# Bishop's Annual Two For One Sale

# **TO OUR CUSTOMERS** and FRIENDS:

The Hazel Dell Dairy started to deliver milk in Salem February 1, 1930. Prior to this time all the dairies were selling milk at 12c per quart with the exception of one or two so-called independent dairies, who sold for 10c.

At that time all the dairies met our price of 10c and on the 15th day, of August the price was again raised to 12c. We were invited to join in with the raise, but business and unemployment conditions did not warrant such a raise in the price of milk. We were the only dairy in Salem that remained independent and therefore can truthfully say we are independent distributors.

Our business grew rapidly and, as it grew, we equipped ourselves to take care of the volume. We would like to have our customers continue with us as long as quality and service are satisfactory. Our milk is GRADE "A" RAW and we are inspected regularly and are grade "A" in every respect.

We are farmers and we have not cut the price of \$2.50 per hundred to our shippers, and may we add that they are very well satisfied?

We do not think that it is fair to demand cash in advance, but we do insist on our pay for milk delivered on the 10th of each and every month.

We won the Silver Medal Diploma at the Pacific International Livestock Exposition this year with a score of 97.

Our milk is all Grade "A" raw and no other kind is handled. WE WILL MEET THE PRICE OF ANY DISTRIBUTOR TO CUSTOMERS.

We wish to thank you for your liberal patronage in the past year, and we wish you all a Happy and Very Prosperous New Year.
