The Smile that Asks

How their appetites quicken at the thought of HONEY BREAD... at meals or for that after-school "hold-over-bite"... necessary food elements brought to children in such an agreeable form.

There is no more healthful food than good bread. Mothers are content to see youngsters beg for "bread n' butter" between meals because HONEY BREAD best nourishes the sturdy frame and vigorous muscles.

HONEY BREAD... of pure ingredients... blended well... baked properly... plus that true honey flavor... is the temptation for children to be healthy and happy. Your grocer has it.
