The district fund is the same as the 4.5 mill road tax levied by the county. The appropriation for 1930 was \$114,663.88, however, more than this was spent as there was a balance at the beginning of the year of \$22,007 .-97. The books show a balance of \$13,317.76 to begin the year

The largest outlay in any district was in district 12, Scotts Mills, where \$9,625.29 was spent. Of this, \$5,744.67 was for suffacing and \$2,934.10 for grading, also the two largest single items in these respective divisions. The heavy outlay in this territory was due to work on the new road. Scotts Mills-Crooked finger road, which was improved to the same extent as a market road, and which is in effect continuation of the Scotts Mills market road. On this same road, some other money was expended, this being the of the district.

General expenditures of the district fund totaled \$1,271.63, while \$16,161.63 was aportioned to the corporate towns of the county for use on the roads within the city boundaries.
