Governor Meier's Address

THE state listened with deep interest in the inaugural pronouncement of Governor Julius L. Meier. His great contains two vitamins, A and D popular vote meant that a vast number of people were gen- Vitamin A is concerned in prouinely interested in the proposals which he might make for moting growth, increasing the new legislation. His message may be appraised as for the resistance against certain dismost part well-tempered and constructive. It is true that while Vitamin D is needed to he laid a lash on the judiciary in his tribute to the memory prevent and cure rickets, Through of George W. Joseph; and it is to be hoped that this may its ability in depositing calcium not initiate a feud between the executive and judicial de- in the teeth and bones Vitamin partments of state. The governor is entitled to his opinion and to freedom in expressing it; but that done the people makes cod liver oil almost an esand their officials should not seek to prolong the bitterness sential in the diets of children of this historic case. Too much work lies just ahead.

For the most part the proposals of the governor were sound. His outline of a hydro-electric policy assures the state that the water resources will be conserved and protected. Private enterprise is not barred, but made amen- called, are not as reliable. Viable to rigid regulation. The change of the public service osterol or acterol, or the ultracommission to a single-headed department of utilities represents largely just a change of name. The present commission now possesses many of the powers recommended to the single executive. The new powers which Governor children will not take cod liver Meier recommends seem fit safeguards against exploitation oil. As a rule too much fuss is

Particularly do we approve of his recommendation that the one-mill market tax be absorbed by the state, thus re-chology of cod liver oil is much lieving property of that load. His recommendation of a worse than the taste. state police force is along the right line.

The governor's address touches so many matters which will become legislative issues, that we will withhold quality of the oil purchased by further comment at this time.

Spurious Race Tickets

THERE has been a big sale here in Salem of tickets on liver oil are really not bargains I the races at Agua Caliente. People have bought the at all for such oil probably has tickets on the chance of winning easy money. It now develops that \$350,000 worth of sweepstakes tickets have long and when should it be givbeen proven spurious. Whether any of these were sold lo- en? It should be started shortly that confused her. cally we do not know, though it would not be surprising, be-cause at this distance neither local seller nor local buyer day to be of the greatest baseline and the short take about the eucalyptus," she that he knew it. can tell whether the tickets are genuine or not.

The gambling fever is stirred by occasional reports of would be safe to say that it wins of large sums by Canadians and Englishmen who dab- should be started about October ble heavily in race betting. But the report of the losers 1 and continued to April 1 each never is published. Thousands buy who never win a thing; year. So many mothers have the shouldn't have tried anything so feeling that after the first or big. But pshaw! I did hate the promoters must get the sure income or they would not second year it need not be given those dirty chickens your father continue in the business. Betting on horse races is enough any more. It is especially valuof a gamble where one has some knowledge of the horses. It able for a few years after the is a pure gamble where the races are hundreds of miles helps to prevent many infections I had to tear down those sheds away and the ticket-buyer may not even know what horse that the child often picks up afhe is betting on.

And it is almost sheer squandering of money to buy tickets that are circulated up here; for besides the long to his size than the child two odds against ever winning is the chance that the tickets years old for it is during infancy themselves are fraudulent. One can easily see where it when growth is very rapid that railroad . . . well, I guess your would make a pretty graft for race track touts. All they rickets develops, Strange to say, need to do is to print a bunch of tickets and send out sales- rickets develops only in growing men. They would get the money and vanish overnight with get rickets but the baby which is never any split of winnings.

The circulation and sale of these race tickets violate ting on weight rapidly may develthe laws of Oregon. The authorities should take the matter of this disease. A teaspoon of in hand and put a stop to it. It is nothing but gambling, with barely the conventional "gambler's chance." The sheriff and prosecuting attorney should make it hot for the If your child needs more your peddlers of these tickets so the sale here will cease. The physician will tell you so. public will do well to keep its money in its pocket.

