Health and Hollywood

F there were any arguments needed for continuance of public health work in this county the letter of the Holly- for the bowels will soon learn to wood community club attacking this program would supply depend them. So full is it of misinformation or straight falsehood for its action. After the long that this very fact discloses the absurdity of the contentect is entirely lost. tions of this organization. Check over some of the statements contained in the letter sent out over the signatures of P. M. Gregory, president, and W. H. Henderson, secretary.

The Hollywood club believes that a great deal of the present expenditures of the county health unit, under the control of the Commonwealth Fund of New York, has no bearing or effect on the health in Marion county, and that much more real medical and nursing service can be secured for the same amount of money by a reorganization of the service and placing it under the control of the county court or some other authority, instead of leaving it as a private New York enter-

The Marion county health unit is not under the control control of the health unit committee, every one of whom is shasized. This good habit acquira resident of the county. Taxing bodies contributing to the ed in youth will be a blessing support of the health work are represented on the committee and control the expenditure of all funds. The Commonwealth Fund has no representative on the committee and mal bowel movements. All fried has not had in 1930. This fund is not a private business enterprise, but a privately endowed philanthropy.
"The Commonwealth Fund is now demanding that its appro-

priation of \$42,285.00 in Marion county for 1930 be increased

to approximately \$55,000 for 1931." The Commonwealth Fund is not demanding any appropriation in Marion county. It has offered to donate to this instead whole wheat or bran work \$6500 if local sources provide \$36,250. This would bread. make a total budget of \$42,750. There is no "demand" from any source for \$55,000; and not even a "request." For the county to meet the conditions it would be necessary to rich desserts, cakes and candy, you because you will know what raise \$5,000 more than at present locally. The Statesman Tea, alcoholic drinks, sweet or to do. I will stick to it, Mr. Cordoes not urge this increase on the taxing bodies unless the boiled whole milk, and choco- bett. And if you make him, my boards feel that such increase can and should be made. The county ought to support generously enough its own health program without dependence on outside philanthropy. What we are concerned with are threats to scuttle the program in a large portion of coarse cerwe are concerned with are threats to scuttle the program ing a large portion of coarse cer- care, if it will help herand put the county back in the higher death rate column. Polk county is spending less than \$500 per year for public

health work; Linn county is spending less than \$600." The results speak for themselves. We do not have at hand the vital statistics for Linn county, but we have for ways include a good assortment Marion and Polk counties. In the period 1920-1924, before of fresh fruits and vegetables the health work was started in this county the infant death rate in Polk county was 52.8 per 100,000 and in Marion county 55.4. In the period 1925-1928 the rates were changed to: Polk county 52.2 and Marion county 44. Comparing the two periods the rate in Polk county declined 1% and in the muscles of intestines will be Marion county 21%. Similar contrast is observed in the maternal death rate. In Polk county 1920-1924 the rate was 7.5 per 100,000; in Marion 7.3. In the latter period, 1925- ful. This is particularly indicated 1928, the Polk county rate was 6.8, showing a decline of in elderly people who cannot re-9% and the Marion county rate 3.3, a decline of 55%. Evi- sort to physical exercise. dently each county got in returns according as it expended funds for promoting public health.

'Investigation shows that about the only thing that Marion county is getting that these other counties are not getting is the elaborate organization devoted to surveys, reports, traveling expenses, etc. Note the item of \$5000 for transportation

alone. Nearly half of the personnel drawing salaries are neither The "investigation" must have been made by the same

one who made the bald mis-statements previously quoted. An honest investigation would show the decline in death rates for example, above referred to. It would include also a study of the following table of death rates on communica-Rate per 100,000 Population

There are fifteen in the staff of the health unit. Two are doctors of medicine; one a doctor of dental medicine; eight registered nurses; one milk inspector; one sanitary inspector; two clerks. Another mis-statement for Holly-

So far as the control of the health work of the county is concerned it might be better if it were all administered under the county court; but the court will not appropriate the full amount necessary to carry on the work. The work should be co-ordinated in the cities, towns and schools and this city yesterday completed its rural areas of the county. If it will not be done by the court, first period of 20 years, and its then the only other way is through co-operation as at present of the various taxing units.

Don't scuttle the ship. An ounce of prevention is worth a pound of cure. Smallpox, typhoid, diphtheria epidemics of \$75,000. John H. Albert is warded off are better than those which come and claim president now; E. M. Croisan, some victims. We spend in Salem alone some \$80,000 for fire prevention, some \$50,000 for police protection-health ought to be worth thirty or forty thousand dollars to all

There should be no cut in appropriations for the county

health unit.

Deferring the Hotel Project THE sponsors of the new hotel project for Salem acted plying the Willamette at this I wisely in postponing the enterprise to a more propitious point is the new launch put on season. The project had numerous handicaps. The fate of the river by Percy Larsen, son of similar community hotel ventures in neighboring cities: the present lack of prosperity in the hotel business; oppo-

funds to put into an enterprise of this kind: To our mind there are other things which Salem needs to do before it goes ahead on such an expensive undertaking. We need to consolidate some of the ground we have already staked out in community undertakings. There is the hospital, one of the most worthy institutions in the city, is brought through to success it will be one of the greatest nances for supporting the organinadequately financed. The bond issue of some \$65,000 factors in the industrial development and growth of Salem ought to be paid off; and the way to pay it off is through the could have. a general drive for funds. It is scarcely conceivable that this community will neglect this institution so that the hos-

Today's Talk By R. S. Copeland, M. D.

