

DEBETT BILL NOW IS READY

Marion County and Similar Vacancies Filled by Governor, House

Senators J. O. Bailey and J. E. Bennett of Portland were in Salem this week and brought with them a revised draft of the measure which they will submit the opening day of the session to provide a means of filling vacancies in the original Bennett bill modified to make it in with the constitution and with an emergency clause tacked on. Appointing power is vested with the governor but subject to the confirmation of the house in which the vacancy exists. The appointment may be made only when a legislature is convening, or during the session.

This is the bill, it is expected, under which the two vacancies in the Marion county delegation may be filled. It is expected that the bill would appoint and the senate and house would each confirm the appointment to its particular body. The bill would be the permanent legislation on the subject, putting into effect the constitutional amendment adopted in November.

Text of Bill Given

The following is the text of the Bennett-Bailey bill: "When a vacancy in the office of senator or representative from any county or district exists at the commencement of, or occurs during, any regular or special session of the legislature, the governor shall fill such vacancy by appointment, subject to the confirmation of the house in which such vacancy occurs. Such confirmation shall be by roll call and a majority vote of all members elected to such house in favor of such appointment shall be necessary to confirm the appointment. The person so appointed shall hold office until the next regular general biennial election.

It is hereby adjudged and declared that existing conditions are such that this act is necessary for the immediate preservation of the public peace, health and safety, and owing to the urgent necessity of maintaining the same, an emergency is hereby declared to exist and this act shall take effect, and be in full force and effect, from and after its passage."