The State Income Tax

THE state tax commission is probably wise in not sendling out the blanks for the state income tax until the legislature adjourns. The public will remain oblivious of its Hability under the new state income tax until it gets its blanks. When it does and compares the rates with the federal income tax there is sure to be a holler that will be worse than on the intangibles tax and would probably reach ing up, with Dr. H. C. Epley and

The difference briefly is as follows: Exemption for a married person, state, \$2500; federal, \$3500. Rates: state, first \$1000 above the exemption, 1%; second \$1,000, 2% third \$1,000, 3%; fourth \$1,000, 4%; over \$4,000, 5%. Fed-graph office last night, however held about the middle of Februeral rates: First \$4,000, 11/2%; second \$4,000, 8%; over and put it out.

\$8,000, 5%.

In addition there is a credit under the federal law of 25% of the tax on earned incomes. The state does not have

The net effect will be that for the most of the incomes ingless. below \$10,000 the state income tax will be greatly in excess of the federal income tax; on most incomes above \$10,000, the tax will be less for the state.

Our prediction is that the state income tax will bring in a sum far greater than the estimate of around a million dollars made by the state tax commission. We venture to say that it with other taxes may result in abolishing the state property tax; and if the intangibles tax is restored, it will not be long before the income rates may be reduced unless the plethora of funds causes an orgy of spending.

Senate Lacks Power

GROM a legal standpoint President Hoover is right in refusing to return to the senate the nominations of three members of the power commission which the senate had previously confirmed. When the senate once acted and then commissions were issued on that authority, the only way the officials could be removed would be by the president himself or by the route of impeachment. If the senate can factor against him, is correct from the standpoint of politi-"reconsider" nominations at any time, then a rebellious senate might completely tie up the administration of the government. The senate under the constitution lacks power to cancel commissions by the method of reconsidering the to force his nomination by the democrats.

We think the new power commission blundered badly in firing the two subordinates, Russell and King, who had in firing the two subordinates, Russell and King, who had shown themselves fine public servants; but the responsibility is on the commission and the president. The senate cannot go back and rewrite its minutes after the presidential commissions were executed. Senators MeName and the presidential commissions were executed. correct. Voting for the motion to reconsider was chiefly a way of venting spleen against the president or expressing honest disapproval of the action of the commission. The evidence, like a pat on the back.

The Corvallis jury came near giving the Mills killer a leather honest disapproval of the action of the commission. The evidence, like a pat on the furnishings arrive for Salem's new "White House."

The Corvallis jury came near giving the Mills killer a leather honest disapproval of the action of the commission. The evidence, like a pat on the furnishing of the craning of the Republican government and the furnishings arrive for Salem's new "White House."

By C. C. Dauer, M. D. County Department of Health There was a time not so many years past when it was suggest ed that taking cod liver oil would benefit a person. It was felt that nothing more horrible could be wished on that particular individual. Now that product taken from the livers of the cod fish has come to be essential to many people, especially for children. Formerly it was used only in tuberculosis, in some cases of rick-ets, and if the child could be persuaded to take it, in the badly undernourished. Now we look upon cod liver oil as an important remedy and a valuable food. It has been found to be valuable or essential in such conditions as: preventing and curing rickets, preventing such infections as colds, stimulating the appetite, in the treatment of tuberculosis, promotes proper growth, helping to make good teeth and bones, and is valuable in overcoming malnutrition.

This product which might well be called "canned sunshine," cellent combination of vitamins when there is little sunshine.

The question is often asked: can something else be substituted for cod liver oil? Yes, plenty of sunshine. Other substitutes, soviolet light are valuable but do not supply the Vitamin A. The reason people want substitutes is because they think that their made about the taste and naturally the child believes he cannot take the "awful stuff." The pay-

Roosevelt and the Presidency

NOVERNOR Roosevelt writes the editor of the Oregon-I ian that he is not a candidate for president in any way, shape or form. And in the same paper Mark Sullivan predicts that Roosevelt will not be the democratic nominee, but rather Owen D. Young. Both statements will not disturb the western democrats who are pinning their hopes on the present New York governor. There is a deal of difference between not being a candidate and refusing to accept a nomination. And Young hardly seems to frame the political

cal experience. But the position of Roosevelt who will continue governor of New York for two years with a record for vote-getting that beat even Al Smith's would seem almost
