4,860,000 People Out of Jobs Says New Shocks Are Labor President

WASHINGTON, Dec. 3. (AP)-An estimate of 4,860,000 persons out of work was given curred yesterday in the Valona today by William Green, presidistrict of southern Albania, dent of the American federation of labor, while the senate was wrought late last month, causing calling for the report of the one death and the collapse of president's emergency committee five houses. The shocks last on employment.

Green, in giving the number his organization was informed were obless in November, said if the rate of increase shown during that month continued more than 7,000,000 would be unemployed by February, the federation's figures for October was 4,500,000. Their figures, Green said, do not include farm and office workers.