So much has been written concerning constipation and so much advice given that I almost hesitate to write another article

ject that too be said regarding it. As a civilised nation we will always be with the problem of consti-

portant a sub-

pation. Constipation is the result of bad The only way to cure it is to teach the bowels new habits, a good habit.

Relief is promoted by eating at the same time each day, and having daily bowel movements, at regular times. The use of drugs, particularly drastic cathartic, will never cure constination. It will increase constipation entirely upon the drug continued use of drugs, their ef-

Avoid Drugs Bowel movement should take place at a definite time each day. If there is but one, preferably this should be before the day's work has begun. Time and patience are required to teach the bowels to move regularly. This desirable habit is more difficult for an adult to acquire if for years he has depended entirely upon drugs.

In the training of children the importance of regularity of bowel movement cannot be over-emin later years.

Food and exercise are additional factors in promoting norfoods should be avoided. Salted, smoked or pickled foods should be excluded from the diet.

A normal digestion will handle them, but if constipation is present avoid hot or fresh white bread. If it is not irritating take

All fruits are advisable. Avoid rieties of cheese, nuts, pastry, bad, from the diet. Diet and Exercise

eal without white sugar, or with a reasonable quantity of brown sugar. Before going to bed it is advisable to eat either figs, a dish of prunes or an apple. Alwith your meals.

Most persons suffering from constipation do not get enough exercise. If the muscles of the body are weak, it follows that weak. For this reason artificial exercise in the form of abdominal massage may be very help-

General exercise in the open is most beneficial, for the relief of his hands. constipation. Such forms of sport | the as golf, tennis, horseback riding struck for Ardeth. and swimming are all strongly recommended. The most economical and often most beneficial form of exercise is walking. It helps the circulation, stimulates the appetite, improves digestion

and aids intestinal action. Never eat unless you are really hungry. It is best to leave the table still a bit hungry. Chew your foods slowly and well. Let your food be essentially wholesome but always of good materials with plenty of vegetables

Drink plenty of water. I am deth. more and more impressed with to get sufficient liquids. It cannot be expected that the intestinal tract can function without fluids.

A few moments deep thought, then Tom put on his hat and left, locking the front door of the little shop.

CHAPTER 59 When Tom climbed the front steps of the Parker home and asked for Mrs. Gleason, Cecile sent

Tom checked a grim smile. He had never been a favorite with Cecile; still less so, he imagined, since he had been attentive to Ar-

He drew a card from his pockthe thought that many of us fall et and wrote on the back. Replacing it on the butler's tray, he directed, "Take that to Mrs. Gleason and tell her that I will await her.

He stepped into a small, bright room to one side of the front hall and seated himself on the divan. On the card he had written, 'Concerning Cyril Underhill."

Cecile appeared in a remarkably short space of time. His first glance told him that she was annoyed and alarmed, both qualities which she tried to hide under a mask of false sweetness. She wore a dress of black chiffon, lavishly printed with flarred and green and orchid flowers. The effect of this was to followers few there are who heed heighten the dead white of her face and throat and turn her eyes to ice-green. Her long, taffy-colhair was combed sleekly back and wound into a French twist. Her lips were the usual startling and unconvincing red.

To Tom she was more astonishingly artificial than ever, reminding him of the featuraless and futuristic clothing models he had noticed in the large shops down town.

Cecile sank bonelessly upon the divan beside him. "You have made me so curious with your inscription about Underhill," she smiled. Mr.

Prof. Ruzek of O. S. C. Addresses Four Meetings Recently

DALLAS, Nov. 22 - Ninetyfive farmers attended the four county meetings, arranged by J. R. Beck, county agent, when Professor C. V. Ruzek, o f the soils department of the state college advised on crop rotation, fertiliz-

"Following a good rotation is the easiest and best way to maintain and increase soil fertility and involves no expense and is the surest way to continue long time fertility on our farms," stated Mr. Ruzek. A good rotation is given as a legume such as clover or alfalfa, grain and a cultivated crop such as corn and potatoes.

Good rotation will keep up increased yields practically as well as where commercial fertilizers or barnyard manure are used. In the use of the latter, much fertilizer value is washed away during the winter rains. Where barnyard manure is used it was advised to build a shed, which consists of a foundation with a roof over it, this provides sanitation around the barn as well as keeping the fertilizer under cover and

making it of greater value. The practice of burning stubble behind the combine was not advocated by Mr. Ruzek. He stated it could only lead to decreased yields within a few years.

HEALTH IS SUBJECT JEFFERSON, Nov. 22. - An nteresting and instructive health talk was given by Mr. Ambos, Wednesday evening in the parlors of the Christian church. It was in the nature of benefit for the church. One thousand points were necessary, according to attendance, to receive the benefit, but the numper of points received was above

the required amount. Dinner was served by Mr. Ambos and Mr. Hunt, assisted by ladies of the church.
