen and police officers from the city of Salem, a corps of "usherettes" trained to take spectators to their reserved seats will be hand, while the organization, will patrol the field and keep bystanders away from the sidelines.

One thousand extra bleacher seats brought here from the west end of the field to augment the grandstand and bleacher seats already available.

BOGUS DOLLARS IN CIRCULATION HERE

Salem merchants are warned against accepting bogus silver dollars which are being circulated in Salem. The fake dollars are an excellent imitation and only careful scrutiny reveals them to be counterfeit. One of the dollars was displayed at the meeting of the Salem Retail Credit associa-

tion on Friday and the warning issued to merchants.

An amendment to the by-laws of the association is to be voted upon at the next meeting. If the amendment carries, officers of the group will be elected the first Friday in December. A nominating committee was appointed with instructions to select two candidates for each office and to report at the next meeting. The committee consists of Otto Paulsen, J. E. Dotson, Aldere, Shufler and R. Watkins.

Plans for a banquet and get-together meeting were discussed by J. E. Dotson and he was appointed to go ahead with arrangements for the affair which will be held some time in December.

CLUB FEDERATION TO ELECT MONDAY

Election of officers will be the principal business of the annual meeting of the Marion county federation of community clubs which is to be held Monday evening at the Salem chamber of commerce rooms.

Representatives are expected from each club in the county and reports will be given as to the local activities of the clubs during the past year.

Present officers of the club are Dr. F. O. Riley of Hubbard, president and Charles Clark, secretary.

"Craig's Wife" Used to Point Sermon Theme

"When is a House Not a Home?" is the theme of the evening sermon at the First Congregational church that will be illustrated by the latter half of the moving picture "Craig's Wife."

This is the story of a selfish wife who sought to exclude from her house all upon whom she could not impose her narrow will. Craig was a man who was rapidly losing his personality by becoming the pallid echo of his wife's selfish desires. This is a domestic theme dramatically visualized. It appeared first at stage play in New York where it won a Pulitzer prize.
