THREE OFFERS MADE COUNCIL

Garbage Question Attracts Additional Interests; Propositions Vary

Three proposals for collection and disposal of garbage in Salem were laid before the city council Monday night, all being referred to the committee on incinerator and sewage disposal.

The first, an extensive proposition submitted by Phil S. Gregory, field manager of the Communities Chemical Service corporation, proposes that the city council should purchase the general collection of all garbage from all householders in the city at an annual cost of \$29,860. The corporation would agree to construct and to operate an odorless sanitary disposal plant which at the end of five years the city would agree to purchase for its erection cost less depreciation.

The second proposal was made by F. N. Kurth, who offers the city \$2000 a year for a five-year franchise for the collection of garbage. Kurth plans to operate the present incinerator plant without cost to the city. In his proposal, however, is a clause providing that the council must enact a suitable ordinance making compulsory the disposal of all garbage. Kurth attached to his proposal a set of rates for collection service.

The third proposal was submitted by the Sanitary Service company, represented by Charles Loss and William Schlitt. They agree to operate the incinerator without cost to the taxpayers in return for an exclusive garbage collection franchise for which they will pay the city \$1 a year for the five years the franchise is effective. Like Kurth, the Sanitary Service company stipulates in their proposal that the council enact suitable ordinances to make disposal of garbage by all householders compulsory.

PETITIONS IN FOR TWO COUNTY ROADS

Petitions for two county roads were filed with the county court yesterday, and in each instance the road sought had been petitioned for previously.

Andrew Pederson and others seek a county road in the Silver Creek Falls area which, they say, will give children a road to school, will connect Silverton Hills and Evans Valley districts, and will generally open up their territory.

This route is slightly different than the road in this section requested previously.

The petition was turned down because voters declared the grade too steep. Under the new petition, this would be changed.

R. E. Donahue and others seek a county road out from the Champeog-Butterville road, which would skirt LaRocca hill, go along the river and then back on the Champeog-Butterville road below the old rock quarry near the Lee Loy place.

This petition, it is considered, will not meet with approval of the county court, because the city has in mind, when it creates additional roads in this section, a route on which it is said construction will be preferable. A petition similar to the one now in was presented before, but the matter was dropped.
