EVERGREEN BOARD **MEETS HERE TODAY**

\$500,000 Minimum Needed to Meet Requirements; men Register

Members of the state labor employment commission will meet in Salem today, when reports will be received from the various counties as to the progress that is being made under the emergency employment program. The commission is composed of Governor Norblad, C. H. Gram, state labor commissioner, and H. B. VanDuzer, chairman of the state highway commission.

Funds necessary to carry out the employment program are being provided by the state highway commission. It was estimated that between \$500,000 and \$1,000,000 would be required. Employment under the highway department will be limited to the improvement of state highways, Approximately 300 men already have registered for employment in Marion county. Other counties also have reported a large number of men in search of employment. Officials said it probably would

Only bonz lide residents of Oregon will be employed under the with dependents will receive preference.

A check by Marion county of-ficials indicated that only 20 per cent of the mon who registered for employment are entitled to receive jobs under the emergency.

1000 Patrons Are Expected at Meet Of Creamery Group

MT. ANGEL, Dec. 18. — Plans are being made for the annual patron meeting of the Mt. Angel Cooperative creamery, which will be held this year on December 200

At least 1000 patrons are expected to attend the meet-ing and big banquet at noon in the auditorium. Last year 750 were present at the ban-quet, but it is expected that this year's attendance will surpass that of last year. A number of good outside speakers will be brought in for the occasion, according to Frank Hettwer, manager of the creamery.

As in the past Mr. Angel bu iness men will act as

COUNTY MARKET ROAD BOND INTEREST:

SEALS GREAT AID IN WAR UPON T. B.

Contribution which has been made in the war against tuberculosis through sale of the Christmas seal is told in the current bulletin of the state board

of health. The bulletin says:
"The battle against disease is not yet finished though satisfactory progress has been made. The death rate from pulmonary tuberculosis in the state of Oregon has been reduced from 91 per 100,000 population in 1910 to 49 per 100,000 in 1929. The meaning of this decline in terms of life saving is that 378 persons now living would have died from

tuberculosis last year if the rate of 91 had still prevailed.

"However, tuberculosis is still one of the most common causes of death in the state of Oregon. A great deal of good can be accomplished by efforts in the right direction. Sickness among ess resourceful neighbors mean great financial loss and in many instances is a cause of poverty and distress. In tubesculosis early discovery usually means early recovery and if we can cure or arrest the disease in children there would be fewer adult cases and less suffering ery reason to believe that when the public are informed in re-But Mr. Watt came to the rescue gard to health habits there will

economic conditions and higher standards of living. "Knowledge of the fact that tuberculosis can be prevented and that when its presence has become known it can be cured if measures are taken in time, is carried into general circulation in the community through the annual seiling of Christman seals. The seal sends out a message of hope and cheer. It produces funds for the support of the tuberculosis association in community through educational

The Christmas seal sale gives everyone an opportunity to assist in the fight against tuberculosis. The Christmas seal with its greetings of Merry Christmas and good health causes not only good cheer but supports a whole program of better health and happiness for the citizens of Oregon. It is a task calling for the assistance of every good citi-

1500 Acres of Alfalfa Added to Yield in Polk County by Agent's Work

One of the outstanding accomplishments has been the adding of approximately 1500 acres of al-falfa to the 1000 already under cultivation. According to Mr. Beck, many of the projects that occupy a prominent place in his work are those that cover a perind of years, requiring additional development from year to year. In alfalfa production he has as his goal from six to ten thousand acres whereas at the present time only 2500 are under cultivation.
