Norblad Talks State Needs in Farewell as Oregon Chief

Favors Reenactment of Intangibles and Test of Other new Taxes

Boiling down his 66-page print-ed message to a 26-minute talk touching only the highlights, Al-bin W. Norblad addressed the foint assem-

plage of senate and house of r epresentatives Monday afternoon as his last official act as g overnor of Oregon. In his brief talk he toucked upon practically all Im portant

The retiring governor first called upon the legislators and visitors to stand in silent meditation a few mements in respect to the memory of Governor I. L. Patterson, who died December 21, 1929.

Governor Norblad's message covered 42 subjects, involving sectional, state and national affairs which affect Oregon as a whole. State building needs, improvement in the administration of justice and discussion of state expense accounts occupied the most space in his message, while the matters of taxation, changes in election laws and highway program were also emphasised by the executive.

"The 1929 legislature devoted must of its time to the solution of outstanding tax problems. Three revenue enactments included a 5 per cent corporation excise tax, an intangibles tax of 5 per cent in interest and dividends and a personal income tax. If the three laws had been maintained," the governor said, "approximately \$3,-000,000 could have been cut annually from the state levy on state taxes on property within the 6 per cent limitation." He added that "I am of the opinion that the 1939 enactments should be continued unchanged for at least two pointment of judges rather than perty. years." His recommendations include revision of the intangibles tax to make it constitutional.

The necessary funds, he suggests, could be raised by bond issues, and the "question of such serious import that this legislation should authorize the submission of a constitutional provision at a special election to be held early in 1931." Governor Norblad compliment-

ed the state highway commission on its successful operation and urged that the legislatures continue to leave the power of adding new highway systems and control of same to the commission. He stated he was "happy to know that the last gap of the important Roosevelt highway has been placd under contract for construction." "In protesting against the proposal to have the chief justice of the supreme court administer the oath to new members of this senate. I am acting as a matter of principle which is as sacred to me as life itself", said Senator Brown. "Anything I have to say will not reflect on any member of this senate.

"I cannot believe that the members of this senate will vote to cast a slur on the life of the late George W. Joseph who, prior to his death was one of the most brilliant minds in the state. You remember how he was trampled upon by the highest court in this state, and how he later went before the voters for vindication. He was vindicated by the people, but the strain was too great and he went to a premature grave. George Joseph was a great benefactor and he dared to speak out in criticism. It wants the Wilson river highway, if and when the time is ripe. Thornburg is hopeful the road will be built in course of the highway commission's expenditures and without the necessity of dragging the measure on to the floor of the legislature. To do so would bring every other road aspiration in the state out in full view, and the result would be that the Wilson rivsenate chamber when the other or read would wait, thinks Mr. Thornburg.
